Psychedelic Immortality: Nietzschean Perspectives on Reincarnation, Femtheogens, and Philosophy Joseph I.

Breidenstein Jr.,2025-09-02 Recent research has revealed a psychedelic inspiration for Nietzsche's philosophy and far from being a novelty in the history of philosophy there is significant evidence that several of the first western philosophers ingested psychedelics as well In his first book Joseph I Breidenstein Jr PhD maintained that western philosophy began as what we today would call a feminist religious reformation in the sense that many prominent presocratic philosophers were reviving a paleo neolithic goddess centered religiosity of rebirth within the largely patriarchal and death glorifying culture of archaic Greece And in this book Dr Breidenstein Jr proposes that the presocratics psychedelic reincarnationist feminine model of education and or worldview is better suited for democracy in the twenty first century than the economic model of education that takes the west's mainstream materialistic secular worldview for granted For several decades now researchers have acknowledged both that the empirical evidence for reincarnation is overwhelming and that psychedelics can evoke past life recollections but explanations for either reincarnation or how psychedelics do this have yet to be offered By combining Nietzsche's philosophy with the work of other thinkers Psychedelic Immortality both provides explanations for each of these phenomena and explores how situating education and democracy within the context of reincarnation can incite a renaissance of American culture and politics For Nietzscheans and philosophers in particular this book illustrates the contemporary relevance of two neglected aspects of Nietzsche scholarship i e psychedelics and reincarnation and for researchers in such fields as feminist philosophy of religion ecotheology philosophy of education social political philosophy and eastern philosophy it offers a more plausible and healthier worldview in which to explore possibilities in their respective fields that are diminished by the mainstream paradigm For spiritual seekers of all paths it offers a conception of philosophy as a practice of awakening goddess consciousness that unfolds over the course of successive lifetimes **Psychedelic**

Experience Aidan Lyon,2023-09-26 Psychedelic Experience presents a philosophical account of psychedelic experience A central premise of the book is that such experiences are mind revealing experiences and that they can be induced by means other than psychedelics In particular the book argues that psychedelic experiences can also be had as the result of meditation Aidan Lyon presents a unified conceptual framework for thinking about the different kinds of psychedelic experiences one may have as a result of psychedelics meditation and their combination This framework is then used to shed new light on various commonalities between psychedelics and meditation such as the ability to promote long lasting increases in mindfulness and their reputation for inducing mystical experiences Finally the book uses these new philosophical resources to flip things around and shine the light back on philosophy itself arguing that psychedelic experiences can be used as tools for doing philosophy The result is a new approach to philosophy or the revival of an ancient one which integrates traditional analytic methods with a range of psychedelic techniques Heavy Metal Deena

Weinstein,2000-04-07 The definitive study of heavy metal culture that does for metal what Greil Marcus's Lipstick Traces did for the Sex Pistols Chicago Sun Times *trained and trusted* Philip Green,2022-01-27 For nearly 50 years students at Atlantic College ran inshore rescue services along a treacherous stretch of the South Wales coast As auxiliary coast guards lifeboat volunteers for the RNLI and beach lifeguards these 16-18 year olds from different backgrounds and countries proved competent courageous and determined This is an account of the rescue services from their inception in 1962 based on the stories of the students themselves They are by turns funny grim and hair raising It's a testimony to vision ambition and dedication and to what can be done when you harness teenagers' powerful urge to help humankind Sold in aid of the charity Atlantic Pacific which trains teenagers in every aspect of rescue at sea

Psychedelic Consciousness Daniel Grauer,2020-07-07 An examination of the use of psychedelics for understanding ourselves connecting with the world around us and enacting outer change through inner transformation Explores sacred tools and technologies to help us reestablish a lost ideology of unity with a specific focus on natural plant fungi psychedelics Looks at the history of psychedelics and their role in facilitating natural intelligence's ability to increase itself through ongoing analysis of its own experience Provides guidelines for safely using natural plant fungi psychedelics and integrating them into society to access unified consciousness and restore balance to our world Our ecological social and political issues all stem from the ideologies that drive our collective actions In contrast to our innate humanity which is rooted in unity these ideologies have led us to believe that we are separate from each other separate from nature and separate from the results of our actions Such a worldview encourages individuals to maximize self interest which then causes fragmentation conflict pollution and the depletion of natural resources Offering practical steps that we can take

to heal ourselves and our fragmented world author Daniel Grauer explores the use of sacred tools and technologies such as natural psychedelics meditation and yoga in order to reestablish an ideology of unity work in symbiotic harmony with the Earth and restore our world as a sustainable and prosperous whole Grauer explains how individuals and by extension societies benefit from safely accessing transcendent states of consciousness such as those provided by psychedelics He explores how psychoactive substances have been used throughout history all over the world for healing personal growth spiritual development and revealing hidden truths such as in the Eleusinian Mysteries Soma practices in Vedic India and rituals in several South American indigenous cultures Drawing on the plant intelligence work of Paul Stamets and Stephen Buhner Grauer shows that the growth of individual and collective intelligence is hindered by the prohibition of psychedelics which naturally foster humanity's capacity for analysis innovation and cooperation In addition to creating a sense of unity with all things psychedelics offer the mind a new perspective from which to analyze its experience and heighten its awareness Drawing on his own experience and research Grauer provides guidelines for how to safely use natural plant fungi psychedelics in order to access the unified consciousness of our ancestors and induce the states of awareness we need to restore natural harmony to our world

Psychedelic Revival Sean P Lawlor, 2024-06-04 For psychotherapists and inner explorers an expansive multidimensional odyssey into the history practice and potential of psychedelic healing Now that the stigmas against psychedelic medicine are finally lifting there's a lot of curiosity and confusion about these powerful compounds How can psychedelics be used safely What are the risks Can they truly help heal the wide variety of conditions that has garnered such international attention In *Psychedelic Revival* Sean Lawlor invites you on a deep dive into the science spirituality and practice of psychedelic healing a revival of both the first wave of pre 1960s research and ancient healing traditions with plant medicines Join this respected author and researcher to gain a full spectrum understanding of the possibilities and limits of psychedelics including The Western history of psychedelic medicine and recreational use The millennium spanning legacy of Indigenous plant medicine traditions In depth chapters on psilocybin LSD MDMA ketamine mescaline ibogaine peyote ayahuasca DMT and more Practical insights from microdosing to psychedelic assisted psychotherapy to transformative mystical experiences The shadow dimensions of psychedelics bad trips scientific stigmatization inequality of access and many other essential topics Informed by solid research and direct wisdom from perceptive firsthand accounts Lawlor guides you into the psychedelic landscape covering treatment methods realistic benefits and the legitimate perils psychedelics can induce Along the way he shares exclusive interviews with luminaries such as Michael Pollan Rick Doblin Camille Barton Carl Hart Jim Fadiman Rick Strassman Natalie Ginsberg Sandor Iron Rope and many more Psychedelics have tremendous healing potential yet all evocative modalities should be handled with care To make good choices we need quality information about the prospects and pitfalls of these emerging therapeutic tools *Psychedelic Revival* is an invaluable resource for navigating this exciting frontier in Western healing

Psychedelic Capitalism Jamie

Brownlee, Kevin Walby, 2025-05-06T00:00:00Z Psychedelics have long been sanctioned as dangerous substances Today psychedelics are enjoying a new found appeal even being idealized as wonder drugs As part of the so called psychedelic renaissance reports abound about the benefits of these substances for remedying individual mental health issues and bringing about social change Offering a critical view of these developments Psychedelic Capitalism locates this renaissance in the context of corporate capture medicalization and the war on drugs Wealthy entrepreneurs are investing billions in the psychedelics industry Biotechnology firms are racing to capture intellectual property and monopolize psychedelic supply chains Venture capitalists are leveraging the prospects of a lucrative mass market Together these actors are appropriating Indigenous knowledge and claiming ownership over substances that have been in the public domain for centuries Brownlee and Walby ask if corporations and the medical establishment are suited to steward the mainstreaming of psychedelics raising concerns with how the psychedelic renaissance is entrenching systems of inequality limiting access and affordability and increasing the reach of drug war surveillance and criminalization Interrogating the consequences of psychedelic capitalism the authors point to what could be gained from a just and equitable psychedelic future rooted in the public interest
