

## **Medical Malpractice: Know the Different Types of Medical Negligence**

Are you a victim of medical malpractice? Do you need to consult with a medical malpractice lawyer? First, you need to understand how the UAE law addresses medical malpractice, medical errors and/or medical negligence. Seeing your loved ones suffer from an illness and experience pain is heart-breaking. It can be even more painful if someone suffers due to medical error or negligence. This article will provide you with an overview of various types of medical negligence/medical errors.

### **What is Medical Negligence?**

Medical negligence refers to wrongdoing by medical professionals that result in injury to the patients. Medical errors take place when healthcare professionals fail to follow the appropriate procedures expected of a healthcare professional, which can result from a lack of knowledge or simply human error. If you are a victim of medical negligence, it is important to hire a [medical malpractice lawyer](#) who can advise and assist you with legal action if appropriate.

### **Types of Medical Negligence**

Before you hire a medical malpractice lawyer in the UAE, it is important to know more about different cases of medical negligence. A few examples are as follows:

- **Wrongful Diagnosis**

Wrongful diagnosis is one of the most common types of medical negligence or medical error. In most cases, the health condition of patients worsens due to a misdiagnosis. When a medical professional overlooks a symptom or misreads a test, they fail to identify the exact issue. As a result, it may lead to a wrongful diagnosis and consequently improper treatment, and naturally this impacts the health of the patient.

- **Anaesthesia Disasters**

During several surgical procedures, anaesthesia is used to prevent the person from experiencing pain. However, medical professionals must be well aware of the precise dose of anaesthesia to be administered to patients. Overdose can be fatal and can lead to stroke, traumatic brain injury, or death. Therefore, mistakes in administration and dosage of anaesthesia are considered a case of medical negligence.

- **Wrong Treatment**

Another common example of medical malpractice or negligence is the wrong treatment. In some cases, medical practitioners fail to identify the illness and subsequently prescribe incorrect medications. Sometimes, there are chances a healthcare professional may prescribe a medication that is contraindicated for a patient and as a result, worsens the condition of the patient.

- **Surgical Errors**

Performing surgery requires expertise and it comes with significant responsibility for medical professionals. The surgeons must know the necessary precautions and right equipment to
