Shakespeare's History Plays Robert Watt, 2014-06-11 Shakespeare's history plays are central to his dramatic achievement In recent years they have become more widely studied than ever

stimulating intensely contested interpretations due to their relevance to central contemporary issues such as English national identities and gender roles Interpretations of the history plays have been transformed since the 1980s by new theoretically informed critical approaches Movements such as New Historicism and cultural materialism as well as psychoanalytical and post colonial approaches have swept away the humanist consensus of the mid twentieth century with its largely conservative view of the plays The last decade has seen an emergence of feminist and gender based readings of plays which were once thought overwhelmingly masculine in their concerns This book provides an up to date critical anthology representing the best work from each of the modern theoretical perspectives The introduction outlines the changing debate in an area which is now one of the liveliest in Shakespearean criticism

Shakespeare and a Place Calling Itself Rome Graham Holderness, 2025-06-30 This new examination of Shakespeare's four Roman tragedies Julius Caesar Titus Andronicus Coriolanus and Antony and Cleopatra revisits Shakespeare's dramatic recreations of ancient Rome in the light of considerations of place the places from which Shakespeare initiated his imaginative reconstructions where plays are written and performed the places he constructed within the plays the places the plays imagine and recreate together with the places from which he derived them the places within which we as readers and spectators experience those creations where such plays are read viewed and critically analysed Alongside this analysis the book explores contemporary critical debates and the uses of place and space in selected modern adaptations the Taviani brothers' Italian film *Caesar Must Die* Julie Taylor's film *Titus* John Osborne's play *A Place Calling Itself Rome* and Ahmed Shawqi's Arabic *Death of Cleopatra* The book provides a descriptive palimpsestic map of the places within which Shakespeare's Roman plays operate tracing the contours of Rome's Republic and Empire overlaid with the Europe of Shakespeare's day in which a Romanised London looked with fascination towards the East towards Rome and Alexandria Equipped with such a map we can attempt to do what Shakespeare did to recreate ancient Rome in conjunction and rapprochement with its early modern and modern counterparts

The War Against the Past Frank Furedi, 2024-08-20 A war is being waged against the Past Whether it's toppling statues decolonising the curriculum or erasing terms from our vocabulary a cultural crusade is underway designed to render the past toxic It is condemned as enemy territory and has become the target of venomous hate What is at stake in provoking such a strong sense of societal shame towards Western history In this book Frank Furedi mounts a fierce defence of the past and calls for a fight back against the delegitimization of its ideals and accomplishments Casting the past as a story of shame has become a taken for granted outlook permeating the educational and cultural life of western society from the top down Its advocates may see it as a cultural imperative but a society that loses touch with its past will face a permanent crisis of identity Squandering the wisdom provided by our historical inheritance means betraying humanity's positive achievements Challenging this great betrayal Furedi argues is one of the most important battles of our time

Shakespeare's Early History Plays Dominique Goy-Blanquet, 2003 Like many of his fellow playwrights Shakespeare turned to national history for inspiration In this study Dominique Goy Blanquet provides a close comparison of the Henry VI plays and Richard III with their historical and theatrical sources demonstrating how Shakespeare was able to meet not only the ideological but also the technical problems of turning history into drama how by cutting carving shaping casting his unwieldy material into performable plays he matured into the most influential dramatist and historian of his time Recent criticism of Shakespeare's history plays has often consisted of fierce arguments over their ideological import and Shakespeare's position on the

spectrum of current political opinions This book however stems from the belief that a more constructive starting point for research is the exploration of the technical problems raised by turning heavy narratives into performable plays rather than the political motives that could inspire a playwright's representation of national history Illuminating and instructive Shakespeare's Early History Plays includes not only close investigation of the verbal poetic and political texture of the plays but also provides a broad overview of the wider sixteenth century historiographical contexts of the plays and their significance to Shakespeare's oeuvre more generally

Staging Female Characters in Shakespeare's English History Plays Hailey Bachrach, 2023-11-22 Hailey Bachrach reveals how Shakespeare used female characters in deliberate and consistent ways across his history plays Illuminating these patterns she helps us understand these characters not as incidental or marginal presences but as a key lens through which to understand Shakespeare's process for transforming history into drama Shakespeare uses female characters to draw deliberate attention to the blurry line between history and fiction onstage bringing to life the constrained but complex position of women not only in the past itself but as characters in depictions of said past In Shakespeare's historical landscape female characters represent the impossibility of fully recovering voices the record has excluded and the empowering potential of standing outside history that Shakespeare can only envision by drawing upon the theatre's material conditions This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details

Shakespearean Readings Carlo Maria Bajetta, Luisa Conti Camaiora, 2014-09-03 This volume contains a series of papers we delivered at the annual Shakespeare conference held at the Università Cattolica of Milan over three years During this period our research interests ran on more or less parallel lines moving from Shakespeare's sonnets to the Bard's influence on Keats and Shelley If this was probably due to a similar way of interpreting the conference titles it was just a coincidence that both of us devoted particular attention to King Lear This play we discovered was particularly relevant to the work we were autonomously carrying out Luisa Camaiora being then engaged in writing her book on Keats's Odes and Carlo Bajetta editing Shelley's Peter Bell As a consequence we started mentioning articles discussed recent research and there was much swapping of books which created more than a little confusion in our bookshelves and much irritation in some University librarians When we looked back at these essays we were surprised to note that a fil rouge seemed to run through them From the ambiguities of one of Shakespeare's most famous sonnets number 116 they move on to describe the allusive structure of the sonnet chorus of Romeo and Juliet hence to the complexities of the initial scene of King Lear and the uses to which this play was put by Keats and Shelley they eventually come back to Keats's relationship with the works of the Bard and finally to yet another sonnet which constitutes in many ways an original re-reading of Shakespeare Shakespearean
