Pronouns in such environments not only exhibit familiar distinctions such as that between bound and referential pronouns if they refer to the attitude holder they also participate in a broader range of phenomena e g distinguishing between a de se reading involving a conscious self directed belief and a de re reading involving an accidental belief about oneself Topics covered include the semantics of attitude reports that contain pronominal elements the semantics of pronominal features and their connection to indexicality new insights in the connection of pronominal typology and logophoricity or anti logophoricity and finally the localization of embedded pronouns within a bigger picture involving the nature of perspective and the analysis of quasi pronominal phenomena such as sequence of tense *Journal of the House of Representatives of the State of South-Carolina* South Carolina.
