Book Banning in

21st-Century America Emily J. M. Knox, 2015-01-16 Requests for the removal relocation and restriction of books also known as challenges occur with some frequency in the United States Book Banning in 21st Century American Libraries based on thirteen contemporary book challenge cases in schools and public libraries across the United States argues that understanding contemporary reading practices especially interpretive strategies is vital to understanding why people attempt to censor books in schools and public libraries Previous research on censorship tends to focus on legal frameworks centered on Supreme Court cases historical case studies and bibliographies of texts that are targeted for removal or relocation and is often concerned with how censorship occurs The current project on the other hand is focused on the why of censorship and posits that many censorship behaviors and practices such as challenging books are intimately tied to the how one understands the practice of reading and its effects on character development and behavior It discusses reading as a social practice that has changed over time and encompasses different physical modalities and interpretive strategies In order to understand why people challenge books it presents a model of how the practice of reading is understood by challengers including what it means to read a text and especially how one constructs the idea of appropriate reading materials The book is based on three different kinds sources The first consists of documents including requests for reconsideration and letters obtained via Freedom of Information Act requests to governing bodies produced in the course of challenge cases Recordings of book challenge public hearings constitute the second source of data Finally the third source of data is interviews with challengers themselves The book offers a model of the reading practices of challengers It demonstrates that challengers are particularly influenced by what might be called a literal common sense orientation to text wherein there is little room for polysemic interpretation multiple meanings for text That is the meaning of texts is always clear and there is only one avenue for interpretation This common sense interpretive strategy is coupled with what Cathy Davidson calls undisciplined imagination wherein the reader is unable to maintain distance between the events in a text and his or her own response These reading practices broaden our understanding of why people attempt to censor books in public institutions 21st Century Retro: "Mad Men" and 1960s America in Film and Television Debarchana Baruah, 2021-04-16 Numerous contemporary televisual productions revisit the past but direct their energies towards history's non events and anti heroic subjectivities Debarchana Baruah offers a vocabulary to discuss these using Mad Men as a primary case study and supplementing the analysis with other examples from the US and around the world She takes a fundamentally interdisciplinary approach to studying film and television drawing from history memory and nostalgia discourses and layering them with theories of intertextuality paratexts and actor networks The book's compositions style invites discussions from scholars of various fields as well as those who are simply fans of history or of Mad Men Secrecy and Community in 21st-Century Fiction María J. López, Pilar Villar-Argáiz, 2021-01-14 Secrecy and Community in 21st Century Fiction examines the relation between secrecy and community in a diverse and international range of contemporary fictional works in English

In its concern with what is called communities of secrecy it is fundamentally indebted to the thought of Jacques Derrida Jean Luc Nancy and Maurice Blanchot who have pointed to the fallacies and dangers of identitarian and exclusionary communities arguing for forms of being in common characterized by non belonging singularity and otherness Also drawing on the work of J Hillis Miller Derek Attridge Nicholas Royle Matei Calinescu Frank Kermode and George Simmel among others this volume analyses the centrality of secrets in the construction of literary form narrative sequence and meaning together with their foundational role in our private and interpersonal lives and the public and political realms In doing so it engages with the Derridean ethico political value of secrecy and Derrida's conception of literature as the exemplary site for the operation of the unconditional secret      *Tactical Readings* Nicola Pitchford, 2002 Both writers novels borrow heavily from other authors and in doing so they offer strategies for a politically committed rereading of literary history and its interaction with the popular imagination      **Teacher and Librarian Partnerships in Literacy Education in the 21st Century** Jorón Pihl, Kristin Skinstad van der Kooij, Tone Cecilie Carlsten, 2017-03-22 This volume explores teacher and librarian partnerships in literacy education showing that such partnerships are essential to literacy education in 21st century Teacher and librarian partnerships contribute significantly to the realization of the democratic mandate of the teaching and library profession Partnerships respond to the educational challenges characterized by an unprecedented pace of knowledge development digitalization globalization and extensive transnational migration The contributors reconceptualize literacy education based on teacher and librarian partnerships Studies from Sweden Norway and the U K analyze such partnerships as sociocultural and intercultural practices documenting ways in which teacher and librarian partnerships in literacy education enhance reading literacy learning empowerment and social justice The authors treat literacies as social practices rather than as an autonomous skill working with interdisciplinary perspectives that draw on educational research New Literacy Studies library and information science and interprofessional studies Partnerships facilitate reading for pleasure and reading engagement in work with school subjects and curriculum goals irrespective of socio economic or cultural background or gender The partnerships facilitate work with multimodal literacies and inquiry based learning both of which are essential in the 21st century Equally important the contributors show that the partnerships foster work with the multiple literacies of students and communities and students attachment to the public and school library The contributors also analyze tensions and contradictions in literacy education and in school library policy and practice and attempts to deal with these challenges Teacher and Librarian Partnerships in Literacy Education in the 21st Century brings together leading scholars in educational research and literacy studies including Brian V Street Teresa Cremin Joan Swann and Jorón Pihl The volume addresses scholars and is relevant for students teachers librarians and politicians      **21st Century Education: A Reference Handbook** Thomas L Good, 2008-10-01 21st Century Education A Reference Handbook offers 100 chapters written by leading experts in the field that highlight the most important topics issues questions and debates facing educators today This
