Reading Miscellany in the Roman Empire Assistant Professor of Classics and Senior Research Associate of the Cobb Institute of Archaeology Scott J DiGiulio, Scott J. DiGiulio, 2024 Aulus Gellius and his sole surviving work the *Noctes Atticae* NA have long stood on the periphery of Classical scholarship This second century CE compilation conventionally termed a miscellany collects vast amounts of otherwise lost ancient literature and the depictions of scholarly activity throughout the work have led some to see in Gellius a kindred spirit a Classicist *avant la lettre* Yet the NA is a fascinating work of literature in its own right depicting the intellectual and literary culture at the height of the Roman Empire and offering invaluable evidence for the evolution of Latin prose as a literary form in the Antonine period In contrast to previous scholarship that looks past the randomness of the NA this book argues that the conceit of disorder enabled Gellius to probe the nature of reading in the second century CE Gellius central preoccupation is articulating a distinct set of ways of reading that may be employed to navigate the web of literature in the Roman Empire In turn each of these ways of reading through material framing devices focal characters recurrent citations in dialogue with one another and allusive references to other near contemporary works can be used to examine Gellius collection and appreciate its literary qualities Incorporating inter and intratextual analysis alongside narratology informed approaches this book investigates the strategies used by Gellius to innovate within the Latin literary tradition and provides a framework for interpreting his *varietas* on its own terms

projected back then due to e.g. high divorce rates and an increase of crime. Nevertheless the nostalgic view of the suburbs as the Promised Land has survived. Postwar critics object to this perception considering the suburbs rather as depressing landscapes of mass consumption, conformity and alienation. This book exemplifies the dualistic representation of suburbs in contemporary American cinema by analyzing *Pleasantville*, *The Truman Show* and *American Beauty*. It examines how utopian concepts of suburbia are created culturally and psychologically in the films and how the underlying anxieties of the suburban experience visualized by the dystopian narratives challenge this ideal.

*The Social Life of Sound* Sophia Maalsen, 2019-01-28. *The Social Life of Sounds* argues for the agency of sounds and music and the acceleration of their social lives in the Digital Age. Drawing upon research with composers, producers, record collectors, DJs and record labels, the book problematizes the notion of artistic authorship as it is framed in Western systems of property. Acknowledging that things, sounds, samples and recorded music and people are co-constituted and that personhood is distributed through things and their reuse, Maalsen makes a case for understanding sound as multibiographical and challenges the possessive individual that is the basis of artistic copyright.

*Narrative after Deconstruction* Daniel Punday, 2003-01-01. Interrogating stories told about life after deconstruction and discovering instead a kind of afterlife of deconstruction, Daniel Punday draws on a wide range of theorists to develop a rigorous theory of narrative as an alternative model for literary interpretation. Drawing on an observation made by Jean-François Lyotard, Punday argues that at the heart of narrative are concrete objects that can serve as lynchpins through which many different explanations and interpretations can come together. *Narrative after Deconstruction* traces the often grudging emergence of a post-deconstructive interest in narrative throughout contemporary literary theory by examining critics as diverse as Jacques Derrida, Gilles Deleuze, Elizabeth Grosz and Edward Said. Experimental novelists like Ronald Sukenick, Raymond Federman, Clarence Major and Kathy Acker likewise work through many of the same problems of constructing texts in the wake of deconstruction and so provide a glimpse of this post-deconstructive narrative approach to writing and interpretation at its most accomplished and powerful.
