**Management** Rakesh K. Sarin,2012-12-06 In the fall of 1992 a conference honoring Elwood S Buffa was held at the Anderson Graduate School of Management of the University of California Los Angeles This book is a collection of the work presented at that conference The scholars who gathered to honor El are the prominent researchers in the field of Operations Management Their collective work published in this book represents the richness of the field and provides the reader with valuable insights into its important issues and problems While any grouping of the articles by these distinguished scholars will be arbitrary I have organized the book in four sections In the first section the articles dealing with the strategic issues in Operations Management are compiled The articles deal with continuous improvement quality services supply chain management and creating value through operations The articles that explore the interface of Operations Management with other functional areas e g engineering and marketing are grouped in the second section The third section of the book contains articles that attempt to model some important planning problems that arise in the management of production and operations Some of the papers in this section provide state of the art reviews of selected topic areas Finally the fourth section contains articles that deal with future directions for Operations Management The authors offer several insights into the future evolution of the field The book begins with the keynote address given by El Buffa at the start of the conference on November 2 1991      *Operations Management* Michael Lewis,Nigel Slack,2003      Operations Management Mike Pycraft,2000

**Production/operations Management** Terry Hill,1991 Covers key aspects of managing either the production function responsible for manufacturing a product or an operations function responsible for providing a service The book includes case studies reflecting the nature of management An LPBB edition is available      Lean and Cleaner Production Peng Wu,Sui Pheng Low,2013-12-18 This book explains how in moving towards Cleaner Production the Lean Production Philosophy can be applied to reduce carbon emissions in prefabrication one major source of the Greenhouse Gas GHG emissions which contribute to global climate change This book examines theories and principles in the Lean Production

Philosophy to develop situation based carbon reduction strategies for precast concrete manufacturers and contractors in terms of Site layout Supply Chain Production Stocks and Installation Management It presents the empirical findings of surveys and case studies with managers and professionals working for precasters and contractors in Singapore findings which provide good practical guidance for precast concrete manufacturers and contractors to achieve low carbon emissions and to perform better in many sustainability based rating systems such as the Singapore Green Labelling Scheme and the Building and Construction Authority BCA Green Mark Scheme

**Management Laureates** Arthur G. Bedeian, 2018-04-17

First published in 1992 This volume compiles the autobiographies of the management discipline's most distinguished laureates Prior to this publication the available management literature provided little insight into the personal and intellectual lives the frustrations as well as the triumphs of the individuals in the management discipline Although such understanding could be conveyed in many forms perhaps the most intimate and fascinating of these for gaining behind the scenes insights is the autobiography Thus the autobiographies in this volume as in the five companion volumes offer the reader not only a glimpse of the subjective determinants and personal experiences of the management discipline's most distinguished laureates but also a deeper understanding of what management is and what it is becoming The various accounts reflect a diversity of approaches interests and experiences
