Readings For Citizens At War:

Readings for Citizens at War Theodore Morrison, Philip Edward Burnham, 1943 **Leader's Guide for Primary Source Readings in Christian Morality** Diana Turney, 2008-02-04 Primary Source Readings in Christian Morality presents the living words of the Catholic Church and the wisdom of everyday people addressing the moral issues that impact our lives. One goal of Primary Source Readings in Christian Morality is to help students realize the connection between behavior and character. Additionally, the hope is that students will uncover that the road to authentic happiness and joy involves working on their relationship with God. Within this book, you will find writings from Pope Benedict XVI, The Second Vatican Council, Richard Gula, SS Pope Paul VI, Ronald Rohlheiser, Erich Maria Remarque, Pope John Paul II, The United States Conference of Catholic Bishops. Selected Readings in American Military History Infantry School (U.S.), 1953 Readings for Citizens at War Étienne Gilson, 1943 **The Legislative Record: Containing the Debates and Proceedings of the Pennsylvania Legislature** Pennsylvania. General Assembly, 1858 *The Citizen-Soldier in War and Peace* James Biser Whisker, John R. Coe, 2021-09-15 *The Citizen Soldier in War and Peace* is a short historical look at the use of firearms in America and throughout the world. This book appeals to anybody who believes in the Second Amendment or who is interested in the historical use of firearms. It begins with the use of guns for hunting and self-protection as well as personal property and of course national defense early in our country's early history. It also analyzes the philosophical standpoint of the idea of the armed citizen and its relationship to freedom. A freeman with a gun, an armed citizenry means a free country. The book also does a thorough job of examining other countries and other philosophical aspects of arming the citizenry. This book clearly defines the Militias in other countries. It touches on China and the Soviet Union and their philosophy as well. The book is extremely readable and would be advised reading for anyone from high school to grad school. Those interested in history, political science, or current events will find this book a must for their personal library. **African American Women During the Civil War** Ella Forbes, 2013-01-11 This study uses an abundance of primary sources to restore African American female participants in the Civil War to history by documenting their presence, contributions, and experience. Free and enslaved African American women took part in this process in a variety of ways including black female charity and benevolence. These women were spies, soldiers, scouts, nurses, cooks, seamstresses, laundresses, recruiters, relief workers, organizers, teachers, activists, and survivors. They carried the honor of the race on their shoulders, insisting on their right to be treated as ladies and knowing that their conduct was a direct reflection on the African American community as a whole. For too long, black women have been rendered invisible in traditional Civil War history and marginal in African American chronicles. This book addresses this lack by reclaiming and resurrecting the role of African American females individually and collectively during the Civil War. It brings their contributions in the words of a Civil War participant, Susie King Taylor, in history before the people. **Readings in Unemployment** United States. Congress. Senate. Committee on Unemployment

Problems,1960 **Power Practice: Nonfiction Reading Comprehension, Gr. 5-6, eBook** Vicky Shiotsu,2005-02-01

Democratic Citizenship and War Yoav Peled,Noah Lewin-Epstein,Guy Mundlak,Jean Cohen,2014-06-03 This edited volume explores the theoretical and practical implications of war and terror situations for citizenship in democratic states Citizenship is a key concept in Western political thought for defining the individual's relations with society The specific nature of these rights duties and contributions as well the relations between them are determined by the citizenship discourses that prevail in each society In wartime including low intensity wars democratic societies face different challenges than the ones facing them during peacetime in areas such as human rights the status of minorities the state's obligations to its citizens and the meaning of social solidarity War situations can affect not only the scope of citizenship as an institution but also the relations between the prevailing discourses of citizenship and between different groups of citizens Since 9 11 and the declaration of the war on terror many democracies have been grappling with issues rising out of the interface between citizenship and war This volume examines the effects of war on various aspects of citizenship practice including immigration and naturalization the welfare state individual liberties gender relations multiculturalism social solidarity and state civil society relations This book will be of great interest to students of military studies political science IR and security studies in general

War Power Philip Gould,2024-09-10 What happens if we reconsider the literature of the Civil War North in light of the transformation of the federal state's power While literary scholarship about the Civil War has more generally focused on the rise of wartime nationalism Philip Gould looks particularly at how literary works engage the subjects of censorship propaganda and the reconfigured meanings of loyalty and treason at a time of political crisis During the war the Lincoln Administration shut down opposition newspapers and curtailed free expression and civil liberties protected by the US Constitution Lincoln also suspended the writ of habeas corpus to deal with political dissenters and try to control public opinion Early in the war he coined the phrase war power to describe the presumed powers to address this crisis his policies became controversial throughout the conflict War Power Literature and the State in the Civil War North considers literary production in this total war that radically changed the federal government's and its military's relation to traditional norms and spaces of private domestic and social life Each chapter focuses on a major writer in the Civil War North's engagement with questions of identity affect and affiliation Could one love the Union as one loved home and family What were the implications for literary expression in the midst of a political culture being reshaped by censorship and propaganda The final two chapters address the role and plight of African Americans in the Civil War and its aftermath focusing particularly on African American military service as the supposed means by which racially disenfranchised Americans might become citizens

Just War Theory Jean Bethke Elshtain,1992 Available Again Long before the shock and awe campaign against Iraq in March 2003 debates swarmed around the justifications of the U S led war to depose Saddam Hussein While George W Bush's administration declared a just war of necessity opponents charged that it was a war of choice and even opportunism Behind

the rhetoric lie vital questions when is war just and what means are acceptable even in the course of a just war Originally published in 1991 in the wake of the first war against Iraq Just War Theory explores this essential dilemma With a new preface by the editor the essays in this indispensable collection move beyond the theoretical origins of just war theory to examine issues faced by military strategists politicians social theorists and anyone concerned with the provocations and costs of military action Popular wisdom once claimed that notions of just war would become obsolete with the onset of total warfare characterized by attacks on civilians and indiscriminating weapons of mass destruction While the last decade has been ripe with brutality just war theory is more critical than ever to the future of international relations and public discourse This readable collection is an invaluable introduction to the debate

The SAGE Encyclopedia of War: Social Science Perspectives Paul Joseph, 2016-06-15 Traditional explorations of war look through the lens of history and military science focusing on big events big battles and big generals By contrast The SAGE Encyclopedia of War Social Science Perspective views war through the lens of the social sciences looking at the causes processes and effects of war and drawing from a vast group of fields such as communication and mass media economics political science and law psychology and sociology Key features include More than 650 entries organized in an A to Z format authored and signed by key academics in the field Entries conclude with cross references and further readings aiding the researcher further in their research journeys An alternative Reader's Guide table of contents groups articles by disciplinary areas and by broad themes A helpful Resource Guide directing researchers to classic books journals and electronic resources for more in depth study This important and distinctive work will be a key reference for all researchers in the fields of political science international relations and sociology

Citizen Countess Adele Lindenmeyr, 2019-11-12 Countess Sofia Panina lived a remarkable life Born into an aristocratic family in imperial Russia she found her true calling in improving the lives of urban workers Her passion for social service and reputation as the Red Countess led her to political prominence after the fall of the Romanovs She became the first woman to hold a cabinet position and the first political prisoner tried by the Bolsheviks The upheavals of the 1917 Revolution forced her to flee her beloved country but instead of living a quiet life in exile she devoted the rest of her long life to humanitarian efforts on behalf of fellow refugees Based on Adele Lindenmeyr's detailed research in dozens of archival collections *Citizen Countess* establishes Sofia Panina as an astute eyewitness to and passionate participant in the historical events that shaped her life Her experiences shed light on the evolution of the European nobility women's emancipation and political influence of the time and the fate of Russian liberalism

Readings on International Law from the Naval War College Review, 1978-1994 John Norton Moore, Robert F. Turner, 1995

Selected Reading in Public Finance Charles Jesse Bullock, 1924

The New Larned History for Ready Reference, Reading and Research Josephus Nelson Larned, 1923

From Hannibal to Sulla Carsten Hjort Lange, 2024-01-29 The second century BCE was a time of prolonged debate at Rome about the changing nature of warfare From the outbreak of the Second Punic War in 218 to Rome's first civil

war in 88 BCE warfare shifted from the struggle against a great external enemy to a conflict against internal parties This book argues that Rome s Italian subjects were central to this development having rebelled and defected to Hannibal at the end of the third century the allies again rebelled in 91 BCE with significant consequences for Roman thought about warfare as such These rebellions constituted an Italian renewal of the war against their old conqueror Rome and an internal war within the polity Accordingly we need to add internal war to the already well established dichotomy of foreign and civil war This fresh analysis of the second century demonstrates that the Roman experience of internal war during this period provided the natural stepping stone in the invention of civil war as such It conceives of the period from the Second Punic War onward as an antebellum period to the later civil wars of the Late Republic during which contemporary observers looked back at the last great war against Hannibal in preparation for the next conflict

Reading and Writing for Civic Literacy
Donald Lazere, 2017-07-05 Lazere s book is heaven sent and will provide a crucial link in the chain of understanding how conflicts are structured and most importantly how they can be rationally addressed a healthy antidote to the scepticism that has become so pervasive in academic life Alan Hausman Hunter College This innovative book addresses the need for college students to develop critical reading writing and thinking skills for self defence in the contentious arena of American civic rhetoric In a groundbreaking reconception of composition theory it presents a comprehensive critical perspective on American public discourse and practical methods for its analysis Exercises following the text sections and readings help students understand the ideological positions and rhetorical patterns that underlie opposing viewpoints in current controversies such as the growing inequality of wealth in America and its impact on the finances of college students as expressed in paired sets of readings from the political left and right Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media as well as in education itself are foregrounded as topics for rhetorical analysis
