Readings in Child and Adolescent Psychology Paul Henry Mussen, John Janeway Conger, Jerome Kagan, 1980-01

Readings in Child and Adolescent Psychology Paul Henry Mussen, 1965 **The Adolescent as Decision-Maker**

, 2014-06-28 This book reviews current theories and research on adolescent development and their implications for education. It is organized around the theme of the adolescent as decision maker and covers areas of normal development that are crucial for the transition to independence. The issues raised by the thoughtful reviews will stimulate discussion and debate and will provide new perspectives on adolescence. **Readings in Adolescent Psychology** Thomas J. Cottle, 1977

Biographical Dictionary of Psychology Noel Sheehy, Antony J. Chapman, Wenday A. Conroy, 2016-01-08 First published in 2002 Routledge is an imprint of Taylor Francis, an information company. **Perspectives on Children's Testimony** Stephen J. Ceci, David F. Ross, Michael P. Toglia, 2012-12-06 Perspectives on Children's Testimony presents current empirical research on the factors which influence adults' perceptions of the child witness. This volume provides researchers in both the psychological and the criminal justice communities with knowledge about adult beliefs regarding child witnesses, how these beliefs may influence jury verdicts, and the relationship of these perceptions to the credibility and accuracy of children's testimony. A variety of new techniques are employed in assessing adult views of child witnesses. Special features of the volume include an in-depth treatment of techniques of interviewing child victims of sexual abuse, an examination of children's perceptions and knowledge of the legal system, and critical and theoretical integrations of the original empirical papers.

Raising America Ann Hulbert, 2004-04-13 Since the beginning of the twentieth century millions of anxious parents have turned to child rearing manuals for reassurance. Instead, however, they have often found yet more cause for worry. In this rich social history Ann Hulbert analyzes one hundred years of shifting trends in advice and discovers an ongoing battle between two main approaches: a child-centered focus on warmly encouraging development versus a sterner parent-centered emphasis on instilling discipline. She examines how pediatric psychology and neuroscience have fueled the debates but failed to offer definitive answers. And she delves into the highly relevant and often turbulent personal lives of the popular advice givers, from L. Emmett Holt and Arnold Gesell to Bruno Bettelheim and Benjamin Spock to the prominent and ever-conflicting experts of today. *Children of the Storm* Jasmin Espiritu Acuña, 1989 **Child, Family, School, Community** Roberta Berns, 1997

Readings in Pediatric Psychology Michael C. Roberts, 1993-07-31 This compendium of scholarly articles provides pediatricians, administrators, and interns with an illustration of how pediatric psychology is done. Both classics of the field as well as recent cutting-edge research have been selected from the pages of the prestigious *Journal of Pediatric Psychology* and set into historical and clinical contexts.
