Readings In Rehabilitation Administration:

Readings in Rehabilitation Administration T.F. Riggat, J.R. Lorenz, 1985-01-01 Readings in Rehabilitation Administration fills the gap in the training of human service administrators and managers The selections reflect the growing needs trends and new requirements that directly affect the human services at both the national and local levels This text meets the needs of those innovative educators who are responsive to the needs of students the human resource field and the disabled While practitioners are well trained in their field many have little or no education or training for the management roles they assume Readings in Rehabilitation Administration provides for the first time a curriculum content to prepare new administrators The articles included cover a wide range of not only current trends but classic topics which have passed the test of time An extensive bibliography categorizes rehabilitation administration management articles published during the past decade *Readings in Rehabilitation Counseling* Cecil Holden Patterson, 1960 **Handbook for Management of Human Service Agencies** T. F. Riggat, Ralph E. Matkin, 1986 A basic guide for individuals responsible for developing and or operating comprehensive or specialized human service programs Drawing on more than a decade of classroom experience and development and incorporating standards from the Commission on Accreditation of Rehabilitation Facilities 1985 Edition Riggat and Matkin have created a management tool that is as practical for human service providers as it is for students Here is the fundamental management knowledge required to establish or manage all types of human service programs and facilities The text is organized into 23 sections that describe tasks ranging from constructing mission statements and admission criteria to developing start up budgets and allocating space for both direct and indirect services Each section provides definitions and guidelines practical examples exercises and selected references While the focus is on the practices of the private not for profit sector those working in a profit oriented setting will find many of the sections and exercises to be valuable aids for developing operating and maintaining successful programs *Current Catalog* National Library of Medicine (U.S.), 1980 First multi year cumulation covers six years 1965 70 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), *Readings in Rehabilitation Counseling* Timothy F. Field, Benson Hecker, 1974 **The Management of Correctional Institutions** Marilyn D. McShane, Franklin P. Williams, 1993 Section 1 pages 1 to 68 presents an overview of the literature on prison management and the results of a national survey of wardens which enquired into actual management styles problem solving techniques and decision making approaches The national survey aimed to determine how much the literature reflected the wardens management practices Findings showed that corrections management largely reflects the literature in that it has inconsistencies an emphasis on personnel experience and an inward focus These results were used to develop a perspective focusing on a humane and caring relationship between manager and staff Section 2 pages 72 to 301 contains abstracts of the 100 most important works both essay and research on correctional institution management *Readings in American Government* Finla Goff Crawford, 1927 *Parliamentary*

Encyclopedia Genie Gertz, Patrick Boudreault, 2015-07-15 The time has come for a new in depth encyclopedic collection of
 entries defining the current state of Deaf Studies at an international level using critical and intersectional lenses
 encompassing the field The emergence of Deaf Studies programs at colleges and universities and the broadened knowledge
 of social sciences including but not limited to Deaf History Deaf Culture Signed Languages Deaf Bilingual Education Deaf Art
 and more have served to expand the activities of research teaching analysis and curriculum development The field has
 experienced a major shift due to increasing awareness of Deaf Studies research since the mid 1960s The field has been
 further influenced by the Deaf community's movement resistance activism and politics worldwide as well as the impact of
 technological advances such as in communications with cell phones computers and other devices This new Encyclopedia
 shifts focus away from the medical model that has view deaf individuals as needing to be remedied in order to correct so
 called hearing and speaking deficiencies for the sole purpose of assimilation into mainstream society The members of deaf
 communities are part of a distinct cultural and linguistic group with a unique vibrant community and way of being As
 precedence The SAGE Deaf Studies Encyclopedia carves out a new and critical perspective that breathes meaning into
 organic deaf experiences through a new critical theory lens Such a focus is novel in that it comes from deaf and hearing allies
 of the communities where historically institutions of medicine and disability ride roughshod over authentic experiences
