Reagan For Beginners:

Ronald Reagan for Beginners David Smith, Gebbie, 1984-03-01 *Reagan for Beginners* David N. Smith, Melinda Gebbie, 1984 *Unions For Beginners* David Cogswell, 2012-10-16 Do you appreciate your forty hour five day workweek Appreciate having a safe working environment Unions made this all possible in one way or another Unions bring value to all sectors of a society As the champion of people power versus corporate power unions help to spread the benefits of production throughout a society Regardless of the state of the economy there is the timeless struggle of workers trying to gain or retain their rights However a vast amount of Americans including union members are unaware of the full history of unions and how they have impacted the American workplace today Unions For Beginners provides an introduction to that essential history Written and illustrated in the user friendly accessible style of the For Beginners series Unions For Beginners presents the epic story of the labor movement in a simple memorable way The role of unions in empowering working people to rise above unfair payment and work conditions to become full fledged participants in the American dream they helped to build is told in vibrant detail Unions For Beginners presents the history of unions and the labor movement the principles underlying union organizing the decline of unions in the shadow of the rising corporate state and the resurgence in the 21st century of union activism

American Presidency for Beginners Justin Slaughter Doty, 2017-02-01 The President of the United States is an office that attracts men of all character From George Washington to Barack Obama the office has been held by farmers scholars veterans and lawyers from all regions of the United States The American Presidency For Beginners tells a concise history of the actions and consequences of all 44 presidents The evolution of the presidency 8212from the weak curator of Congress to becoming the titan of policy both domestic and foreign 8212is highlighted in 10 sections The American Presidency For Beginners is a must read for those who find the position of commander in chief compelling and who want to learn more about the eclectic personalities that have led the US *The Black Law Journal* ,1971 *Arabs & Israel For Beginners* Ron David, 2007-08-21 Arabs Israel For Beginners covers the Middle East from ancient times to the present tells the truth in plain English and is one of the few non scholarly books that is relentlessly fair to both Jews and Arabs If you want to continue to believe fairy tales about Arabs in Israel don t touch this book it will surely be hazardous to your closed mind If you want the truth about 12 000 years of Middle Eastern History then Arabs Israel For Beginners is the perfect place to start

Chomsky For Beginners David Cogswell, 2007-08-21 Noam Chomsky has written some 30 books he is one of the most quoted authors on Earth The New York Times calls him arguably the most important intellectual alive yet most people have no idea who he is or what he s about Chomsky For Beginners tells you what he s about Chomsky is known for his work in two distinct areas Linguistics and Gadfly the word applied to Socrates comes closest to the constant social irritant that Chomsky has become It is Chomsky s work as Political Gadfly and Media Critic that has given passion and hope to the general public and alienated the Major Media which is of course why you don t know more about him Chomsky s message is

very simple Huge corporations run our country the world both political parties and Major Media You suspected it Chomsky proves it If enough people open their minds to what he has to say the whole gingerbread fantasy we've been fed about America might turn into a real democracy What's so special about Chomsky For Beginners The few existing intros to Chomsky cover either Chomsky the Linguist or Chomsky the Political Gadfly Chomsky For Beginners covers both plus an exclusive interview with the maverick genius The clarity of David Cogwell's text and the wit of Paul Gordon's illustrations make Chomsky as easy to understand as the genius next door Words and art are combined to clarify but not oversimplify the work and to humanize the man who may very well be what one savvy interviewer called him the smartest man on Earth

Getting Into the Game Mary E. Stuckey, 1989-04-17 Why did Ronald Reagan have such a strong impact on the political scene when he first ran for the presidency Politics as practiced by Reagan is examined through analysis of Reagan's rhetoric from his days as the governor of California to his campaign for the presidency in 1980 The author contends that Reagan's approach is a new phenomenon and will outlast his presidency by impacting the way future candidates run for office Candidates in the past used symbols of our national identity to achieve and articulate substantive policy oriented goals Modern political rhetoric is seen as increasingly personalistic and individually oriented When rhetoric becomes dissociated from the policies and programs of national government there is a danger that the symbols devoid of substance become meaningless The author suggests that Reagan's rhetoric has accelerated the movement towards more style with less substance This incisive book defines Reagan's impact examines the conditions which enabled him to create such an impression on contemporary politics and discusses the implications of his pre presidential rhetoric and campaign style Students and scholars of political science and communications will find *Getting Into The Game* a thought provoking study *Getting Into The Game* begins with an analysis of the role played by rhetoric in our national politics and American political culture from 1960 to 1980 Further chapters provide detailed analysis of Reagan's rhetoric during his term as governor and his bid for the presidency Reagan's communication is put into the context of the political culture and personal aspects of his rhetoric A summary of the major arguments and themes of Reagan's presidency and the far reaching significance of his pre presidential campaign rhetoric complete the study *Experimental Philosophy for Beginners* Stephan Kornmesser, Alexander Max Bauer, Mark Alfano, Aurélien Allard, Lucien Baumgartner, Florian Cova, Paul Engelhardt, Eugen Fischer, Henrike Meyer, Kevin Reuter, Justin Sytsma, Kyle Thompson, Marc Wyszynski, 2024-08-30 This graduate textbook provides a basic introduction to experimental philosophy x phi In nine chapters different methods and tools used in X Phi are explained spanning quantitative vignette studies interactive experiments corpus analysis psycholinguistic experiments as well as qualitative interview studies Each chapter introduces a specific experimental method by means of a case study in an easily accessible way and covers the whole research process from the development of a research question to the interpretation of the data [Rollback!](#) Thomas Bodenheimer, Robert Gould, 1989 The first book to demonstrate how the

Right operates not only within Republican administrations but in Democratic ones as well **Public Citizen** ,1984

Playing the Game Mary E. Stuckey,1990-02-12 Part of the Praeger Series in Political Communication Playing the Game offers an exploration of the rhetoric of the Reagan Revolution The book fully explores how the rhetoric supported impeded and affected Reagan s policy goals and political success In this work the author shows how Reagan s use of language in his public speech was instrumental in the creation of the Teflon Presidency and how use of this language created a situation whereby the President would not remain unscathed forever as was the case in 1986 Further Stuckey shows how Reagan s rhetorical success was built around foreign policy events From this premise the book demonstrates why a foreign policy event the Iran Contra affair provided the most conspicuous failure of the Reagan administration The data for this volume includes speeches remarks addresses statements memorandums and other forms of public speech during the Reagan years The design of the book is both chronological and thematic given the theme of the development of Reagan s rhetoric over time and the eventual exposition of its weakness Following the introduction the book presents an analysis of Reagan s relationship with the White House press corps The second chapter details the first two years of the Reagan presidency and analyzes the learning process by examining both the smooth and rough spots of those years The third chapter focuses on the foreign policy events of 1983 1985 and on how Reagan and his staff used those events to consolidate his personal standing Chapter four provides an exegesis of the unraveling of that success between 1986 1988 and Reagan s increasing vulnerability to criticism The book includes a summary of rhetorical aspects of Reagan s presidency and discusses lessons for the past and his legacy for the future The concluding chapter focuses on Reagan s rhetorical legacy through an examination of the public speech of various candidates from the 1988 presidential election This book should be of interest to scholars of American presidency in departments of communication political science and history *Reagan's Path to Victory* Kiron K.

Skinner,Annelise Anderson,Martin Anderson,2004-12-01 In the last years of Ronald Reagan s life his voluminous writings on politics policy and people finally emerged and offered a Rosetta stone by which to understand him From 1975 to 1979 in particular he delivered more than 1 000 radio addresses of which he wrote at least 680 himself When drafts of his addresses were first discovered and a selection was published in 2001 as *Reagan In His Own Hand* by the editors of this book they caused a sensation by revealing Reagan as a prolific and thoughtful writer who covered a wide variety of topics and worked out the agenda that would drive his presidency What was missed in that thematic collection however was the development of his ideas over time Now in *Reagan s Path to Victory* a chronological selection of more than 300 addresses with historical context supplied by the editors readers can see how Reagan reacted to the events that defined the Carter years and how he honed his message in the crucial years before his campaign officially began The late 1970s were tumultuous times In the aftermath of Vietnam and Watergate America s foreign and domestic policies were up for grabs Reagan argued against the Panama Canal treaties in vain against the prevailing view that the Vietnam War was an ignoble enterprise from the start

against the Soviet Union against the growth of regulation and against the tax burden Yet he was fundamentally an optimist who presented positive values based prescriptions for the economy and for Soviet relations He told many inspiring stories he applauded charities and small businesses that worked to overcome challenges As Reagan's Path to Victory unfolds Reagan's essays reveal a presidential candidate who knew himself and knew his positions who presented a stark alternative to an incumbent administration and who knew how to reach out and touch voters directly Reagan's Path to Victory is nothing less than a president's campaign playbook in his own words

Postmodernism For Beginners

Jim Powell, 2007-08-21 If you are like most people you're not sure what Postmodernism is And if this were like most books on the subject it probably wouldn't tell you Besides what a few grumpy critics claim Postmodernism is not a bunch of meaningless intellectual mind games On the contrary it is a reaction to the most profound spiritual and philosophical crisis of our time the failure of the Enlightenment Jim Powell takes the position that Postmodernism is a series of maps that help people find their way through a changing world Postmodernism For Beginners features the thoughts of Foucault on power and knowledge Jameson on mapping the postmodern Baudrillard on the media Harvey on time space compression Derrida on deconstruction and Deleuze and Guattari on rhizomes The book also discusses postmodern artifacts such as Madonna cyberpunk Buddhist ecology and teledildonics
