Real Illusions:

Real Illusions Russell Haley,1985 Russell Haley has been dubbed probably The best Yorkshire surrealist writing in New Zealand The joke teasingly anticipates the tales in Real Illusions These fictions range across specific locations especially Yorkshire especially New Zealand but they also explore all of the dislocations which lie between Real Illusions is a book about migration haunted by journeys bridges ancestral ghosts mirrors and houses families coastlines landscapes which have the disturbing familiarity of dreams Events take place in that territory where history and imagination manoeuvre and collide Each of the stories sets out from the point defined by Salman Rushdie in his novel Shame As for me I too like all migrants am a fantasist I build imaginary countries and try to impose on them the ones that exist I too face the problem of history what to retain what to dump Real Illusions is a collection of strikingly individual stories but is also something more Russell Haley has constructed a discontinuous narrative which seeks at every point for continuities and he writes in a prose which is alert and supple stretching its skin from one place to the next

More than Real David Shulman,2012-04-09 From the late fifteenth to the eighteenth centuries the imagination came to be recognized in South Indian culture as the defining feature of human beings Shulman elucidates the distinctiveness of South Indian theories of the imagination and shows how they differ radically from Western notions of reality and models of the mind

God'S Illusion Machine Mäyeçvara dāsa,2013-12-30 In the tidal wave of intellectual argument that followed the 2006 release of Richard Dawkinss God Delusion book a fierce debate has raged between atheism and religion over the existence of God leaving the worlds scientists and laymen largely undecided in their opinion Gods Illusion Machine presents a fascinating alternative to a debate that has largely been argued within the framework of Christian versus science concepts Drawing upon

the worlds oldest body of knowledge the Vedas the author describes the massive illusion to which we are all subjected as we mistakenly believe ourselves to be physical creations of the material world In Gods Illusion Machine the material world is gradually exposed as the ultimate virtual reality machine for wayward souls who prefer a self centred rather than a God centred existence In contrast to Richard Dawkinss assertion that the religious are suffering a delusion for believing in God the author argues that both the atheists and the religious are under the spell of Gods deluding energy called My which acts in reciprocation with a souls desire to be in illusion within the physical realm By applying the profound spiritual insights of Vedic knowledge along with a healthy dose of common sense and good humour Gods Illusion Machine is an enthralling expos of the deceptive nature of the material world and the false claims of materialists regarding the nature of life and love It is a triumph of spirituality over both atheistic materialism and religious dogmatism Gods Illusion Machine is a work of major importance realigning Western religion philosophy and science with eternal spiritual truths an enlightening read for both the atheist and the religious bringing spiritual certainty and true love to bewildered souls in troubled times For atheists who like a good argument for the religious who are stuck for a reply to Richard Dawkins for fans of fantasy and sci fi where forces of light and illusion contend in battle and for you the reader whatever your disposition this book will forever change your outlook on life and its meaning As the rising sun disperses the darkness of night so in the presence of Krishna The Absolute Truth my illusion cannot stand

Truth and Genesis Miguel de Beistegui,2004-06-16 Truth and Genesis discusses the role and meaning of philosophy in the modern world Beginning with Aristotle de Beistegui traces the foundations of modern thought and draws together various threads into a unified philosophy that can serve both artistic and scientific communities

Being and Contemporary Psychoanalysis Yuri Di Liberto,2019-05-23 This book explores how philosophical realisms relate to psychoanalytical conceptions of the Real and in turn how the Lacanian framework challenges basic philosophical notions of object and reality The author examines how contemporary psychoanalysis might respond to the question of ontology by taking advantage of the recent revitalization of realism in its speculative form While the philosophical side of the debate makes a plea for an independent ontological consistency of the Real this book proposes a Lacanian reassessment of the definition of the Real as what is foreign to subjectivity itself In doing so it reframes the question of the Real in terms of what is already there beneath the supposedly linguistic constitution of subjectivity The book then goes on to engage the problem of cognition in the realm of Nature qua materiality focusing on the centrality of the body as a linguistic material hybrid It argues that it is possible to re establish the theoretical dignity of Ricoeur s notion of suspicion by building a dialogue between Lacanian psychoanalysis and three main domains of inquiry desire objects and bodily enjoyment Borrowing from Piera Aulagnier s theory of the Other as a word bearer it considers the genesis of desire and sense of reality both explainable through a hybrid framework which comprises psychoanalytical insights and material dynamics in a comprehensive account This created theoretical space is an opportunity for both philosophers and psychoanalysts to rethink key Lacanian insights in
