*Southeast Asia between China and Japan* Lam Peng Er, Victor Teo, 2011-11-15 Triangular relations which frame China and Japan as two sides of an isosceles triangle usually focus on the United States as the significant third side This edited book examines another relatively underexplored set of triangular relations those between China Japan and Southeast Asia The region comprised of eleven small and medium size states is often considered inconsequential in the tempestuous world of international politics where political clout economic prowess military strength and soft power matter most Often seen as easily dominated by extra regional great powers this volume reconsiders the region s relationship with China and Japan their two Asian neighbours to the northeast which also happen to be the world s second and third largest economies While China and Japan do compete for turf in Southeast Asia states in the region do not perceive themselves as strategic pawns of these two great Asian powers but instead as proactively engaging China and Japan in the region The country specific case studies of this book collectively support the thesis that the Southeast Asian states actively seek to manoeuvre between China and Japan for their own advantage and at the same time grapple with developments in Northeast Asia through regional integration efforts Through the establishment of benchmark norms and values Southeast Asia attempts to socialise China and Japan and other external powers to the ASEAN way Indeed Southeast Asia as a region is now the driver of East Asian multilateralism and regionalism and the East Asian reality is that Southeast Asia is a major political economic and cultural player in its own right vis vis the great powers

**The Real Conflict Between China and Japan ; an Analysis of Opposing Ideologies** Harley Farnsworth MacNair, 1930      **China and Japan in the Global Economy** Tomoo

Kikuchi, Masaya Sakuragawa, 2018-04-09 This book discusses the necessity for cooperation between China and Japan to provide international public goods to Asia It provides insight into how China and Japan can redesign the process of economic integration and security architecture to ensure peace and prosperity in Asia and how China and Japan can cooperate to correct the capital misallocation and channel savings more effectively to investments in Asia It also suggests how China and Japan can promote free trade to help Asian economies upgrade their industries in the global supply chain The book is an invaluable contribution to the existing discussion on China Japan relations and how their cooperation is beneficial not only for them but also for Asia and even the world      *Mao Zedong: The Man Who Conspired with the Japanese Army* Homare

Endo, 2025-01-11 Japanese Professor Homare ENDO known as a leading authority on China studies was born in Changchun Jilin Province China in 1941 and experienced food blockade by the Communist army during the Chinese Civil War 1948 She lost her family to starvation and slept outdoors on the bodies who died of hunger Since then she has continued to investigate what the Chinese Communist Party was and what Mao Zedong was thinking and finally succeeded in uncovering the fact that

Mao had conspired with the Japanese army during the Sino Japanese War Mao who brought about the second Kuomintang Communist cooperation in Yan an was in a situation to obtain the Kuomintang Chiang Kai shek s operational plans and sent spies to the Japanese army to sell the Kuomintang s operational plans to the Japanese army for a high price Professor Endo obtained the evidence from Japanese insider documents that Mao had even negotiated a ceasefire with the Japanese army Mao s goal was to weaken the Kuomintang army and defeat Chiang Kai shek in the Chinese Civil War that would break out after Japan s defeat The image of him as a hero of the Anti Japanese War was merely the product of propaganda It was Mao himself who was betraying the Chinese people      The United States between China and Japan Caroline Rose,Victor Teo,2014-07-24 From its insistence that Japan should favour diplomatic normalization with the Republic of China over the People s Republic of China in 1952 through its role via the Security Treaty of keeping the cap in the bottle of Japanese militarism to weighing in on the Diaoyu Senkaku islands dispute between China and Japan the United States has played a pivotal and at times controversial role in the development of China Japan relations since the end of World War II By extension US influence on China Taiwan and Taiwan Japan relations in addition to its impact on the efforts of various actors to construct a Northeast Asian regional community continues to pose important questions about the nature of the US role in East Asia in the 21st century This volume provides a multi faceted overview of the nature of America s interaction in East Asia since the end of the war and highlights the obstacles to improved bilateral and regional integration The contributors offer a range of perspectives from their respective US European and East Asian vantage points and point to the ongoing and prominent involvement of the US in the region for the foreseeable future      **Library List** National Agricultural Library (U.S.),1966      *Energy Security in Asia* Michael Wesley,2007-01-24 This book explores the various dimensions of energy security in Asia which has become an increasingly important geopolitical issue Reputable international contributors look at the roles played by each of the major energy importers the United States China Japan and India as well as the main suppliers the OPEC states Russia the Central Asian states and Australia In each case the domestic politics of energy security are investigated and state interests and perspectives on the issue are considered Analyzing the policy and security aspects of energy security the book includes an examination of the geopolitics of energy competition strategic economic and environmental dimensions the impacts of energy security on human security With energy security being one of the central issues facing the world today this book is a timely and impressive appraisal of the major energy security issues facing Asia      *Anglo-Japanese Alienation 1919-1952* Ian Nish,1982-05-20 Focuses on British and Japanese views of the events leading up to during and immediately after the Second World War      **Pan-Asianism** Sven Saaler,Christopher W. A. Szpilman,2011-04-16 This first volume in a two volume set provides the only comprehensive Western language history of Pan Asianism through primary sources and commentaries The book argues that Pan Asianism often though unfairly associated with the Yellow Peril has been a powerful political and ideological force in modern Asia It has shaped national identities and

strongly influenced the development of international relations across Asia and the Pacific Scholars have long recognized the importance of Pan Asianism as an ideal of Asian solidarity regional cooperation and integration but also as an ideology that justified imperialist expansion and military aggression Yet sustained research has been hampered by the difficulty of accessing primary sources Thoroughly remedying this problem this unique sourcebook provides a wealth of documents on Pan Asianism from 1850 to 1920 many translated for the first time from Asian languages All sources are accompanied by expert commentaries that provide essential background information Providing an essential overview of Pan Asianism as it developed throughout modern Asia this collection will be an indispensable tool for scholars in history political science international relations and sociology Its accessible presentation makes it a valuable resource for non specialists as well

**Notes on the War Between China and Japan; the European Autumn Maneuvers of 1896, Orders Instructions, Etc** United States Military Information Division. War Department, 1896 [Prospect Theory and Foreign Policy Analysis in the Asia Pacific](#) Kai He, Huiyun Feng, 2013 Why does North Korea behave erratically in pursuing its nuclear weapons program Why did the United States prefer bilateral alliances to multilateral ones in Asia after World War II Why did China become nice no more military coercion in dealing with the pro independence Taiwan President Chen Shuibian after 2000 Why did China compromise in the negotiation of the Chunxiao gas

exploration in 2008 while Japan became provocative later in the Sino Japanese disputes in the East China Sea North Korea's nuclear behavior U S alliance strategy China's Taiwan policy and Sino Japanese territorial disputes are all important examples of seemingly irrational foreign policy decisions that have determined regional stability and Asian security By examining major events in Asian security this book investigates why and how leaders make risky and seemingly irrational decisions in international politics The authors take the innovative step of integrating the neoclassical realist framework in political science and prospect theory in psychology Their analysis suggests that political leaders are more likely to take risky actions when their vital interests and political legitimacy are seriously threatened For each case the authors first discuss the weaknesses of some of the prevailing arguments mainly from rationalist and constructivist theorizing and then offer an alternative explanation based on their political legitimacy prospect theory model This pioneering book tests and expands prospect theory to the study of Asian security and challenges traditional expected utility based rationalist theories of foreign policy behavior

**The Koreas between China and Japan** Lee Guen, Victor Teo, 2014-07-24 Most discussions pertaining to the nuclear proliferation and reunification issues on the Korean Peninsula privilege the position and role played by the United States In the first volume of its kind this collection of essays presents the challenges faced by the Koreas against the context of the changing relations between China and Japan Strategically nestled between these political giants the Korean Peninsula has traditionally been seen as a sphere of influence by Tokyo and Beijing Regardless of the escalating difficulties in recent Sino Japanese relations this volume argues that avoiding all out conflict and ensuring a nuclear free Korean Peninsula are certainly strategic goals that both China and Japan still share Neither China nor Japan wishes to be dragged into a war started by North Korean belligerence South Korean aspirations or American adventurism However despite alternating between political pressure and diplomatic efforts Japan and China have found it extremely difficult to guide the tone and direction of politics in intra Korea affairs Conversely both South and North Korea have been extremely adept at fending off any perceived attempts to influence their domestic and foreign policies Pyongyang and Seoul have shown remarkable political gumption and diplomatic skill not only resisting Great Power influences but even managing to advance their political agendas in this very tempestuous neighbourhood One fundamental question this volume addresses is whether the developments on the Korean Peninsula could and should be considered independently from developments in Sino Japanese relations Through addressing different dimensions of the interaction between the Koreas China and Japan in the 21st Century this volume makes a valuable contribution to study of the international relations of Northeast Asia

**The United States-Japan-China Triangle in the Post-Cold War Early Decades: A Case Study of Applied Political Science** Jalel Ben Haj Rehaïem, 2025-01-31 This book examines the post Cold War U S Japan China Triangle through the lens of two core international relations variables power and security Following the collapse of the Soviet Union the U S as the sole superpower aimed to prevent the rise of any rival in Asia or elsewhere that could threaten its global position This approach

aligns with a realist view of international relations championed by scholars like John Mearsheimer tracing back to the principles of interstate competition seen as far back as the 1648 Westphalia Treaty and the Peloponnesian War in the 5th century BC The book argues that the U S aims to prevent China from becoming a revisionist power by strategically using its alliance with Japan as a deterrent within the American led regional order Historically the U S Japan China relationship has seen consistent U S support for Japan often at China s expense except during World War II Since the 19th century the U S alongside European powers pressured China through treaties such as the 1844 Wanghia Treaty and direct interventions like the Opium Wars Japan s industrialization after the Meiji Restoration led to imperialist ambitions that eventually clashed with Western interests culminating in Japan s 1941 attack on Pearl Harbor a short lived break in the U S Japan alignment After the Communist rise to power in China in the late 1940s the U S renewed its strategic ties with Japan to contain Chinese influence solidified by the 1951 security treaty

*The State, Identity, and the National Question in China and Japan*

Germaine A. Hoston, 2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with the Western democratic model

**Institute of Pacific Relations** United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, 1951 Investigates alleged communist control of the publications and international information exchange programs of the Institute of Pacific Relations Also investigates alleged communist attempts to influence U S Far East policy Includes discussion of Communist Party activities in Nazi Germany
