**Shadow-Makers** Stephen Kite, 2017-10-19 The making of shadows is an act as old as architecture itself From the gloom of the medieval hearth through to the masterworks of modernism shadows have been an essential yet neglected presence in architectural history *Shadow Makers* tells for the first time the history of shadows in architecture It weaves together a rich narrative combining close readings of significant buildings both ancient and modern with architectural theory and art history to reveal the key places and moments where shadows shaped architecture in distinctive and dynamic ways It shows how shadows are used as an architectural instrument of form composition and visual effect while also exploring the deeper cultural context tracing differing conceptions of their meaning and symbolism whether as places of refuge devotion terror occult practice sublime experience or as metaphors of the unconscious Within a chronological framework encompassing medieval baroque enlightenment sublime picturesque and modernist movements a wide range of topics are explored from Hawksmoor's London churches Japanese temple complexes and the shade patterns of Islamic cities to Ruskin in Venice and Aldo Rossi and Louis Kahn in the 20th century This beautifully illustrated study seeks to understand the work of these shadow makers through their drawings their writings and through the masterpieces they built      [Japanese Love Hotels](#) ,

[The Emerging Monoculture](#) Eric Kramer, 2003-02-28 Kramer brings together experts from a variety of minority backgrounds and from around the world to give their perspectives on the most pervasive ideology today globalism The basic premise is that a developed country is different from a developed community They need not be mutually exclusive but neither is it assumed that they are necessarily consonant The various essays offer answers to such vital questions as What does it mean to become a global citizen and What does it mean to be a model minority in a global economy The process of becoming a mainstream person involves being first marginalized with the implication that something is inadequate about one's self The process of assimilationism is manifested as various forms of enforced and or rewarded acculturation With the vast human migration currently underway the notion of assimilation has become a global phenomenon What is occurring Kramer and his colleagues demonstrate is a worldwide shift from the village milieu to the city lifestyle This migration is seen as a polycentric and global phenomenon whereby the promised land is nowhere in particular but instead a way of life and mindset an urban lifestyle This process is far more than a simple change in geography Moving from the village to the cityscape involves a mutation in worldview and self identity Additional questions asked throughout the collection are What set of persuasive assumptions are leading the world in this direction and What might be lost in the process A provocative collection for scholars students and other researchers involved with development studies multiculturalism and urbanization      **Japan**  
**Patrick Smith**, 2011-03-30 The Japanese are in the process of re-creating themselves an endeavor they have undertaken at intervals throughout history always prompted by a combination of domestic and global forces In this landmark book Patrick

Smith asserts that a variety of forces the achievement of material affluence the Cold War's end and the death of Emperor Hirohito are now spurring Japan once again toward a fundamental redefinition of itself As Smith argues this requires of the West an equally thorough reevaluation of the picture we have held of Japan over the past half century He reveals how economic overdevelopment conceals profound political social and psychological under development And by refocusing on internal history and the Japanese character Smith offers a new framework for understanding Japan and the Japanese as they really are The Japanese he says are now seeking to alter the very thing we believe distinguishes them the relationship between the individual and society Timely measured and authoritative this book illuminates a new Japan a nation preparing to drop the mask it holds up to the West and to steer a course of its own in the world Jacket image The Great Wave of Kanagawa from 36 Views of Mount Fuji detail by Katsushika Hokusai Private collection
