**How Divine Images Became Art** Oleg Tarasov, 2024-02-09 *How Divine Images Became Art* tells the story of the parallel discovery of Russian medieval art and of the Italian primitives at the beginning of the twentieth century While these two developments are well known they are usually studied in isolation Tarasov s study has the great merit of showing the connection between the art world in Russia and the West and its impact in the cultural history of the continent in the pre war period Drawing on a profound familiarity with Russian sources some of which are little known to Western scholars and on equally expert knowledge of Western material and scholarship Oleg Tarasov presents a fresh perspective on early twentieth century Russian and Western art The author demonstrates that during the Belle poque the interest in medieval Russian icons and Italian primitives lead to the recognition of both as distinctive art forms conveying a powerful spiritual message Formalist art theory and its influence on art collecting played a major role in this recognition of aesthetic and moral value of primitive paintings and was instrumental in reshaping the perception of divine images as artworks Ultimately this monograph represents a significant contribution to our understanding of early twentieth century art it will be of interest to art scholars students and anyone interested in the spiritual and aesthetic revival of religious paintings in the Belle poque

*Anachronic Renaissance* Alexander Nagel, Christopher S. Wood, 2010-04-02 A reconsideration of the problem of time in the Renaissance examining the complex and layered temporalities of Renaissance images and artifacts In this widely anticipated book two leading contemporary art historians offer a subtle and profound reconsideration of the problem of time in the Renaissance Alexander Nagel and Christopher Wood examine the meanings uses and effects of chronologies models of temporality and notions of originality and repetition in Renaissance images and artifacts *Anachronic Renaissance* reveals a web of paths traveled by works and artists a landscape obscured by art history s disciplinary

compulsion to anchor its data securely in time The buildings paintings drawings prints sculptures and medals discussed were shaped by concerns about authenticity about reference to prestigious origins and precedents and about the implications of transposition from one medium to another Byzantine icons taken to be Early Christian antiquities the acheiropoieton or image made without hands the activities of spoliation and citation differing approaches to art restoration legends about movable buildings and forgeries and pastiches all of these emerge as basic conceptual structures of Renaissance art Although a work of art does bear witness to the moment of its fabrication Nagel and Wood argue that it is equally important to understand its temporal instability how it points away from that moment backward to a remote ancestral origin to a prior artifact or image even to an origin outside of time in divinity This book is not the story about the Renaissance nor is it just a story It imagines the infrastructure of many possible stories
