Chapman III, 2018-12-13 Jerusalem was a constant focus in the hearts and minds of all pilgrims and tourists travelling to the Holy Land in the nineteenth century but knowing exactly where they might get clean and decent accommodations on arrival was of the utmost importance This volume is a study of the rise of commercial hotel keeping in Jerusalem from the beginnings in the early 1840s drawing extensively on travel accounts and archives notably those of the Palestine Exploration Fund *A Survey of Palestine Under the British Mandate, 1920-1948* Dov Gavish, 2005

This book is a historical study of the survey and mapping system of Palestine under the British Mandate. It traces the background and the reasoning behind the establishment of the survey programme, examines the foundations upon which the system was based, and strives to understand the motivation of those who implemented it. This study shows that the roots of the modern survey system of Palestine are to be sought in the Balfour Declaration and its implications regarding land in Palestine. The land issue was at the core of the mapping of Mandatory Palestine and it remains as a core issue at the heart of the Israeli-Palestinian dispute.

Stepping in the Same River Twice Ayelet Shavit, Aaron M. Ellison, 2017-04-25. An international team of biologists, philosophers, and historians of science explores the critically important process of replication in biological and biomedical research. Without replication, the trustworthiness of scientific research remains in doubt. Although replication is increasingly recognized as a central problem in many scientific disciplines, repeating the same scientific observations of experiments or reproducing the same set of analyses from existing data is remarkably difficult. In this important volume, an international team of biologists, philosophers, and historians of science addresses challenges and solutions for valid replication of research in medicine, ecology, natural history, agriculture, physiology, and computer science. After the introduction to important concepts and historical background, the book offers paired chapters that provide theoretical overviews followed by detailed case studies. These studies range widely in topics from infectious diseases and environmental monitoring to museum collections, meta-analysis, bioinformatics, and more. The closing chapters explicate and quantify problems in the case studies, and the volume concludes with important recommendations for best practices.

**Sacred Geographies in Victorian Literature** Keith Hanley, 2025-08-03 This book describes how Christian sacred geographies were represented in Victorian literature It demonstrates first how those from the Hebrew Bible and the Old and New Testaments had become politically domesticated and psychologically internalised to sustain the Victorian Protestant imaginary in art and literature It then examines how following the relocation of the centre of Christendom from Jerusalem to Rome in the Middle Ages the geographical axis between Rome and Britain had been disrupted during the period of Catholic penalisation but was restored by Emancipation and conversion in the nineteenth century As a result of these national relocations a literary atlas of sacred heterotopias other worlds was mapped by Protestant and Catholic writers within their industrial imperialist period Intended for a primary readership of academics and researchers in the field of Victorian Literature Religious Studies and History it focuses on the works of nine writers in a variety of genres including poetry novels art criticism and historical literary and theological essays
