Telling America's Story to the World Harilaos Stecopoulos, 2022-10-06 Telling America's Story to the World argues that state and state affiliated cultural diplomacy contributed to the making of postwar US literature Highlighting the role of liberal internationalism in US cultural outreach Harilaos Stecopoulos contends that the state mainly sent authors like Ralph Ellison Robert Frost William Faulkner Langston Hughes and Maxine Hong Kingston overseas not just to demonstrate the achievements of US civilization but also to broadcast an American commitment to international cross cultural connection Those writers cum ambassadors may not have helped the state achieve its propaganda goals indeed this rarely proved the case but they did find their assignments an opportunity to ponder the international meanings and possibilities of US literature For many of those figures courting foreign publics inspired a reevaluation of the scope and form of their own literary projects Testifying to the inadvertent yet integral role of cultural diplomacy in the worlding of US letters works like *The Mansion* 1959 *Life Studies* 1959 *Cultural Exchange* 1961 1967 *Tripmaster Monkey* *His Fake Book* 1989 and *Three Days Before the Shooting* 2010 reimagine US literature in a mobile global and distinctly political register

Global Faulkner Annette Trefzer, Ann J. Abadie, 2010-11-12 Today debates about globalization raise both hopes and fears But what about during William Faulkner's time Was he aware of worldwide cultural historical and economic developments Just how interested was Faulkner in the global scheme of things The contributors to *Global Faulkner* suggest that a global context is helpful for recognizing the broader international meanings of Faulkner's celebrated regional landscape Several scholars address how the flow of capital from the time of slavery through the Cold War period in his fiction links Faulkner's South with the larger world Other authors explore the literary similarities that connect Faulkner's South to Latin America Africa Spain Japan and the Caribbean In essays by scholars from around the world Faulkner emerges in trans Atlantic and trans Pacific contexts in a pan Caribbean world and in the space of the Middle Passage and the African Atlantic

H.W. de Jong,1993-03-31 If a book needs a third edition because the previous ones are sold out one may well question whether an introduction is necessary However the Structure of European Industry was meant to be a flexible book keeping it in tune with actual developments in the European Community Some explanation is therefore required Two new chapters on the services industry have been included to recognize the growing importance of what is fundamentally a bundle of industries It is also increasingly acknowledged that the motorcar industry for its efficiency and innovativeness is very much dependent on the numerous suppliers large and small of the component parts industry A chapter reflecting on the strengths and weaknesses of the European car supplying industries is therefore most welcome Finally European competition policy now fitted out with the Merger Control Regulation is moving more and more towards the centre of stage and the final chapter presents a survey of the aims and achievements of this type of policy up till now steadfastly developed by the EC Commission For the rest the chapters which were already in the previous edition have been updated and have partly been rewritten by the authors concerned The editor is most grateful to old and new contributors for their efforts to jointly produce a book which after 12 years is still unique in providing a European instead of a national focus on industries and markets
