Connolly, 2002 *Liberalism, Nationalism, Citizenship* Ronald Beiner, 2003 Liberals believe that the purpose of politics is to guarantee that individuals do not face unfair impediments in pursuing the lives they choose for themselves Nationalists believe that the purpose of politics is to ensure that a people's sense of authentic nationhood wins full expression in powers of collective sovereignty or self rule Both of these forms of political commitment yield world transforming political philosophies but do either of these visions do adequate justice to a philosophically robust ideal of shared citizenship and civic membership In *Liberalism Nationalism Citizenship* Ronald Beiner engages critically with a wide range of important political thinkers and current debates in light of the Aristotelean idea that shared citizenship is an essential human calling Virtually every aspect of contemporary political experience globalization international migration secessionist movements the politics of multiculturalism pose urgent challenges to modern citizenship Beiner's work on the philosophy of citizenship is essential reading not just for students of politics and political philosophy but for all those who rightly sense that these kinds of recent challenges

**Political Identity and the Metaphysics of Politics** Gabriele De Anna, Manuele Dozzi, 2023-05-05 The chapters in this volume clarify the notion of political identity by focusing on the metaphysics of politics By analysing the notion of political identity they provide the conceptual resources for a deeper understanding of the theoretical and practical debates on populism the crisis of sovereignty the feasibility of a world government and ethical religious and cultural pluralism What is a political community Any answer to this question lies at the intersection between three fields metaphysics philosophy of action and political philosophy The question concerns how and why a plurality of individuals becomes a political unity what principles or forces keep that unity together and what threats that unity can encounter In this volume the contributors investigate how different metanormative views affect the possible answers to this metaphysical question They explore the role that the individual identities of agents play in grounding common practices that underpin political life They investigate the individual identities of agents as the result of the interplay between natural and cultural factors Finally they observe the ways in which a political community as a collection of individuals who hang together in an attempt to reach common purposes demonstrate a certain metaphysical solidity *Political Identity and the Metaphysics of Politics* will appeal to researchers and advanced students working in metaphysics political philosophy political theory and philosophy of action

language teacher identity as well as language teaching and research more generally      India and Identity - Some Reflections Dr. Firoj High Sarwar ,Biswarup Ganguly,2024-01-10 India and Identity Some Reflections is an edited book comprising fifty two articles written by distinguished scholars of arts and social sciences mainly reflecting the multifarious and multilayer identities of India and Indians It covers the arena of Indian history culture politics society economy regions languages religions castes classes and ethnicity which has traveled since remote ancient times to the recent twenty first century We hope that this book will provide a scope for an intellectual discourse on India and the diversified issues of Identities and enlighten our existing knowledge      **Identity, Narrative and Politics** Maureen Whitebrook,2014-04-04 Identity Narrative and Politics argues that political theory has barely begun to develop a notion of narrative identity instead the book explores the sophisticated ideas which emerge from novels as alternative expressions of political understanding This title uses a broad international selection of Twentieth Century English language works by writers such as Nadine Gordimer and Thomas Pynchon The book considers each novel as a source of political ideas in terms of content structure form and technique The book assumes no prior knowledge of the literature discussed and will be fascinating reading for students of literature politics and cultural studies      Reflections on Identity in Four African Cities S. B. Bekker,Anne Leildé,2006 Identity has become the watchword of our times In sub Saharan Africa this certainly appears to be true and for particular reasons Africa is urbanising rapidly cross border migration streams are swelling and globalising influences sweep across the continent Africa is also facing up to the challenge of nurturing emergent democracies in which citizens often feel torn between older traditional and newer national loyalties Accordingly collective identities are deeply coloured by recent urban as well as international experience and are squarely located within identity politics where reconciliation is required between state nation building strategies and sub national affiliations They are also fundamentally shaped by the growing inequality and the poverty found on this continent These themes are explored by an international set of scholars in two South African and two Francophone cities The relative importance to urban residents of race class and ethnicity but also of work space and language are compared in these cities This volume also includes a chapter investigating the emergence of a continental African identity A recent report of the Office of the South African President claims that a strong national identity is emerging among its citizens and that race and ethnicity are waning whilst a class identity is in the ascendance The evidence and analyses within this volume serve to gauge the extent to which such claims ring true in what everyone knows is a much more complex and shifting terrain of shared meanings than can ever be captured by such generalisations

Identity, Rights and Constitutional Transformation Patrick J. Hanafin,Melissa S Williams,2018-12-21 First published in 1999 this book provides an analysis of the role of constitutional governance from an international and interdisciplinary perspective The range of disciplines represented in the collection of papers aims to open new perspectives on topics that are frequently left to the expert hands of political scientists and lawyers alone It reveals scope for the further study of historical

cultural and rhetorical approaches in tandem with traditional approaches The blend of cross national experience and comparisons and the fertilisation of one discipline by another should appeal to a wide interdisciplinary audience *Critical Reflections on Interactive Governance* Jurian Edelenbos, Ingmar van Meerkerk, 2016-08-26 In many countries government and society have undergone a major shift in recent years now tending toward smaller government and bigger society This development has lent increased meaning to the notion of interactive governance a concept that this book takes not as a normative ideal but as an empirical phenomenon that needs constant critical scrutiny reflection and embedding in modern societies Political Identity and Social Change Jamie Frueh, 2012-02-01 Political Identity and Social Change builds upon the constructivist theory of political identity to explore the social changes that accompanied the end of apartheid in South Africa To gain a better understanding of how structures of identity changed along with the rest of South Africa s institutions Frueh analyzes three social and political conflicts the Soweto uprisings of 1976 the reformist constitutional debates of 1983 1984 and post apartheid crime Analyzing these conflicts demonstrates how identity labels function as structures of social discourse how social activity is organized through these structures and how both the labels and their power have changed during the course of South Africa s transition In this way the book contributes not only to the study of South African society but also provides lessons about the relationship between identity and social change *Hegel on Political Identity* Lydia L. Moland, 2011-04-30 In Hegel on Political Identity Lydia Moland provocatively draws on Hegel s political philosophy to engage sometimes contentious contemporary issues such as patriotism national identity and cosmopolitanism Moland argues that patriotism for Hegel indicates an attitude toward the state whereas national identity is a response to culture The two combine Hegel claims to enable citizens to develop concrete freedom Moland argues that Hegel s account of political identity extends to his notorious theory of world history she also proposes that his resistance to cosmopolitanism be reassessed in response to our globalized world By focusing on Hegel s depiction of political identity as a central part of modern life Moland shows the potential of Hegel s philosophy to address issues that lie at the heart of ethical and political philosophy
