Reformers In Search Of Yesterday Buffalo In The 1890s:

Reformers in Search of Yesterday Brenda K. Shelton, 1976-06-30 Reform movements in Buffalo during the 1890s are described in terms of the way the city's traditional leaders responded to the forces of industrialization urbanization and immigration Thorough documentation provides the reader with details of the diverse ways that prominent Buffalonians tried to solve their contemporary problems Ruth Benedict Margaret M. Caffrey, 2013-11-04 Poet anthropologist feminist Ruth Fulton Benedict was all of these and much more Born into the last years of the Victorian era she came of age during the Progressive years and participated in inaugurating the modern era of American life Ruth Benedict *Stranger in This Land* provides an intellectual and cultural history of the first half of the twentieth century through the life of an important and remarkable woman As a Lyricist poet Ruth Benedict helped define Modernism As an anthropologist she wrote the classic *Patterns of Culture* and at one point was considered the foremost anthropologist in the United States the first woman ever to attain such status She was an intellectual and an artist living in a time when women were not encouraged to be either In this fascinating study Margaret Caffrey attempts to place Benedict in the cultural matrix of her time and successfully shows the way in which Benedict was a product of and reacted to the era in which she lived Caffrey goes far beyond providing simple biographical material in this well written interdisciplinary study Based on exhaustive research including access for the first time to the papers of Margaret Mead Benedict's student and friend Caffrey is able to put Benedict's life clearly in perspective By identifying the family and educational influences that so sharply influenced Benedict's psychological makeup the author also closely analyzes the currents of thought that were strong when Victorianism paralleled the Modernism that figured in Benedict's life work The result is a richly detailed study of a gifted woman This important work will be of interest to students of Modernism poetry and women's studies as well as to anthropologists *Reform Or Repression* Chad Pearson, 2016 Examining the professional lives of a variety of businessmen and their advocates with the intent of taking their words seriously Chad Pearson paints a vivid picture of an epic contest between industrial employers and labor and challenges our comfortable notions of Progressive Era reformers **Henry Hobson Richardson and the Small Public Library in America** Kenneth A. Breisch, 1997 An examination of Richardson's small public libraries that places them in the design cultural political and economic contexts of their times *Prolonged Connections* Steven Ruggles, 1987 **Rebuilding the Inner City** Robert Halpern, 1995 Neighborhood based initiatives ranging from settlement houses in the nineteenth century to the Community Action and Model Cities program of the Great Society to the Empowerment and Enterprise Zones of the 1990s have been called on to help solve a variety of poverty related problems This book examines the history of these initiatives *The Roots of Violent Crime in America* Barry Latzer, 2021-03-17 The Roots of Violent Crime in America is criminologist Barry Latzer's comprehensive analysis of crimes of violence including murder assault and rape in the United States from the 1880s through the 1930s Combining the theoretical perspectives and methodological rigor of criminology

with a synthesis of historical scholarship as well as original research and analysis Latzer challenges conventional thinking about violent crime of this era While scholars have traditionally cast American cities in the late nineteenth and early twentieth centuries as dreadful places Latzer suggests that despite overcrowding and poverty U S cities enjoyed low rates of violent crime especially when compared to rural areas The rural South and the thinly populated West both suffered much higher levels of brutal crime than the metropolises of the East and Midwest Latzer deemphasizes racism and bigotry as causes of violence during this period noting that while many social groups confronted significant levels of discrimination and abuse only some engaged in high levels of violent crime Cultural predispositions and subcultures of violence he posits led some groups to participate more frequently in violent activity than others He also argues that the prohibition on alcohol in the 1920s did not drive up rates of violent crime Though the bootlegger wars contributed considerably to the murder rate in some of America s largest municipalities Prohibition also eliminated saloons which served as hubs of vice corruption and lawlessness The Roots of Violent Crime in America stands as a sweeping reevaluation of the causes of crimes of violence in the United States between the Gilded Age and World War II compelling readers to rethink enduring assumptions on this contentious topic

The Most Defiant Devil Gregory J. Dehler, 2013-08-12 The late nineteenth and early twentieth century were a brutal time for American wildlife with many species pushed to the brink of extinction Some are endangered to this day And yet these decades also saw the dawn of the conservationist movement Into this contradictory era came William Temple Hornaday a larger than life dynamo who almost uncannily embodies these conflicting threads in our history In The Most Defiant Devil a compelling new biography of this complex figure Gregory Dehler explores the life of Hornaday the hunter museum builder zoologist author conservationist and anti Bolshevik crusader A deeply religious man he was nonetheless anything but peaceful and was racist even by his era s standards going so far as to display an Mbuti pygmy as a living specimen in a zoo A passionate hunter Hornaday killed thousands of animals including some of the last wild buffalo in America but he was far ahead of his time in his influential views on the protection of wildlife Hornaday designed and built the New York Zoological Park which became the Bronx Zoo and was chief taxidermist for what would later become the Smithsonian Museum of Natural History In this single fascinating individual we can discern some of the Progressive Era s most destructive forces and some of its most enlightened visions

Universal Access and Its Asymmetries Harmeet Sawhney, Hamid R. Ekbia, 2022-12-13 A framework for understanding the totality of costs and benefits of universal access that will foster honest appraisal and guide the development of good policies Universal access the idea that certain technologies and services should be extended to all regardless of geography or ability to pay evokes ideals of democracy and equality that must be reconciled with the realities on the ground The COVID 19 pandemic raised awareness of the need for access to high speed internet service in the United States but this is just the latest in a long history of debates about what should be made available and to whom Rural mail delivery electrification telephone service public schooling and library

access each raised the same questions as today's debates about health care and broadband. What types of services should be universally available? Who benefits from extending these services? And who bears the cost? Stepping beyond humanitarian arguments to conduct a clear-eyed diagnostic analysis, this book offers some surprising conclusions. While the conventional approach to universal access looks primarily at the costs to the system and the benefits to individuals, Harmeet Sawhney and Hamid Ekbia provide a holistic perspective that also accounts for costs to individuals and benefits for systems. With a comparative approach across multiple cases, *Universal Access and Its Asymmetries* is an essential exploration of the history, costs, and benefits of providing universal access to technologies and services. With a fresh perspective, it overturns common assumptions and offers a foundation for making decisions about how to extend service and how to pay for it. [Down & Out, on the Road](#) Kenneth L. Kusmer, 2002. A definitive history of homelessness in the United States. page 4 of cover. [Louise Blanchard Bethune](#) Johanna Hays, 2014-02-07. Louise Blanchard Bethune, the subject of this biography, was America's first female professional architect. She belonged to the influential group of pioneer architects: Daniel Burnham, John Root, and Louis Sullivan, who supported her in becoming a fellow of the American Institute of Architects. In the booming industrial city of Buffalo, she preceded Frank Lloyd Wright and Alfred Kahn in factory design and was the key designer of the modern urban public school building, developing standards still used today. During her career, 1881-1905, Bethune was consistently one of the most successful architects practicing in Buffalo and the driving force behind New York State's professional organizations for architects. Beyond setting standards for public schools, she was the go-to architect for factories, warehouses, police stations, a Nikola Tesla power transfer station, and the largest luxury hotel of the early 1900s. Bethune moved from a small town on the Erie Canal, the economic and technological marvel of the antebellum period, to a rapidly industrializing major American city following the urban migration of many Americans. Unlike many women of her day, she seized the promise of the growing nation to pursue life, liberty, and happiness in an occupation of her choice and succeeded. *In the Shadow Of the Poorhouse* Michael B. Katz, 1996-12-11. With welfare reform, a burning political issue, this special anniversary edition of the classic history of welfare in America has been revised and updated to include the latest bipartisan debates on how to end welfare as we know it. With an informative new Introduction and a new concluding chapter, this timely edition makes for important reading. Index. [Desegregation in Boston and Buffalo](#) Steven J. L. Taylor, 1998-09-03. Examines how citizens and the political leadership of two cities dealt with controversial court orders to end the segregation of public schools.

Proceedings of the New York State Historical Association with the Quarterly Journal New York State Historical Association, 1990. [New York History](#), 2009. **The Vincentians: A General History of the Congregation of the Mission** John E. Rybolt. Their mission was humble and simple: to reach the poor country people who suffered from ignorance of their faith, a debased clergy, and poverty. In response, Vincent De Paul defined the vocation of his Little Company as preaching local missions, for free, educating the clergy, and working to relieve the people's poverty. Soon, however, this vocation

was complicated by commands to minister to royal families including Louis xiv of France and the kings and queens of Poland which would embroil the Vincentians in international and ecclesiastical politics In addition they would begin dangerous foreign missions such as ministering to the Christian captives of the Barbary pirates the debased colonists and rebellious natives of Madagascar and the vendetta prone Corsicans For the first time modern readers have a thoroughly researched history based on original documents and the studies of numerous scholars past and present It portrays the Vincentians daily lives and describes their failings as well as their exalted acts of heroism It also details the social and political milieus that conditioned their lives and work It is an important down to earth side of history not often told **Reformers in Search of**

Katz,2013-09-03 Poverty and Policy in American History is about people who needed help in the nineteenth and early twentieth centuries It is about the ways in which the perception of poverty and other forms of dependence affected the development of public programs and the conduct of voluntary reform It also about the ways in which people have written about welfare The book contains three chapters and opens with a description of the life and death of a poor family in early twentieth century Philadelphia based on case records It attempts to show many of the themes in the lives of the poor through the close analysis of one extended example The second chapter moves back in time and consists of four case studies drawn from the project s empirical research The first case study takes up the history of a neglected institution the poorhouse The second case reports on a survey of the causes of pauperism undertaken by the New York Board of State Charities in the mid 1870s The third case analyzes a sample of the seven special schedules of the 1880 U S census which enumerated the defective dependent and delinquent population The final case uses a register of tramps from various places in New York State during the mid 1870s to assess the relation between popular images of tramps and what appeared to be their actual characteristics The third chapter uses the results of the project s research and other recent work on related topics to examine American historical writing about dependence as a field and offers a sympathetic critique **The Empire State** Milton Martin Klein,2001 Readers from the Big Apple to
