Committee on Commerce, Science, and Transportation, 1994 **The Reform of International Economic Governance** Antonio Segura Serrano, 2016-05-05 The second half of the twentieth century saw the emergence of international economic law as a major force in the international legal system This force has been severely tested by the economic crisis of 2008 Unable to prevent the crisis the existing legal mechanisms have struggled to react against its direst consequences This book brings together leading experts to analyse the main causes of the crisis and the role that international economic law has played in trying to prevent it on the one hand and worsening it on the other The work highlights the reaction and examines the tools that have been created by the international legal field to implement international cooperation in an effort to help put an end to the crisis and avoid similar events in the future The volume brings together eminent legal academics and economists to examine key issues from the

perspectives of trade law financial law and investment law with the collective aim of reform of international economic governance **International Economic Law in the 21st Century** Ernst-Ulrich Petersmann, 2012-07-24 The state centred Westphalian model of international law has failed to protect human rights and other international public goods effectively Most international trade financial and environmental agreements do not even refer to human rights consumer welfare democratic citizen participation and transnational rule of law for the benefit of citizens This book argues that these multilevel governance failures are largely due to inadequate regulation of the collective action problems in the supply of international public goods such as inadequate legal judicial and democratic accountability of governments vis a vis citizens Rather than treating citizens as mere objects of intergovernmental economic and environmental regulation and leaving multilevel governance of international public goods to discretionary foreign policy human rights and constitutional democracy call for civilizing and constitutionalizing international economic and environmental cooperation by stronger legal and judicial protection of citizens and their constitutional rights in international economic law Moreover intergovernmental regulation of transnational cooperation among citizens must be justified by principles of justice and multilevel constitutional restraints protecting rights of citizens and their public reason The reality of constitutional pluralism requires respecting legitimately diverse conceptions of human rights and democratic constitutionalism The obvious failures in the governance of interrelated trading financial and environmental systems must be restrained by cosmopolitan constitutional conceptions of international law protecting the transnational rule of law and participatory democracy for the benefit of citizens Crafting a Global Trade Strategy: the U.S. and the WTO , Constitutionalism, Multilevel Trade Governance and Social Regulation Christian Joerges, Ernst-Ulrich Petersmann, 2006-10-19 This is a book about the ever more complex legal networks of transnational economic governance structures and their legitimacy problems It takes up the challenge of the editors earlier pioneering works which have called for more cross sectoral and interdisciplinary analyses by scholars of international law European and international economic law private international law international relations theory and social philosophy to examine the interdependences of multilevel governance in transnational economic social environmental and legal relations Two complementary strands of theorising are expounded One argues that globalisation and the universal recognition of human rights are transforming the intergovernmental society of states into a cosmopolitan community of citizens which requires more effective constitutional safeguards for protecting human rights and consumer welfare in the national and international governance and legal regulation of international trade The second emphasises the dependence of the functioning of international markets and liberal trade on governance arrangements which respond credibly to safety and environmental concerns of consumers traders political and non governmental actors Enquiries into the generation of international standards and empirical analyses of legalization and judicialisation practices form part of this agenda The perspectives and conclusions of the more than 20 contributors from Europe and North America cannot be uniform But they converge in their search for a

constitutional architecture which limits empowers and legitimises multilevel trade governance as well as in their common premise that respect for human rights private and democratic self government and social justice require more transparent participatory and deliberative forms of transnational cosmopolitan democracy *Reshaping the World Trading System* John Croome,1996-06 Tracing the history and evolution of the Uruguay Round this book seeks to explain how it came about why it covered the subjects it did what the participants sought the twists turns setbacks successes in each sector of the negotiations

Energy, Capitalism and World Order Tim Di Muzio,2024-12-26 This original timely and innovative collection is the first to offer critical IPE perspectives on the interconnections between energy capitalism and the future of world order The authors discuss the importance of energy for our understanding of the global political economy climate change and key new developments like fracking **A Chinese Perspective on WTO Reform** Lei Zhang,Xiaowen Tan,2023-03-01 This book discusses the most recent developments in the WTO regime Issues such as E commerce security exception clause China s compliance with the WTO obligations sustainability development IP protection in FTZs trade controls and etc are at the forefront of WTO studies These issues strongly influence people s understanding of the current role of WTO and provides possible way to revitalize the function of WTO Meanwhile as the world s second largest economy the world s largest trading nation and the holder of the world s largest foreign exchange reserves China is apparently a powerful figure in leading these issues Therefore this book explores extensively these issues from a Chinese perspective to see what China could do to reboot the world trade
