## **Refugees In Botswana In The Light Of International Law:**

*Refugees in Botswana in the Light of International Law* Jenny Zetterqvist, 1990      **The Rights of Refugees under International Law** James C. Hathaway, 2005-09-15 This book presents the first comprehensive analysis of the human rights of refugees as set by the UN Refugee Convention In an era where States are increasingly challenging the logic of simply assimilating refugees to their own citizens questions are now being raised about whether refugees should be allowed to enjoy freedom of movement to work to access public welfare programs or to be reunited with family members Doubts have been expressed about the propriety of exempting refugees from visa and other immigration rules and whether there is a duty to admit refugees at all Hathaway links the standards of the UN Refugee Convention to key norms of international human rights law and applies his analysis to the world s most difficult protection challenges This is a critical resource for advocates judges and policymakers It will also be a pioneering scholarly work for graduate students of international and human rights law

**The Refugee in International Law** Guy S. Goodwin-Gill, Jane McAdam, 2021-09-09 The status of the refugee in international law and of everyone entitled to protection has ever been precarious not least in times of heightened and heated debate people have always moved in search of safety and they always will In this completely revised and updated edition the authors cast new light on the refugee definition the meaning of persecution including with regard to gender and sexual orientation and the protection due to refugees and those affected by statelessness or disasters They review the fundamental principle of non refoulement as a restraint on the conduct of States even as States themselves seek new ways to prevent the arrival of those in search of refuge Related principles of protection non discrimination due process rescue at sea and solutions are analysed in light of the actual practice of States UNHCR and treaty monitoring bodies The authors closely examine relevant international standards and the role of UNHCR States and civil society in providing protection contributing to the development of international refugee law and promoting solutions New chapters focus on the evolving rules on nationality statelessness and displacement due to disasters and climate change This expanded edition factors in the challenges posed by the movement of people across land and sea in search of refuge and their interception reception and later treatment The overall aim remains the same as in previous editions to provide a sound basis for protection in international law taking full account of State and community interests and recognizing the need to bridge gaps in the regime which now has 100 years of law and practice behind it      **Human Rights Law in Africa, Volume 3 (1998)** Christof Heyns, 2021-11-01      **Human Rights Law in Africa 1998** Christof Heyns, 2001-04-11 Statute of the ICTR

regional and domestic legal and institutional frameworks linked to refugee protection in Sub Saharan Africa and explores the contributions African refugee protection has brought to the cause on a global scale Key issues covered in the book include the theory and the practice of non refoulement an analysis of the phenomenon of mass influx the concept of burden sharing and the role of freedom fighters The book goes on to examine the expulsions of refugees and the historical role played by UNHCR in Sub Saharan Africa As a work which follows the persecution and legal challenges of those in search of a safe haven this book will be of great interest and use to researchers and students of immigration and asylum law international law human rights and African studies      **The Comparative and International Law Journal of Southern Africa** ,1995

*Historical Dictionary of Botswana* Barry Morton,Jeff Ramsay,2018-06-13 The death of Botswana s last founding father Sir

Ketumile Quett Masire in June 2017 marked the end of an era. Since the release of the Fourth Edition of Historical Dictionary of Botswana in 2008 Botswana has gone through its most turbulent and divided decade to date. Throughout September 2016 when Botswana celebrated its 50th anniversary of independence all the successes of the Seretse and Masire era were sources of massive national pride. Botswana had expanded provisions of electricity, water, education and health services to almost all of its people and become a model nation that owned its natural resources and plowed the profits back into the nation's development. Despite these successes Botswana has a high unemployment rate about 20 percent and a much larger cohort of the underemployed. This fifth edition of Historical Dictionary of Botswana contains a chronology, an introduction, appendixes, an extensive bibliography and more than 700 cross-referenced entries on important personalities and aspects of the country's politics, economy, foreign relations, religion and culture. This book is an excellent resource for students, researchers and anyone wanting to know more about Botswana.

#### **Questioning the Universality of Human Rights**

Lone Lindholt, 2019-07-09. First published in 1997, this volume analyses the material provisions of the African Charter on Human and Peoples Rights from 1981, discussing the issues this raises both with respect to the theoretical aspects of human rights law and in relation to its implementation in various African member states. Illustrating the first aspect in particular, the question of universality of human rights is discussed with respect to the national implementation. The Southern African states are the main focal points in particular Botswana, Malawi and Mozambique.

An Assessment of the Protection of Refugees and Asylum-seekers in Botswana Ditshwanelo (Organization), 1996. The aim of this study is to assess the extent to which Botswana upholds the protection of asylum seekers and refugees.

"The Inevitable Pipeline Into Exile" Johann Alexander Müller, 2012. The role played by Botswana in various southern African liberation struggles has previously been neglected in historical studies. The country's politics of support and mobilisation early on in Namibia's struggle for independence from South Africa proved crucial for the formative period of both nation states. Botswana's difficult and contradictory position as neighbour of the South African apartheid state and colonial power in Namibia are carefully dealt with, as are the challenges faced by the fragile Namibian refugee networks and liberation movements SWANU and SWAPO operating in Botswana for decades. The Inevitable Pipeline into Exile deals with a crucial phase of nationalism and transnational politics during the period of southern African decolonisation at the height of South Africa's diplomatic and military aggression throughout the region.

#### **Legal Issues of Inter-Korean Economic Cooperation under the Armistice System**

Eric Yong-Joong Lee, 2002-09-01. This unique work examines the highly topical national and international legal issues of economic cooperation between North and South Korea under the current divided situation. In recent years the relationship between the two Koreas has been generating more concern than in earlier times. This new interest has been followed by two epoch-making developments over the past decade: the conclusion of the Basic Agreement of 1991 and the Declaration of the North-South Summit of 2000. These events have caused remarkable changes in political as well as economic relations between the north

and the south This book reviews the current legal regime and the setting up of a positive legal framework for inter Korean economic cooperation beginning to be regulated by international law This research provides two ultimate outcomes One is to resolve the legal problems for transnational economic cooperation relating to North and South Korea the other is to develop a juridical model of south north cooperation as a new world economic framework for the 21st century Three interrelated areas are involved in this work The first part describes the external environmental factors regarding inter Korean economic cooperation from an international legal perspective The second part deals with the legal framework of inter Korean economic cooperation examining concrete issues arising from practical economic exchanges and cooperation between the two Koreas The last part discusses the legal foundations for inter Korean economic integration beyond economic cooperation This book clarifies the significance of the legal environment as an indispensable servant for the parts of a divided country to recover their relationship offering both a normative and practical framework      **Refugees in a Chess Game** Medard

Rwelamira,1990 Covers the period 1967 1980s      **University of Botswana Law Journal** ,2006      **Citizenship in Africa** Bronwen Manby,2018-11-29 Citizenship in Africa provides a comprehensive exploration of nationality laws in Africa placing them in their theoretical and historical context It offers the first serious attempt to analyse the impact of nationality law on politics and society in different African states from a trans continental comparative perspective Taking a four part approach Parts I and II set the book within the framework of existing scholarship on citizenship from both sociological and legal perspectives and examine the history of nationality laws in Africa from the colonial period to the present day Part III considers case studies which illustrate the application and misapplication of the law in practice and the relationship of legal and political developments in each country Finally Part IV explores the impact of the law on politics and its relevance for questions of identity and belonging today concluding with a set of issues for further research Ambitious in scope and compelling in analysis this is an important new work on citizenship in Africa      *Repressive State and Resurgent Media Under Nigeria's Military Dictatorship, 1988-98* Ayo Olukotun,2004 This study documents a crucial dimension of the resistance of Nigerian civil society to a repressive and monumentally corrupt military state in the late 1980s and 1990s in Nigeria Employing a neo Gramscian theoretical framework the study relates how a section of the media defied censorship laws outright bans incarceration and the assassination of opposition figures to prosecute the struggle for democracy It captures the tensions and contradictions between a pliant section of the media which sought to legitimise the state and a critical section of the same media which in alliance with radical civil society invented rebellious outlets to carry on the struggle against dictatorship The study seeks to make fresh departures by documenting not only the role of the national media in the throes of democratic struggle but that of the international media whose role was influential in the years studied Finally the report offers empirical proof of the mechanisms by which a vibrant civil society can curb the ravages of a predatory state in an African country Book jacket      Contentious Politics, Local Governance and the Self Tim Kelsall,2004

The Governance Agenda is the framework that currently organizes the West's relations with Africa. The present work is an attempt to see Governance through the lens of a contemporary local history. The report analyzes three periods of contentious politics at local level in Tanzania and two multi party elections. It provides a window on mismanagement in local government, it examines the intervention by national and local elites in district conflicts and it points to the difficulties ordinary people face in holding their leaders to account. The argument of the report is that current approaches to the study of Governance overlook an essential ingredient for its potential success namely the sociological conditions in which forms of collective action conducive to improved political accountability become possible at a grassroots level. The analysis aims to show that economic diversification and multiple livelihoods have given rise to a reticular social structure in which individuals find it difficult to combine to hold their leaders to account. People have fragmented identities formed in networks of social relations which impedes the emergence of strong collective identities appropriate to effective social movements.
