The Great European Stage Directors Volume 3 Jonathan Pitches,2021-10-07 This volume examines the work of directors Jacques Copeau Theodore Komisarjevsky and Tyrone Guthrie It explores in detail many of the directors key productions including Copeau s staging of Moli re s The Tricks of Scapin Komisarjevsky s signature season of Chekhov plays at the Barnes Theatre and Guthrie s pioneering direction of Shakespeare s plays in North America This study argues that their work exemplifies the complexity and novelty of the role of theatre directing in the first three quarters of the 20th century as Komisarjevsky was in the middle of the genesis of directing in Russia Copeau launched his directorial career just as the role was gaining definition and Guthrie was at the vanguard of directing in Britain at last shaking off the traditions of the actor manager to formulate the new role of artistic director Governing Independence and Expertise Morag McDermont,2010-04-09 Shortlisted for the SLSA Hart Socio Legal Book Prize 2011 Governing Independence and Expertise tells the story of the not for profit housing sector in England focusing on its representative body the National Housing Federation The story tells of how the Federation and associations influenced their own space of governing through deploying discourses of independence and expertise how being governed and governing become at times one and the same The National Federation of Housing Societies was born in 1935 out of the apparent failure of housing societies associations and charitable trusts to tackle the problem of the slums Its story was a familiar one organisations have often set up collective structures to facilitate intervention in government Viewed historically the success of the project is nevertheless remarkable given that the housing association sector is now a major force in social housing provision Moreover housing associations have pioneered many programmes which are central to our modernised welfare state such as private finance independence and entrepreneurialism Through the story of the Federation the book examines the role of non governmental actors in mechanisms of governing engaging contemporary debates about public services and the nature of the social the limits of the role of the not for profit sector the impact of private funders and the disappearance of the notion of public *The Canada Gazette* Canada,1920 Designs on Democracy Neal Shasore,2022-08-22 Designs on Democracy examines a pivotal period in the formation of the modern profession of architecture in Britain It shows how architects sought to meet the newly articulated demands of a mass democracy in the wake of the First World War It does so by providing a vivid picture of architectural culture in interwar London the Imperial metropolis drawing on histories of design practice professionalism and representation Most accounts of this period tend to deal exclusively with the emergence of Modernism this study takes a different approach encompassing a much broader perspective on the liberal professional consensus that held sway including architecture s mainstream and its so called avant garde Readers will encounter a number of unexpected narratives episodes

and projects from the British Empire Exhibition at Wembley to the rebuilding of Waterloo Bridge from the impact of the Great Slump to the passing of the first Architects Registration Act 1931 from Trystan Edwards's radical housing campaigns to the Londoners League's unorthodox preservationism Pulling in a range of evidence and sources periodicals exhibitions photographs and films alongside architecture it evokes architectural culture by listening carefully to the tenor of its discourse Architecture's public realm is thus analysed through sometimes surprising phrases manners to understand ideals of public propriety vigilance to explore public proprietorship slump to contextualise the emergence of public relations machine craft to understand the forging of public institutions The volume spans the excitable discussions about the reconstruction of the profession for a democratic age after WWI to reconstruction and planning following WWII providing an ambitious revision of how we can understand twentieth century architecture in Britain **The Law Journal Reports** ,1914

Opera for Everybody Susie Gilbert,2011-03-03 Susie Gilbert traces the development of ENO from its earliest origins in the darkest Victorian slums of the Cut where it was conceived as a vehicle of social reform through two world wars and via Sadler's Wells to its great glory days at the Coliseum and beyond Setting the company's artistic achievements within the wider context of social and political attitudes to the arts and the ever changing theatrical style Gilbert provides a vivid cultural history of this unique institution's 150 years Inspired by the idealism of Lilian Baylis the company has been based on the belief that opera in the vernacular can not only reach out to even the least privileged members of society but also create a potent and immediate communication with its audience With full access to ENO's archive Gilbert has unearthed a rich range of material and held numerous interviews with a fascinating array of personalities to weave an absorbing tale of life both in front and behind the scenes of ENO as it developed over the years *The London Mercury* ,1928
