Spring 2023

# Regional Development In Britain

**Christopher M. Law**

## **Regional Development In Britain:**

**Strategic Planning for Regional Development in the UK** , **Regional Development in Britain** Gerald Manners, David Keeble, Brian Rodgers, 1972 Regional Development in Britain Gerald Manners, 1972 Regional Development in Britain Gerald Manners, 1989 **Strategic Planning for Regional Development in the UK** Harry T. Dimitriou, Robin Thompson, 2007-08-07 With contributions from leading academics and practitioners Strategic Planning for Regional Development in the UK is the most up to date treatment of a fast changing subject The book discusses The evolution of regional planning in the UK and the strategic thinking involved The spatial implications of regional economic development policies The methods and techniques needed for the implementation of strategic planning for regional development How strategic planning for regional development is currently put into practice in three UK regions with different priorities Strategic Planning for Regional Development in the UK is essential reading for students and academics working within strategic and regional planning and provides policy makers and practitioners with a comprehensive and thought provoking introduction to this critically important emerging field British Regional Development Since World War I Christopher M. Law, 2021-08-14 First published in 1981 British Regional Development Since World War I presents a comprehensive and balanced introduction to the problems of regional development in Britain Since World War I it has been possible to talk of Britain as two nations a prosperous South including the Midlands and a poor North Christopher Law examines the nature and causes of this division including impact of industrial structure London's role as capital in the spatial economy and the influence of better environments on development This valuable study will be an essential read for anyone interested in any aspect of regional development and development studies in the last ninety years **Regional Development in Britain** Great Britain. Central Office of Information. Reference Division, 1976 *Regional Development Strategies* Jeremy Alden, Philip Boland, 2013-10-18 Regional development strategies have become the focus of attention in many countries in the 1990s This textbook provides a conceptual theoretical and empirical analysis of regional development strategies within a European context It examines the various regional development strategies which are currently being pursued within the regions of Europe defined in its loosest term to include East and West The book describes how many different European regions are attempting to reduce regional disparities by engaging themselves in coherent and focused regional development strategies and there is also private sector approach to regional economic development There are many case studies from Europe and from other parts of the world including Japan thereby providing lessons that different countries and regions can learn from each other **Regional Policy in Britain** Paul N. Balchin, 2021-07-11 Originally published in 1990 this book examines the extent to which the north south divide in the UK has been a reality in recent years It also reveals the degree to which the gap between the two parts of Britain has worsened An issue of enduring relevance particularly given the political drive to level up the regions the book focusses particularly on the 1980s a period when regional assistance became a victim

of both monetarism and free market ideology The book reviews legislation and considers whether regional policy has been effective and consistent To widen the debate the author questions some common assumptions about regional imbalance and argues that intraregional disparities and the plight of Inner London were causes of concern no less serious than the problem of the north south imbalance      Regional Development in the 1990s Ron Martin,Peter Townroe,2013-10-18 This book documents the changing nature and challenge of regional development in Britain and Ireland in the final decade of this century In the first half of this book region by region profiles review the experience of the eighties and reflect on the present climate assessing problems and opportunities The second half provides 25 commentaries on changes influencing the development of regions from questions of industry technology and employment to the impact of national policy and 1992 and the prospects and capacity for regional policy and development      **Region and Strategy in Britain and Japan** Takeshi Abe,Douglas A. Farnie,David J. Jeremy,Tetuso Nakaoka,John F. Wilson,2005-07-20 Highlighting the importance of regional and national differences in industrial development this book is a pioneering long term comparison of the two regions of Lancashire and Kansai      Institutions, Discourse, and Regional Development Henrik Halkier,2006 Why are some regional development strategies adopted and others rejected Only limited systematic attention has been paid to the politics of regional policy including the role of institutions discourse and political debate in shaping this major area of public policy The book develops an institutionalist approach to the study of regional policy capable of spanning major European development paradigms and accounting for the dynamic relationship between organisations policies and political discourse This conceptual framework is then applied to the Scottish Development Agency a development body famed across Europe for its innovative policies but surrounded by political controversy in Scotland A detailed study of corporate strategies policy implementation and the wider British environment questions existing interpretations of the organisation which tend to vilify anti interventionist Thatcherites or glorify shrewd development professionals Instead the author proposes an alternative synthesis which highlights the interplay between institutions discourse and regional development in the politics of regional policy      Regional Development Theories and Their Application Benjamin Higgins,2017-07-12 Throughout the world today former nation states as disparate as Yugoslavia Somalia and Canada have either disintegrated or threaten to splinter into regions The conflicts are economic social ethnic linguistic religious political and cultural Higgins and Savoie analyze the reasons for these conflicts and show why attempts to eliminate regional disparities within nations have been largely unsuccessful This volume is a highly readable comprehensive survey of the literature and current debates in the fields of regional economics development policy and planning      **Local and Regional Development** Andy Pike,Andrés Rodriguez-Pose,John Tomaney,2016-07-15 Actors and institutions in localities and regions across the world are seeking prosperity and well being amidst tumultuous and disruptive shifts and transitions generated by an increasingly globalised knowledge intensive capitalism global financial instability volatility and crisis concerns about economic social and ecological

sustainability climate change and resource shortages new multi actor and multi level systems of government and governance and a re ordering of the international political economy state austerity and retrenchment and new and reformed approaches to intervention policy and institutions for local and regional development Local and Regional Development provides an accessible critical and integrated examination of local and regional development theory institutions and policy in this changing context Amidst its rising importance the book addresses the fundamental issues of what kind of local and regional development and for whom its purposes principles and values frameworks of understanding approaches and interventions and integrated approaches to local and regional development throughout the world The approach provides a theoretically informed critical analysis of contemporary local and regional development in an international and multi disciplinary context grounded in concrete empirical analysis from experiences in the global North and South It concludes by identifying what might constitute holistic inclusive progressive and sustainable local and regional development and reflecting upon its limits and political renewal

Regional Development Agencies and the Local Democracy, Economic Development and Construction Bill: Oral and written evidence Great Britain. Parliament. House of Commons. Business and Enterprise Committee, 2009 Regional Development Agencies and the Local Democracy Economic Development and Construction Bill Fourth Report of Session 2008 2009

*A United Kingdom?* John Mohan, 2014-04-23 The human geography of the UK is currently being reshaped by a number of forces such as globalisation transition in the organisations of production the changing character of state intervention and changing relationships with Europe A consideration of the impacts of these forces on economic social and political landscapes is therefore an urgent task At the same time enduring institutional features of the British economy and polity are also having important influences on socio economic processes The result is a complex mosaic of uneven development which belies the notion of simplistic regional contrasts Rather than simply mapping spatial inequality A United Kingdom charts the processes underpinning uneven development at a range of scales and for a number of key topics The book draws upon and synthesises the latest contemporary research findings and places emphasis on the interrelated nature of economic social and political geographies It treats the human geographies of the UK in a coherent and integrated way and asks whether contemporary processes of change are tending towards the reduction of socio spatial divisions or their reproduction in new forms

**The British Computer Industry** Tim Kelly, 2018-03-26 Originally published in 1987 this book explores the history and geography of the computer industry in Britain and the evolution of the market leader firms STC ICL and IBM UK It also examines the rising rate of new firm formation in the 1980s and the technology policies adopted by successive governments and analyses how well the industry is placed to cope with the challenges of technological change and increased international competition

European Regional Development Fund Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2012-07-13 The abolition of the Regional Development Agencies removed the main source of match funding for ERDF sponsored projects and the economic

downturn has curbed alternative options for match funding even further There is a pressing need to spend each region s ERDF allocation before 2015 but unless ministers take urgent steps to deliver on the Government s promise to make it easier for projects to secure match funding through the Regional Growth Fund there is a significant risk that value for money will suffer and ERDF will not make the impact it could to help rebalance the UK s economy The Committee endorses a number of sensible rule changes that will govern the next ERDF round 2014-2020 currently proposed and related proposals to give Member States the power to tailor the size of their Operational Programme areas which could permit Local Economic Partnerships in England to take responsibility for managing EU funds MPs also challenge the current allocation system where even the wealthiest Member States receive some ERDF funding when a portion of what they pay in originally gets recycled back to them The cross party group of MPs calls for this circular money flow to end and for England to retain this portion of funding to deliver its own regional policy The Government would have to guarantee the same level of funding across the EU s 7 year funding cycle This change would not affect the Government s contribution to ERDF for the poorer Member States Lastly MPs challenge the Government to evaluate the value for money of ERDF funded projects

**Global Competition and Local Networks** Rod B. McNaughton, 2018-02-06 This title was first published in 2002 The interest in becoming globally competitive through network strategies particularly networks between small and medium sized firms in local business communities is high among academic researchers economic development agencies and growth orientated firms Important contributions to our understanding of the strategic use of networks are coming from a number of disciplinary and theoretical perspectives This volume provides a unique opportunity to both synthesize this diverse literature and report the results of original research It is particularly relevant to scholars of business and management geography and economics

**Managing Britain's Marine and Coastal Environment** Jonathan Potts, Hance D. Smith, 2013-02 This collection featuring an impressive list of contributors covers themes including maritime history environmental issues public policy technology and resources as well as open sea development and management
