## **Regional Studies The Interplay Of Land And People:**

**Regional Studies** Glen E. Lich, 1992 Concept of region means different things to different academic disciplines the contributors to this volume agree that the study of regions and regionalism can and should be undertaken with seriousness Contributors include William R Ferris Terry G Jordan Howard R Lamar Ann R Markusen Charles Hamm Samuel S Hill Susan H Armitage Frederic G Cassidy Wilbur Zelinsky Oscar J Martinez and Lynwood Montell Glen E Lich the volume's editor provides a Northwest Lands, Northwest Peoples Dale D. Goble, Paul W. Hirt, 2012-03-15 It can be said that all of human history is environmental history for all human action happens in an environment in a place This collection of essays explores the environmental history of the Pacific Northwest of North America addressing questions of how humans have adapted to the northwestern landscape and modified it over time and how the changing landscape in turn affected human society economy laws and values Northwest Lands and Peoples includes essays by historians anthropologists ecologists a botanist geographers biologists law professors and a journalist It addresses a wide variety of topics indicative of current scholarship in the rapidly growing field of environmental history *Human Geography in Action* Michael Kuby, John Harner, Patricia Gober, 2013-01-14 Michael Kuby's 6th edition of *Human Geography in Action* is comprised of 14 stimulating concept based chapters The text aims to develop geographic problem solving skills that prove valuable to readers Each chapter begins with an introduction to a concept followed by a case study tying the concept into the real world and wraps up with an activity These engaging activities featured throughout the text further its Do Geography approach *Human Geography in Action* provides the opportunity to use GIS to investigate ethnic distributions and culture regions track the AIDS epidemic over space and time model interstate migration flows simulate India's demographic future add new baseball franchises animate past urban growth and assess future growth areas Regionalism and the Humanities Timothy R. Mahoney, Wendy J. Katz, 2008-12-01 Although the framework of regionalist studies may seem to be crumbling under the weight of increasing globalization this collection of seventeen essays makes clear that cultivating regionalism lies at the center of the humanist endeavor With interdisciplinary contributions from poets and fiction writers literary historians musicologists and historians of architecture agriculture and women this volume implements some of the most innovative and intriguing approaches to the history and value of regionalism as a category for investigation in the humanities In the volume's inaugural essay Annie Proulx discusses landscapes in American fiction comments on how she constructs characters and interprets current literary trends Edward Watts offers a theory of region that argues for comparisons of the United States to other former colonies of Great Britain including New Zealand Australia and Canada Whether considering a writer's connection to region or the idea of place in exploring what is meant by regionalism these essays uncover an enduring and evolving concept Although the approaches and disciplines vary all are framed within the fundamental premise of the humanities the search to understand what it means to be human *A Potter's Progress* Scott Suter, 2024-01-12 Born into a traditional culture in 1833 Emanuel

Suter cultivated the art of pottery and expanded markets across the Shenandoah Valley of Virginia creating a thriving company and leaving thousands of examples of utilitarian ceramic ware that have survived down to the present. Drawing on Suter's diary rich with meticulous descriptions of his ceramic wares along with glazing recipes and the quotidian details of nineteenth century business as well as myriad other primary and secondary sources, Suter's great great grandson Scott Hamilton Suter tells the story of how a farmer with a seasonal sideline developed into a technologically advanced entrepreneur who operated a modern industrial company. As a farmer, Emanuel Suter innovated by adopting new time saving equipment; this progressive thinking bled over into his religious life as he endeavored to change the traditional way of choosing ministers by lot and advocated for the formation of Sunday schools in the Mennonite Church. But Suter largely made his mark as a potter, and *A Potter's Progress* is enhanced by nearly two dozen color images and a close study of the techniques including kilns and jigger wheels, products, shop organization, marketing, and labor of Suter's shops, revealing the revolutionary role they played in the world of Rockingham County, Virginia pottery manufacture. This tightly focused case study of the trials and triumphs of one craftsman as he moved from a cottage industry to a full scale industrial enterprise, prefiguring the market economy that would characterize the twentieth century, serves as a microcosm for examining the American spirit of progress in late nineteenth century America. *A Wetland Biography* Gay M. Gomez, 2010-07-05 Louisiana

s Chenier Plain is a 2,200 square mile region of marshes and oak covered ridges, cheniers, that stretches along the Gulf of Mexico from Sabine Lake to Vermilion Bay. Its inhabitants, some 6,000 people of Cajun and other ancestries, retain strong economic and cultural ties to the land and its teeming wildlife. They call it paradise, but it is a vulnerable paradise. In this multifaceted study, Gay Gomez explores the interaction of the land, people, and wildlife of the Chenier Plain, revealing both the uniqueness of the region and the challenges it faces. After describing the geography and history of the Chenier Plain, Gomez turns to the lifeways of its people. Drawing on their words and stories, she tells how the chenier dwellers combine modern occupations with traditional pursuits such as alligator and waterfowl hunting, fur trapping, and fishing. She shows how these traditions of wildlife use provide both economic incentives for conservation and a source of personal and place identity. This portrait of a working wetland reveals how wildlife use and appreciation can give rise to a stewardship that balances biological, economic, and cultural concerns in species and habitat protection.

**Lone Star Mind** Ty Cashion, 2018-11-01  
There is the story the Lone Star State likes to tell about itself, and then there is the reality, a Texas past that bears little resemblance to the manly Anglo myth of Texas exceptionalism that maintains a firm grip on the state's historical imagination. *Lone Star Mind* takes aim at this traditional narrative, holding both academic and lay historians accountable for the ways in which they craft the state's story. A clear sighted, far reaching work of intellectual history, this book marshals a wide array of pertinent scholarship, analysis, and original ideas to point the way toward a new, usable past that twenty first century Texans will find relevant. Ty Cashion fixes T. R. Fehrenbach's *Lone Star: A History of Texas and the Texans* in his crosshairs in

particular laying bare the conceptual deficiencies of the romantic and mythic narrative the book has served to codify since its first publication in 1968 At the same time Cashion explores the reasons why the collective efforts of university trained scholars have failed to diminish the appeal of the state s iconic popular culture despite the fuller and more accurate record these historians have produced Framing the search for a collective Texan identity in the context of a post Christian age and the end of Anglo male hegemony Lone Star Mind illuminates the many historiographical issues besetting the study of American history that will resonate with scholars in other fields as well Cashion proposes that a cultural history approach focusing on the self interests of all Texans is capable of telling a more complete story a story that captures present day realities

*Invitation to an Execution* Gordon Morris Bakken,2010-11-16 Until the early twentieth century printed invitations to executions issued by lawmen were a vital part of the ritual of death concluding a criminal proceeding in the United States In this study Gordon Morris Bakken invites readers to an understanding of the death penalty in America with a collection of essays that trace the history and politics of this highly charged moral legal and cultural issue Bakken has solicited essays from historians political scientists and lawyers to ensure a broad treatment of the evolution of American cultural attitudes about crime and capital punishment Part one of this extensive analysis focuses on politics legal history multicultural issues and the international aspects of the death penalty Part two offers a regional analysis with essays that put death penalty issues into a geographic and cultural context Part three focuses on specific states with emphasis on the need to understand capital punishment in terms of state law development particularly because states determine on whom the death penalty will be imposed Part four examines the various means of death from hanging to lethal injection in state law case studies And finally part five focuses on the portrayal of capital punishment in popular culture

*The Natural West* Dan Flores, 2003-03-30 *The Natural West* offers essays reflecting the natural history of the American West as written by one of its most respected environmental historians. Developing a provocative theme, Dan Flores asserts that Western environmental history cannot be explained by examining place, culture, or policy alone but should be understood within the context of a universal human nature. *The Natural West* entertains the notion that we all have a biological nature that helps explain some of our attitudes towards the environment. Flores also explains the ways in which various cultures, including the Comanches, New Mexico Hispanos, Mormons, Texans, and Montanans, interact with the environment of the West. Gracefully moving between the personal and the objective, Flores intersperses his writings with literature, scientific theory, and personal reflection. The topics cover a wide range from historical human nature regarding animals and exploration to the environmental histories of particular Western bioregions and finally to Western restoration as the great environmental theme of the twenty-first century.

*Where is the West?* Gordon Morris Bakken, Brenda Farrington, 2000 This anthology examines *Love's Labours Lost* from a variety of perspectives and through a wide range of materials. Selections discuss the play in terms of historical context, dating, and sources; character analysis; comic elements; and verbal conceits; evidence of authorship; performance analysis; and feminist interpretations. Alongside theater reviews, production photographs, and critical commentary, the volume also includes essays written by practicing theater artists who have worked on the play. An index by name, literary work, and concept rounds out this valuable resource.

**The Wind Doesn't Need a Passport** Tyche Hendricks, 2010

There are other books dealing with life at the border, but none as intelligent, searching, objective, or encompassing as Tyche Hendricks' vivid evocation of this region: its people, its landscape, its industry, its problems, and its unique culture. Peter Schrag, author of *Not Fit for Society: Immigration and Nativism in America*. This vivid evocative book made me think of the Robert Frost line: "Something there is that doesn't love a wall." Tyche Hendricks' multilayered portrait of the human communities that transcend the U.S.-Mexico border should remind us all of what an artificial thing barriers, fences, and checkpoints are. Maybe just maybe, someday we like so much of western Europe can do without them.

Adam Hochschild, author of *Bury My Heart at Grief*. This is an ambitious undertaking, and Hendricks excels at finding stories along the way that illustrate the clash between within and along that nearly 2,000-mile stretch of territory. Her reporting illustrates that for many U.S.-Mexico border residents, the international bridge is something you cross on your way to visit family, shop for groceries, get to a doctor, or work.

Macarena Del Rocio Hernandez, University of Houston. Dear President Obama, next time you are at Camp David, spend a couple of hours reading *The Wind Doesn't Need a Passport*. While the health care overhaul may well come to define your presidency, immigration will define the future of our country. In this marvelous book, rigorously grounded, smartly argued, beautifully crafted, Tyche Hendricks captures in stories of biblical proportion the contours of the magical line that at once unites us and

divides us as Americans and as neighbors of our indispensable partner in the South Ms Hendricks's book Mr President will remind you just what is at stake in getting immigration reform right All Californians Texans and Arizonians who think they know the border should read this book It is essential reading for our times Marcelo M Suarez Orozco Fisher Membership Fellow Institute for Advanced Study and co author of *Latinos Remaking America* *Tejano South Texas* Daniel D. Arreola, 2002-04-15 Examines the cultural geography of Tejano South Texas and the Mexican ancestry of its residents discussing where they originated when they came to Texas and how the area differs from other Mexican American regions

**Nature's Northwest** William G. Robbins, Katrine Barber, 2011-04-15 At the beginning of the twentieth century the greater Northwest was ablaze with change and seemingly obsessed with progress The promotional literature of the time praising railroads population increases and the growing sophistication of urban living however ignored the reality of poverty and ethnic and gender discrimination During the course of the next century even with dramatic changes in the region one constant remained inequality With an emphasis on the region's political economy its environmental history and its cultural and social heritage this lively and colorful history of the Pacific Northwest defined here as Oregon Washington Idaho Montana and southern British Columbia places the narrative of this dynamic region within a national and international context Embracing both Canadian and American stories in looking at the larger region renowned historians William Robbins and Katrine Barber offer us a fascinating regional history through the lens of both the environment and society Understanding the physical landscape of the greater Pacific Northwest and the watersheds of the Columbia Fraser Snake and Klamath rivers sets the stage for understanding the development of the area Examining how this landscape spawned sawmills fish canneries railroads logging camps agriculture and shared immigrant and ethnic traditions reveals an intricate portrait of the twentieth century Northwest Impressive in its synthesis of myriad historical facts this first rate regional history will be of interest to historians studying the region from a variety of perspectives and an informative read for anyone fascinated by the story of a landscape rich in diversity natural resources and Native culture **Environmental Problems**

**Studying Complex Interactions and Outcomes Through Qualitative Comparative Analysis** Markus

Kröger, 2021-05-24 *Studying Complex Interactions and Outcomes Through Qualitative Comparative Analysis: A Practical Guide to Comparative Case Studies and Ethnographic Data Analysis* offers practical methodological and theoretically robust guidelines to systematically study the causalities, dynamics and outcomes of complex social interactions in multiple source data sets. It demonstrates how to convert data from multisited ethnography of investment, politics, mobilizations and citizen struggles into a Qualitative Comparative Analysis (QCA). In this book, Markus Kröger focuses on how data collected primarily via multisited political ethnography, supplemented by other materials and verified by multiple forms of triangulation, can be systematically analyzed through QCA. The results of this QCA offer insight on how to study the political and economic outcomes in natural resource conflicts across different contexts and political systems. This book applies the method in practice using examples from the author's own research. With a focus on social movement studies, it shows how QCA can be used to analyze a multiple data source database that includes results from multiple case studies. This book is a practical guide for researchers and students in social movement studies and other disciplines that produce ethnographic data from multiple sources on how to analyze complex databases through the QCA.
