Poverty and Regional Development in Eastern Europe and Central Asia William R. Dillinger, 2007-01-01 Regional economic development is an interest of policymakers throughout the Europe and Central Asia ECA region One of its principal aims is to reduce poverty in lagging regions by stimulating local economic growth However problems exist with this approach First it may miss the target Although geographical concentrations of poverty exist poor people also live in regions that are on average rich Second the sources of the problem may be misdiagnosed Poverty is not only related to where people are but to who people are In ECA poverty is associated with low levels of education and people who are too young or too old to participate in the labor force Under these circumstances efforts to bring higher wage employment opportunities to poor regions may have little immediate benefit for the people who live there Third relying on regional economic development to address poverty in lagging regions ignores the potential role of migration The emigration of labor rather than the immigration of capital may be a more effective means of reducing the poverty of individuals in lagging regions though this is unlikely to eliminate pockets of poverty quickly Development opportunities may exist in poor regions that markets have overlooked Interventions must be assessed carefully Some of the traditional instruments used to stimulate regional economic growth have mixed track records Comprehensive custom tailored approaches appear to be a promising alternative However governments should be modest in using regional development as a tool of poverty reduction Policies aimed at stimulating growth in poor regions should be complemented by more direct anti poverty measures including targeted transfers and investments in education and efforts to remove barriers to emigration World Bank website

Regional Development Agencies and the Local Democracy, Economic Development and Construction Bill: Oral and written evidence Great Britain. Parliament. House of Commons. Business and Enterprise Committee, 2009 Regional Development Agencies and the Local Democracy Economic Development and Construction Bill Fourth Report of Session 2008 2009 OECD Regional Development Studies Enhancing Strategic Planning and Innovation Services Supporting Romanian Regional Development Agencies OECD, 2023-11-20 This report synthesises the regional development and innovation challenges facing Romania s RDAs and potential activities to overcome these in three areas strategic planning and performance measurement finance and implementation and communication and stakeholder engagement European Regional Development Fund Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2012-07-13 The abolition of the Regional Development Agencies removed the main source of match funding for ERDF sponsored projects and the economic downturn

has curbed alternative options for match funding even further There is a pressing need to spend each region's ERDF allocation before 2015 but unless ministers take urgent steps to deliver on the Government's promise to make it easier for projects to secure match funding through the Regional Growth Fund there is a significant risk that value for money will suffer and ERDF will not make the impact it could to help rebalance the UK's economy The Committee endorses a number of sensible rule changes that will govern the next ERDF round 2014-20 currently proposed and related proposals to give Member States the power to tailor the size of their Operational Programme areas which could permit Local Economic Partnerships in England to take responsibility for managing EU funds MPs also challenge the current allocation system where even the wealthiest Member States receive some ERDF funding when a portion of what they pay in originally gets recycled back to them The cross party group of MPs calls for this circular money flow to end and for England to retain this portion of funding to deliver its own regional policy The Government would have to guarantee the same level of funding across the EU's 7 year funding cycle This change would not affect the Government's contribution to ERDF for the poorer Member States Lastly MPs challenge the Government to evaluate the value for money of ERDF funded projects
