Jones, 1986-01-01 This book brings together a substantial and representative selection of recent writings on the House of Lords from the accession of James I to the Parliament Act of 1911 The editors provide a general historiographical survey and a bibliography of recent writings on the House of Lords during the period The Writings and Speeches of Edmund Burke: Volume II: Party, Parliament and the American Crisis, 1766-1774 Edmund Burke, 1981-04-09 A scholarly edition of the writings and speeches of Edmund Burke The edition presents an authoritative text together with an introduction commentary notes and scholarly apparatus **Parliamentary History**, 1996 **City of Capital** Bruce G. Carruthers, 1999-12-19 While many have examined how economic interests motivate political action Bruce Carruthers explores the reverse relationship by focusing on how political interests shape a market He sets his inquiry within the context of late Stuart England when an active stock market emerged and when Whig and Tory parties vied for control of a newly empowered Parliament Probing such connections between politics and markets at both institutional and individual levels Carruthers ultimately argues that competitive markets are not inherently apolitical spheres guided by economic interest but rather ongoing creations of social actors pursuing multiple goals BACK COVER *Computing Parliamentary History* John A. Phillips, 1994 Computing techniques are increasingly being used to examine afresh key historical events This collection of papers shows how they have been applied to four important political and parliamentary events in nineteenth century Britain the hitherto little studied 1835 Municipal Corporation Act which proved a watershed in the development of political parties the well known repeal of the Corn Laws the equally famous fight for Home Rule for Ireland and the development of parliamentary collective responsibility for ministers of the Crown It also describes and analyses the implications of a vast new database of unofficial late eighteenth century division lists for the House of Commons **John Locke: Correspondence** Mark Goldie, 2023-09-28 This is the twenty first volume in the Clarendon Edition of the Works of John Locke The series aims to provide authoritative

critical editions of all the writings of one of the most important intellectuals in the early modern Anglophone world The present volume completes the Correspondence edited by the late E S de Beer published between 1976 and 1989 It contains some 300 documents newly discovered or augmented or newly collected letters by or to Locke or between his close associates New finds have emerged from archives worldwide previously known letters are now improved from new manuscripts or supplemented by enclosures that had become detached from them epistles dedicatory in books by Locke or addressed to him are collected third party letters with direct bearing on Locke are included as also Locke s agreements with publishers for the printing of his books The volume covers Locke s manifold interests from childrearing to medicine to cartography from the exercise of patronage to the political economy of England s burgeoning empire from the management of his Somerset tenants to relations with fellow philosopher Damaris Masham from a trial for heresy to surveillance letters when Locke was suspect from book collecting to calendrical reform Locke s critics and vindicators are here attacking and defending his published works Considerable material has come to light bearing on Locke s encounters with Carolina and policies when a founding member of the Board of Trade and Plantations The volume is supported by Mark Goldie s introduction and by an extensive explanatory editorial apparatus John Locke: Correspondence Mark Goldie,2023-09-28 This volume completes the celebrated edition of John Locke s Correspondence by the late E S de Beer whose eight volumes were published between 1976 and 1989 The supplementary volume presents some 300 documents newly discovered or augmented or newly collected letters by or to Locke or between his close associates **Politics under the Later Stuarts** Tim Harris,2014-05-12 The first major study of party conflict in England over the later Stuart period from the reign of Charles II to its culmination under Anne Tim Harris shows how the party configuration of subsequent British politics emerged in these crucial years He deals not only with high politics and with the organisation of the new parties but also with the ideological roots of party strife **British Politics in the Age of Anne** Geoffrey Holmes,1987-07-01 British Politics in the Age of Anne is a book that anyone with an interest in the period will wish to possess completely authoritative yet as attractive to the student and the general reader as to the specialist The author has both revised the text and written a substantial new introduction to this edition Geoffrey Holmes reveals how little the structure and contents of politics under Queen Anne had in common with the connexion ridden scene of the mid eighteenth century as portrayed by Namier He depicts a period of fierce and genuine party conflict in which society at many levels was divided by great issues of principle and policy Through frequent and hotly contested elections and long parliamentary campaigns both Whigs and Tories enjoyed triumphs and suffered disasters And while struggling against one another each had to contend with internal factions and pressure groups the divisive thrust of personal ambitions and the hostility of the queen to single party rule British Politics in the Age of Anne is more than a major work of analysis and a historiographical landmark By liberal use of quotation eye for detail sense of atmosphere and vivid character sketches of both leading and lesser personae Professor Holmes recreates the

unique political life of the high Augustan age **Pillar of the Constitution** Clyve Jones, 2010-07-15 This collection of original essays deals with aspects of the history of the House of Lords in the seventeenth and eighteenth centuries including the internal management of the Lords and its external influence *Report for ...* Great Britain. Parliament. House of Lords. Record Office, 1982 **Money, Power, and Print** Charles Ivar McGrath, Christopher J. Fauske, 2008 This collection gathers the expertise of scholars in several disciplines to examine the manner in which financial and economic arguments were expressed in pamphlets broadsides and longer works of literature in the seventeenth and eighteenth centuries and to assess to what extent the political realities of the day were informed by these debates or alternatively shaped by that rhetoric The contributors to the volume draw upon an extensive variety of contemporary sources and modern analyses of the formative years of the financial revolution to reexamine many of the existing conventional ideas about the relationship between money power and print and to suggest that the subject is far more complex and interrelated than most studies up to now have indicated Particular attention is paid to the fact that the financial revolution did not occur in London in isolation from the various regions of the British Isles The essays address the question of how money power and print influenced the contemporary emergence of a radically different public finance structure in the British empire and how retrospective understanding of the results have influenced historical readings of the texts and the events A number of contributions offer detailed analyses of particular moments or structures in the reshaping of the public financial sphere such as the parliamentary and pamphlet debate over the establishment of the Bank of England and proposals for a land bank as an alternative Other essays focus on broader themes illustrative of larger trends during the period such as the Scottish support for an expedition to Madagascar to take advantage of presumed pirate treasure on the island BOOK JACKET **Walford's Guide to Reference Material** Albert John Walford, Anthony P. Harvey, H. Drubba, 1980 **The British National Bibliography** Arthur James Wells, 1979 The Parliaments of Scotland Margaret D. Young, 1992
