Regulating Religion Case Studies From Around The Globe:

Regulating Religion James T. Richardson, 2004 Regulation of minority faiths varies greatly around the globe with some countries allowing them considerable freedom to exist recruit new members raise money and use public facilities Other societies are more closed to the presence of such groups either native or foreign The pattern of reactions to minority religious movements is not easily explained by reference to usual terms Knowledge of historical factors in the various countries coupled with a use of selected theories from sociology of religion and sociology of law can assist understanding of the situation in various countries Explicating these complex relationships is the challenge of this volume *Regulating Religion Case Studies from Around the Globe* presents through the inclusion of contributions by international scholars a global examination of how a number of contemporary societies are regulating religious groups It focuses on legal efforts to exert social control over such groups especially through court cases but also with selected major legislative attempts to regulate them As such this analysis falls within the broad area of the sociology of social control and more specifically legal social control a topic of great interest when studying how contemporary societies attempt to maintain social order The factual details about social and legal developments in societies where religion has been defined as problematic include Western and Eastern Europe Asia Oceania and the Americas

Legal Cases, New Religious Movements, and Minority Faiths James T. Richardson, François Bellanger, 2016-04-22 New religious movements NRMs and other minority faiths have regularly been the focus of legal cases around the world in recent decades This is the first book to focus on important aspects of the relationship of smaller faiths to the societies in which they function by using specific legal cases to examine social control efforts The legal cases involve group leaders a group's practices or alleged abuses against members and children in the group legal actions brought by former members or third parties attacks against such groups by outsiders including even

governments and libel and slander actions brought by religious groups as they seek to defend themselves. These cases are sometimes milestones in the relation between state authorities and religious groups. Exploring cases in different parts of the world and assessing the events causing such cases and their consequences, this book offers a practical insight for understanding the relations of NRMs and other minority religions and the law from the perspective of legal cases. Chapters focus on legal, political and social implications. Including contributions from scholars, legal practitioners, actual or former members and authorities involved in such cases from various jurisdictions, this book presents an objective approach to understanding why so many legal actions have involved NRMs and other minority faiths in recent years in western societies and the consequences of those actions for the society and the religious group as well. [The Oxford Handbook of Church and State in the United States](#) Derek Davis, 2010-11-18. 21 essays present a scholarly look at the intricacies and past and current debates that frame the American system of church and state within 5 main areas: history, politics, sociology, theology, philosophy and law.

Handbook of Forensic Sociology and Psychology Stephen J. Morewitz, Mark L. Goldstein, 2013-08-20. The role of behavioral and social sciences in the courtroom setting has expanded exponentially in the past few decades. While there are many handbooks of forensic psychology, this is the first such volume to incorporate sociological findings, broadening the conceptual basis for examining cases in both the civil and criminal realms, including immigration issues, personal injury, child

A Sociology of Religious Freedom Olga Breskaya, Giuseppe Giordan, James T. Richardson, 2024-09-27 In recent years the relevance of religious freedom has spread well beyond academia becoming a reference point for international relations multi level policy development as well as interfaith negotiations Meanwhile scholarship on religious freedom has flourished on the boundaries of sociology law comparative politics history and theology This book presents a systematic sociological analysis of religious freedom bringing together classical sociological theories and empirical perspectives developed during the last three decades It addresses three major questions involved in any sociology of religious freedom First considering its complex and controversial nature how can religious freedom be defined Second what are the recurrent sociological conditions and relevant social perceptions that will foster an understanding of religious freedom in varying

political legal and socioreligious contexts And third what are the mechanisms of social implementation of religious freedom that contribute to making it a fundamental value in a society Olga Breskaya Giuseppe Giordan and James T Richardson suggest that a sociological definition of religious freedom requires us to take into account historical philosophical legal religious and political considerations of a given society and that the social dimensions of religious freedom are as important as the legal ones **New Approaches to the Study of Religion** Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004

Kirkham, 2017-05-15 The response of states to demands for free exercise of religion or belief varies greatly across the world In some places religions come as close as imaginable to autonomous existences with little interference from government In other cases religion finds itself grinding out a meagre living if at all under the jealously watchful eye of the state This book provides a legal and normative overview of the variety of responses to minority religions available to states Exploring case studies ranging from Islamic regions such as Indonesia Pakistan and the wider Middle East to Western Europe Eastern Europe China Russia Canada and the Baltics contributors include international scholars and experts in law sociology religious studies and political science This book offers invaluable perspectives on how minority religions are currently being received reviewed challenged or ignored in different parts of the world **Routledge Handbook on the Governance of Religious Diversity** Anna Triandafyllidou, Tina Magazzini, 2020-12-30 This book critically reviews state religion models and the ways in which different countries manage religious diversity illuminating different responses to the challenges encountered in accommodating both majorities and minorities The country cases encompass eight world regions and 23 countries offering a wealth of research material suitable to support comparative research Each case is analysed in depth looking at historical trends current practices policies legal norms and institutions By looking into state religion relations and governance of religious diversity in regions beyond Europe we gain insights into predominantly Muslim countries Egypt Morocco Tunisia Turkey Indonesia Malaysia countries with pronounced historical religious diversity India and Lebanon and into a predominantly migrant pluralist nation Australia These insights can provide a basis for re thinking European models and learning from experiences of governing religious diversity in other socio economic and geopolitical contexts Key analytical and comparative reflections inform the introduction and concluding chapters This volume offers a research and study companion to better understand the

connection between state religion relations and the governance of religious diversity in order to inform both policy and research efforts in accommodating religious diversity Given its accessible language and further readings provided in each chapter the volume is ideally suited for undergraduate and graduate students It will also be a valuable resource for researchers working in the wider field of ethnic migration religion and citizenship studies

Religion and Space Lily Kong, Orlando Woods, 2016-02-11 This is the first study to bring space into conversation with religious competition conflict and violence in the contemporary world Lily Kong and Orlando Woods argue that because space is both a medium and an outcome of religious activity it is integral to understanding processes of religious competition conflict and violence The book explores how religious groups make claims to both religious and secular spaces and examines how such claims are managed negotiated and contested by the state and by other secular and religious agencies It also examines how globalisation has given rise to new forms of religious competition and how religious groups strengthen themselves through the development of social resilience as well as contribute to resilient societies Throughout the book case studies from around the world are used to examine how religious competition and conflict intersect with space The case studies include topical issues such as competing claims to the Temple Mount Haram el Sharif in Jerusalem opposition to the Ground Zero mosque in New York City and the regulation of religious conversion in India and Sri Lanka By helping readers develop new perspectives on how religion works in and through space *Religion and Space Competition Conflict and Violence in the Contemporary World* is an innovative contribution to the study of religion
