### SEC Adopts Regulation Systems Compliance and Integrity

#### A. Executive Summary

On November 19, 2014, the Securities and Exchange Commission ("Commission" or "SEC") voted unanimously to adopt proposed Regulation Systems Compliance and Integrity ("Reg SCI") under the Securities Exchange Act of 1934 ("Exchange Act"), as well as certain conforming amendments to Regulation ATS ("Reg ATS").<sup>1</sup> Reg SCI is intended "to strengthen the technology infrastructure of the U.S. securities markets, to improve its resilience, and to enhance the Commission's ability to oversee it."<sup>2</sup> The adoption of Reg SCI represents the Commission's latest action in its broader, ongoing efforts to strengthen and reform U.S. equity market structure.<sup>3</sup> As explained by SEC Chair Mary Jo White, Reg SCI "provide[s] greater accountability for those responsible for our critical market systems, helping ensure that such systems operate effectively and that any issues are promptly corrected and communicated to market participants and the Commission."<sup>4</sup>

As it explained when proposing Reg SCI in 2013, the Commission believes that high-speed, automated trading that occurs on national securities exchanges and alternative trading systems ("ATSs") has increased the potential for technological problems to broadly impact the equity markets.<sup>5</sup> The ramifications of such problems have been manifested in recent market events, the occurrence of which further encouraged the Commission to revisit U.S. equity market structure.<sup>6</sup> The Proposing Release outlined a framework that would replace the voluntary requirements of the SEC's existing Automation Review Policy ("ARP Program"),<sup>7</sup> and the system capacity, integrity, and security requirements of Rule

<sup>4</sup> SEC Adopts Rules to Improve Systems Compliance and Integrity, SEC Press Release 2014-260 (Nov. 19, 2014).

<sup>5</sup> Opening Statement at the SEC Open Meeting, Elise Walter, SEC Chairman (Mar. 7, 2013) (discussing the proposal of Reg SCI).

<sup>6</sup> Such events included, among others: the Flash Crash of May 6, 2010; systems issues that affected the initial public offerings of BATS Global Markets, Inc. and Facebook, Inc.; the hacking of systems of NASDAQ OMX Group; and the two-day market closure due to superstorm Sandy.

<sup>7</sup> The ARP Program, established by the Commission's two policy statements, each entitled "Automated Systems of Self-Regulatory Organizations," issued in 1989 and 1991, is a voluntary technology review program ("ARP I" and "ARP II," respectively). ARP I stated that SROs should establish comprehensive planning and assessment programs to test systems capacity and vulnerability, including annual reviews by an independent reviewer. In ARP II, the SEC further articulated its views on how SROs should conduct independent reviews. ARP II also addressed how SROs should notify the SEC of material systems changes and significant systems problems, and suggested the development of standards for meeting the ARP policy statements. The ARP Inspection Program was developed by the SEC to implement the ARP policy statements. All active registered clearing agencies, national securities exchanges, FINRA, one exempt clearing agency and one ATS participate in the program. See Securities Exchange Act Release Nos. 27445 (Nov. 16, 1989), 54 Fed. Reg. 48703 (Nov. 24, 1989) ("ARP I") and 29185 (May 1, 1991), 56 Fed. Reg. 22490 (May 15, 1991) ("ARP II").

**Understanding Regulatory Compliance** James Fulton, *Understanding Regulatory Compliance* is a comprehensive guide that delves into the complexities of compliance frameworks across various industries. The book explores the fundamental principles of regulatory requirements, emphasizing the importance of adhering to laws and standards to mitigate risks and enhance corporate governance. Through practical examples and case studies, it illustrates how organizations can implement effective compliance programs, navigate regulatory environments, and cultivate a culture of compliance among employees. Ultimately, the book serves as a valuable resource for compliance professionals, business leaders, and anyone seeking to understand the critical role of regulatory adherence in fostering sustainable business practices.

**Regulatory reform compliance guide requirement has had little effect on agency practices.** , 2001. Section 212 does not appear to have had much of an impact in the agencies and years that we examined, and its implementation has varied across and sometimes within the agencies. The statute gives agencies broad discretion to decide which of their rules require compliance guides, what has to be in the guides, how they are developed, when they have to be published, and how they are distributed to affected small entities. Using that discretion, an agency could legally exclude all of its rules from coverage by the statute, designate a previously published document as its small entity compliance guide, or develop and publish a guide with no input from small entities years after the covered rule takes effect. Some of the ineffectiveness and inconsistency in the implementation of section 212 are traceable to the broad discretion provided to agencies in the RFA regarding the term "significant economic impact on a substantial number of small entities." Although a single rigid definition of this term may not be feasible, we believe that some additional clarity can be provided. Other problems with the compliance guide requirement are traceable to section 212 itself. We offer suggestions on how Congress may wish to amend the statute to make clear when agencies must prepare a compliance guide under section 212 and the meaning of key terms in the statute.
