Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Policy Research and Insurance, 1990 **Investing in Real Estate** Michael J. Gilroy, 2013-06-21 The purpose of this book is to shed some light on the process of purchasing income producing property and to introduce you to a technique of making money derived from public information available in the Probate Court System that not one in one hundred people are aware In other words I will explain in detail two different ways of making money using real estate as the vehicle The first and most popular way being of investing is to purchase real estate to hold for the long term The other method consists of purchasing updating

and selling property within a 6 month time frame and generating a 30% return on investment This method can also be expanded into an options situation whereby the investor puts a property under contract to be sold to him by giving the seller a 1 000 00 deposit while signing a P S agreement After the agreement is signed by both parties and the investor has legal footing the investor locates a contractor and proceeds to sell the contract The time for performance in most agreements is ninety days Within that time frame the investor collects the difference between what his agreement says that he is paying and what his purchaser is paying him This transaction is accomplished by using an assignment If the investor sells his agreement for 5 000 00 in ninety days he will have effectively gotten an annualized profit ratio of 20 to 1 The other section of the book explains how to track and capitalize on public information available in the Probate Court System to generate a fantastic income
