Traditional scholarship on how ancient civilizations emerged is outmoded and new insights call for revision According to the well established paradigm Mesopotamia is considered the cradle of civilization Following the cliché of ex oriente lux light from the East all major achievements of humankind spread from the Middle East Modern archaeology cultural science and historical linguistics indicate civilizations did not originate from a single prototype Several models produced divergent patterns of advanced culture developing both hierarchical and egalitarian societies This study outlines a panorama of ancient civilizations including the still little known Danube civilization now identified as the oldest advanced culture in Europe In a comparative view a new paradigm of research and a new cultural chronology of civilizations in the Old and New Worlds emerges with climate change shown to be a continual influence on human lifeways

R C Guria, 2022-07-11 This book attempts to highlight the truth of life which many of us do not know Many of us consider our present existence to be the truth of life But according to scholars philosophers and researchers our present momentary persona is only a bubble on the ocean of our eternal existence Almost all ancient philosophies and modern science have established that each of us is immortal because soul we possess exists forever This book explains with reference to philosophical thoughts and scientific research studies that death we know applies to the physical body only but not to the soul The soul is infinite and omnipresent So after every death soul enters into a new body in its long journey towards Salvation This book has also refers to philosophical explanation that the Supreme Soul or the Brahman is only the Real all other else are not real Precisely the Real Man is one one and each of us is only a limitation of the Real Man It s all God s play **The Individual in the Religions of the Ancient Mediterranean** Jörg Rüpke, 2013-08-29 Covering the Hellenistic and Imperial periods in both pagan polytheistic as well as Jewish monotheistic settings this edited collection focuses on individuation in everyday religious

**Josephus and the Theologies of Ancient Judaism** Jonathan Klawans, 2013-01-10 Though considered one of the most important informants about Judaism in the first century CE the Jewish historian Flavius Josephus's testimony is often overlooked or downplayed Jonathan Klawans's *Josephus and the Theologies of Ancient Judaism* reexamines Josephus's descriptions of sectarian disagreements concerning determinism and free will the afterlife and scriptural authority In each case Josephus's testimony is analyzed in light of his works general concerns as well as relevant biblical rabbinic and Dead Sea texts Many scholars today argue that ancient Jewish sectarian disputes revolved primarily or even exclusively around matters of ritual law such as calendar cultic practices or priestly succession Josephus however indicates that the Pharisees Sadducees and Essenes disagreed about matters of theology such as afterlife and determinism Similarly many scholars today argue that ancient Judaism was thrust into a theological crisis in the wake of the destruction of the second temple in 70 CE yet Josephus's works indicate that Jews were readily able to make sense of the catastrophe in light of biblical precedents and contemporary beliefs Without denying the importance of Jewish law and recognizing Josephus's embellishments and exaggerations *Josephus and the Theologies of Ancient Judaism* calls for a renewed focus on Josephus's testimony and models an approach to ancient Judaism that gives theological questions a deserved place alongside matters of legal concern Ancient Jewish theology was indeed significant diverse and sufficiently robust to respond to the crisis of its day
