The Abolition of Serfdom in Russia David Moon, 2014-09-25 In February 1861 Tsar Alexander II issued the statutes abolishing the institution of serfdom in Russia The procedures set in motion by Alexander II undid the ties that bound together 22 million serfs and 100 000 noble estate owners and changed the face of Russia Rather than presenting abolition as an event that happened in February 1861 *The Abolition of Serfdom in Russia* presents the reform as a process It traces the origins of the abolition of serfdom back to reforms in related areas in 1762 and forward to the culmination of the process in 1907 Written in an engaging and accessible manner the book shows how the reform process linked the old social economic and political order of eighteenth century Russia with the radical transformations of the late nineteenth and early twentieth centuries that culminated in revolution in 1917

Thinking Russia's History Environmentally Catherine Evtuhov, Julia Lajus, David Moon, 2023-07-14 Historians of Russia were relative latecomers to the field of environmental history Yet in the past decade the exploration of Russian environmental history has burgeoned *Thinking Russia's History Environmentally* showcases collaboration amongst an international set of scholars who focus on the contribution that the study of Russian environments makes to the global environmental field Through discerning analysis of natural resources the environment as a factor in historical processes such as industrialization and more recent human animal interactions this volume challenges stereotypes of Russian history and in so doing highlights the unexpected importance of Russian environments across a time frame well beyond the ecological catastrophes of the Soviet period

Markets and Moralities Caroline Humphrey, Ruth Mandel, 2020-08-05 Before the collapse of the Eastern Bloc private marketeering was regarded not only as criminal but even immoral by socialist regimes. Ten years after taking on board western market orientated shock therapy post socialist societies are still struggling to come to terms with the clash between these deeply engrained moralities and the daily pressures to sell and consume. This book explores the new market and its resulting contradictions in a rapidly developing Eastern Europe and Russia. Will Western fast food industries irrevocably alter local culinary practices? What effect has the privatization of land had upon ownership and exchange? What role do new commodities play within the household? Based on original first hand ethnography this book is a long awaited addition to existing literature on post socialist societies. It will be essential reading for students of anthropology sociology European and cultural studies as well as professional groups working in Eastern Europe and Russia including NGOs development organizations and businesses.

A History of Modern Russia from Nicholas II to Vladimir Putin Robert Service, 2005 Robert Service here presents a comprehensive overview of 20th century Russian history that treats the years from 1917 to 2000 as a single period and analyses the peculiar mixture of political economic and social ingredients that made up the Soviet compound.

Gay Lives and 'Aversion Therapy' in Brezhnev's Russia, 1964-1982 Rustam Alexander, 2023-11-24 This book examines the autobiographies and diaries of Soviet homosexual men who underwent psychotherapy during the period from 1970 to 1980 under the guidance of Yan Goland a psychiatrist sexopathologist from Gorky. The examination of these unique and little known documents contributes to our scant knowledge about the practices that many would call a Soviet proto type of aversion therapy. It also helps us understand the way homosexual people faced queer dilemmas of the self and how they sought to reconcile their queer desire with being Soviet.

Literature, History and Identity in Post-Soviet Russia, 1991-2006 Rosalind J. Marsh, 2007 The aim of this book is to explore some of the main pre occupations of literature culture and criticism dealing with historical themes in post Soviet Russia focusing mainly on literature in the years 1991 to 2006.

Russia's Bitter Path to Modernity Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it chose its own distinct path of development? In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire*. One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass. This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles. Neither approach says Chubarov will work on its own. Chubarov offers a balanced

view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia's Soviet development within Russia's own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former's mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states

Orthodox Russia: Belief and Practice Under the Tsars, Historical Dictionary of the Russian Federation Robert A. Saunders, 2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of *Historical Dictionary of the Russian Federation* provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of *Historical Dictionary of the Russian Federation* contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Russia **The Cult of Ivan the Terrible in Stalin's Russia** M. Perrie, 2001-10-25 Ivan IV the sixteenth century Russian tsar notorious for his reign of terror became an unlikely national hero in the Soviet Union during the 1940s This book traces the development of Ivan's positive image placing it in the context of Stalin's campaign for patriotism In addition to historians' images of Ivan the author examines literary and artistic representations including Sergei Eisenstein's famous film banned for its depiction of the tsar which was interpreted as an allegorical criticism of Stalin *Popular Religion in Russia* Stella Rock, 2007-09-10 This book dispels the widely held view that paganism survived in Russia alongside Orthodox Christianity demonstrating that double belief dvoeverie is in fact an academic myth Scholars citing the medieval origins of the term have often portrayed Russian Christianity as uniquely muddled by paganism with double believing Christians consciously or unconsciously preserving pagan traditions even into the twentieth century This volume shows how the concept of dvoeverie arose with nineteenth century scholars obsessed with the Russian folk and was perpetuated as a propaganda tool in the Soviet period colouring our perception of both popular faith in Russian and medieval Russian culture for over a century It surveys the wide variety of uses of the term from the eleventh to the seventeenth century and contrasts them to its use in modern historiography concluding that our modern interpretation of dvoeverie would not have been recognized by medieval clerics and that double belief is a modern academic construct Furthermore it offers a brief foray into medieval Orthodoxy via the mind of the believer through the language and literature of the period *Writing History in Twentieth-Century Russia* A.
