Constructing Fatherhood Deborah Lupton Lesley Barclay,Professor Deborah Lupton,Professor Lesley Barclay,1997-08-22 It is a very impressive book Its coverage of contemporary discourses of fatherhood is comprehensive The theoretical stance is one that allows for complexity and fluidity The authors write well making even esoteric sociological and cultural theory accessible I recommend it British Journal of Social Work

Constructing Fatherhood provides an analysis of the social cultural and symbolic meanings of fatherhood in contemporary western societies The authors draw on poststructuralist theory to analyze the representation of fatherhood in the expert literature of psychology sociology and the health sciences and in popular sources such as television film advertisements and child care and parenting manuals and magazines Men s own accounts of first time fatherhood are also drawn upon including four individual case studies

Elizabeth Peters,Randal D Day,Gary W Peterson,Suzanne Steinmetz,2014-03-18 How much power does a father have to influence his children s development A lively and often heated public debate on the role and value of the father in a family has been underway in the United States for the past decade Nevertheless we are far from understanding the complex ways in which fathers make contributions to their families and children

The Modernization of Fatherhood Ralph LaRossa,1997 The period between World War I and World War II was an important time in the history of gender relations and of American fatherhood Revealing the surprising extent to which some of yesterday s fathers were involved with their children The Modernization of Fatherhood recounts how fatherhood was reshaped during the Machine Age into the configuration we know today LaRossa explains that during the interwar period the image of the father as economic provider pal and male role model all in one became institutionalized Using personal letters and popular magazine and newspaper sources he explores how the social and economic conditions of the Roaring Twenties and the Great Depression a period of technical innovation as well as economic hardship fused these expectations into a cultural ideal With chapters on the U S Children s Bureau the fathercraft movement the magazine industry and the development of Parent s Magazine and the creation of Father s Day this book is a major addition to the growing literature on masculinity and fatherhood

Lorentzen,2015-12-04 The first study of its kind this book traces 150 years of the history of fatherhood in Scandinavia and shows how Scandinavian gender equality policy has important implications for the rest of the world Among other interesting findings Lorentzen reveals that the modern day rise in equality fathering can be traced back to the 19th century

New Fathers? Contemporary American Stories of Masculinity, Domesticity and Kinship Helena Wahlström,2010-10-12 What do novels such as Annie Proulx s *The Shipping News* Michael Cunningham s *A Home at the End of the World* and Jayne Anne Phillips *MotherKind* have in common with films such as *Smoke* and *Mrs Doubtfire* This study explores the intersection of masculinity and domesticity in contemporary film and literature It argues that these texts produced since the 1990s address with some urgency the notion of new fatherhood in the United States They offer explorations of the idea that American fatherhood around the turn of the twenty first century is changing and they problematize the legitimacy of new fathers and alternative families in a national culture where the old patriarch and the

nuclear family still often loom large in the imagination of many Americans New Passages Gail Sheehy, 2011-09-28 THE 1
NEW YORK TIMES BESTSELLER Millions of readers literally defined their lives through Gail Sheehy's landmark bestseller
Passages Seven years ago she set out to write a sequel but instead she discovered a historic revolution in the adult life cycle
People are taking longer to grow up and much longer to die A fifty year old woman who remains free of cancer and heart
disease can expect to see her ninety second birthday Men too can expect a dramatically lengthened life span The old
demarcations and descriptions of adulthood beginning at twenty one and ending at sixty five are hopelessly out of date In
New Passages Gail Sheehy discovers and maps out a completely new frontier a Second Adulthood in middle life Stop and
recalculate Sheehy writes Imagine the day you turn forty five as the infancy of another life Instead of declining men and
women who embrace a Second Adulthood are progressing through entirely new passages into lives of deeper meaning
renewed playfulness and creativity beyond both male and female menopause Through hundreds of personal and group
interviews national surveys of professionals and working class people and fresh findings extracted from fifty years of U S
Census reports Sheehy vividly dramatizes these newly developing stages Combining the scholar's ability to synthesize data
with the novelist's gift for storytelling she allows us to make sense of our own lives by understanding others like us New
Passages tells us we have the ability to customize our own life cycle This groundbreaking work is certain to awaken and
permanently alter the way we think about ourselves SHEEHY CLEARLY STATES IDEAS ABOUT LIFE THAT HAVE NEVER
BEFORE BEEN AS CLEARLY STATED Los Angeles Times Book Review AN OPTIMISTIC ANALYSIS OF ADULT
DEVELOPMENT IN PESSIMISTIC TIMES It is grounded in the economic and psychological realities that make adult life so
complex today The New York Times Book Review *Chinese Fatherhood, Gender and Family* Mario Liong, 2017-01-16 This
book is about how Chinese men make sense of and practise fatherhood within the context of changing gender conventions
and socio cultural conditions Liong analyses data from participant observations at a men's centre focus groups and in depth
interviews to assess the subjective experience and identities of Chinese fathers in Hong Kong from a gender perspective His
findings show that economic provision education and marriage are the three natural and normal domains of paternity Not
being able to fulfil these requirements is a threat to fathers masculinity yet is also an opportunity for fathers to reflect upon
these accepted conventions In order to compensate these men typically develop a closer and more caring relationship with
their children however these fathers still struggle with feelings of inferiority *The American Father* Wade C.
Mackey, 2013-06-29 In *The American Father* Wade C Mackey documents a wealth of information demonstrating the vast
benefits to society when its children are raised in families with fathers The biopsychosocial approach Mackey in human
employs is consistent with the current treatment of topics development This approach which is grounded in a variety of
diverse sources assumes that we understand little about people when we study them a bit at a time rather the fullness of the
individual requires a fullness of examination For example in the cases of fathers we note that humans do not reproduce alone

after all we are not an asexual species No human reproduction and its sequelae are social just as clearly as they are biological and involve the whole panoply of psychic function motivation sociability intelligence and the like The evidence marshaled by Mackey indicates strongly that individuals and societies have an essential requirement for something more than mothering they also need fathering Much of the discourse and publication on fathers during the past several decades has been posited on a more is better model of male parenting in which it is seldom stated who it is better for the father the child the mother the couple or the family Further much of this discussion infers that fathers are merely Mr Moms yet this is not so
