Reinvigorating European Elections The Implication:

Reinvigorating European Elections Julie Smith, 2005 What can be done to overcome these problems **Routledge Handbook of European Elections** Donatella M. Viola, 2015-08-14 The Routledge Handbook of European Elections explores the multifaceted dimension of the European Parliament's EP electoral contests across the European Community and European Union since 1979 After setting a general empirical and theoretical framework this collaborative project presents original contributions from leading experts from virtually all the corners of the European Union Each case study adheres to a common template that makes it easy to compare data methodology and outcomes Every country chapter includes a brief geopolitical profile and historical background of the Member State a glance at the national political landscape a short account of the main political parties including their attitude toward the European Union a section on public opinion and European integration a summary of electoral systems an overview of all EP and national elections an in depth analysis of the 2009 EP electoral race an overall theoretical interpretation of European elections A comparative chapter closes the Handbook followed by an Epilogue focussing on the 2014 EP contest with a detailed analysis of the newly elected European Assembly in terms of political group and gender composition The volume aims to enhance readers understanding of the European Parliament and revive their interest in the European integration process By providing a wide range of national and European facts and figures this investigation represents a comprehensive reference guide to scholars practitioners and students of the European Parliament European elections political parties European Union and comparative politics

Europe's Second Constitution Markus W. Gehring, 2020-09-24 European constitutionalisation has met with scepticism this book analyses the steps necessary to move to EU's Second Constitution *The EU Expansion* Lynda Lee Kaid, 2008 The EU Expansion analyzes the communication strategies of candidates and parties in the 2004 European Parliamentary elections These elections marked the first opportunity for the selection of representatives to the enlarged European Parliament They also provided an important opportunity to study how candidates and parties strike a balance between communicating the need to preserve the sovereignty and culture of their countries with the increasing realization that Europe can only preserve its significance in the world by forging a unified economic and political federation Research and analysis from both longstanding EU nations and those entering for the first time are provided Chapters focus on the background and significance of the elections the content of the party and candidate communications in representative countries news media coverage of the elections the effects of these communications on voters and the unique perspectives of how the elections were covered and perceived around the world European Integration Mark Gilbert, 2012 Rev and updated ed of *Surpassing realism the politics of European integration since 1945* c2003 **The Palgrave Handbook of National Parliaments and the European Union** C. Neuhold, O. Rozenberg, J. Smith, 2016-04-30 This handbook offers a comprehensive picture of the European activities of national parliaments in all 28 member states of the European Union In

the aftermath of the Lisbon Treaty it assesses the extent to which national legislatures actually matter in European governance

Leaderless Europe Jack Hayward, 2008-05-29 From its antecedents in the 1950s successive forms of European integration were intended to be leaderless They have succeeded only too well in demonstrating that much can be achieved without sustained leadership The attachment to national sovereignty of most of the European elites and mass populations has meant that confederalism has been implicitly accepted for the foreseeable future This book attempts to clarify three clusters of issues First as European integration has advanced who has provided the impetus Particular insiders have episodically exerted decisive innovative influence despite the need to conciliate the jealous champions of national sovereignty Three case studies are offered economic and monetary policy environmental policy and technology policy The second part examines why the European Union is currently leaderless The weakened Commission and the increasingly assertive European Council and Council of Ministers have contended for control of agenda setting but it is in the sphere of foreign and security policy that the EU's logic of leaderlessness has been most conspicuous Finally reduced capacity of the Franco German tandem to offer acceptable leadership and British incapacity to join or replace them in providing overall leadership is also discussed

European Sovereignty, Legitimacy, and Power Bart M.J. Szewczyk, 2020-12-23 This book shows how the EU's dual sovereignty legitimacy problem can be resolved through the political concept of European citizenship which can serve both to define the scope of European sovereignty and to justify EU power beyond national democracy It reconceptualizes the EU's legitimacy problem and demonstrates how sources of legitimacy can be identified and give rise to European sovereignty It argues that sovereignty should be based on the will of citizens acting through various political bodies within the EU city halls regional entities national governments and EU institutions and develops a general theory arguably applicable to any political order The EU is an unprecedented political project that is in tension with traditional forms of state legitimation based on national democracy as nationalists and populists throughout Europe often make clear Against this backdrop the book fully articulates the notion of European sovereignty and argues that the EU's sources of legitimacy are based on European citizenship and national democracy This book will be of key interest to scholars and students of EU politics European integration international institutions and international relations

E-Politics and Organizational Implications of the Internet: Power, Influence, and Social Change Romm Livermore, Celia, 2012-04-30 This book charts this influence and describes the unique effect electronic communication has on organizations communities nations and cultures Provided by publisher

From Integration to Integrity Michelle Cini, 2007 From Integration to Integrity examines the European Commission's administrative ethics in the events leading up to the resignation of the College of Commissioners in March 1999 and the subsequent administrative reform led by Commissioner Neil Kinnock from 1999 2004 Insights from the field of administrative ethics are applied to the Commission's response to accusations of an ethics problem within its organization adding a new perspective to existing research on the EU institutions Until now there has been no

study of the European institutions themselves to question the validity of these claims or to explore the extent to which the European Commission has responded to problems This is the first book to examine how the European Commission has addressed concerns about its ethical standards since 1999 **The European Parliament, Second Edition** David Judge, David Earnshaw, 2008-11-13 The revised and updated 2nd edition of this broad ranging text examines the political dynamic of the European Parliament within the EU and sets it in the broader context of comparative legislative analysis The authors examine its significance in the debates surrounding the democracy legitimacy and parliamentarization of the European Union The Politicisation of the European Commission's Presidency Matilde Ceron, Thomas Christiansen, Dionyssis G. Dimitrakopoulos, 2024-04-04 This book is the first systematic effort to investigate the ramifications of the introduction of the Spitzenkandidaten process for the appointment of the President of the European Commission It does so by examining the first two applications of the Spitzenkandidaten process from an historical legal and political perspective Although this process has spurred vibrant debate regarding its impact on EU elections and the EU political system it has yet to be comprehensively analysed by scholars Addressing this important gap the book provides a conceptual framework for analysing the impact of the Spitzenkandidaten process takes stock of its internal inter institutional and constitutional repercussions and assesses its future prospects Interdisciplinary in nature the book touches on several important themes including European elections EU policy making leadership legitimacy supranationalism and European integration Published to coincide with the 2024 European Parliament election it will appeal to scholars and students of the politics of European integration public administration governance European politics and EU constitutional law The World Today , 2004 **Politics for a New Generation** Nick Pearce, Julia Margo, 2007-04-29 To mark ten years since Labour's election the next generation of British and US political thinkers including MPs Ministers and policy specialists have come together to outline what the next phase of the progressive agenda should be and how it can be achieved Using evidence based research and the most promising new theories this collection of essays will consider the direction of progressive governance politics and policy in the next decade **A War Too Far** Paul Rogers, 2006-01-20 There are few today who can claim that the US occupation of Iraq has been a success for either side A War Too Far takes this on by looking back on the many unanswered questions about the invasion itself What was the real reason for the Iraq War Did George Bush ever have a strategy to confront al Qaida in one arena How does the invasion alter Iraq's relationship with Iran And what does this mean for the future Examining the delicate balance of power in Iraq this book explores the options for a US exit strategy and how the invasion affects America's relationship with Iran Paul Rogers explores The neo conservative vision of a US dominated Middle East The oil link Iraq's significance in energy geopolitics Links with Israel the development of close military co operation between the US and Israeli military The growing possibility of a war on Iran and its potential repercussions Lobbying the European Union Paul A. Shotton, Paul G. Nixon, 2020-09-10 Unique in bringing together contributions from

academics and practitioners on the theme of strategic intelligent modern lobbying this book provides a thorough and accessible discussion on key ideas pertinent to the pursuance of public affairs in the European Union Combining innovative academic research with first hand professional experience it offers the reader a combination of practical recommendations case studies and academic theory to add new insights to interest group research and lobbying strategies While focusing on the European Union the contributors acknowledge the multi level dimension of EU decision making and incorporate research on multi level governance as well as lobbying by sub national authorities Through this they present a fuller picture of a subject that should appeal to students academics and practitioners alike Germany After the Election United States.

of European Union Enlargement Esther Brimmer,2005 Enlargement will change the nature of the European Union but how will it affect international affairs The EU and its member states command significant economic resources and have launched a Common Foreign and Security Policy Yet the demands of taking on ten new countries concluding a constitutional treaty to accommodate decisionmaking and dissipating acrimony after the war in Iraq all complicate efforts to develop and enhance the EU s international presence This book considers the impact of enlargement with respect to the EU s perception of its international role in specific geographical regions The contributors discuss a range of global issues including the environment food policies development terrorism and the use of force Contributors include Stefan Fr hlich University of Erlangen Nuremberg Hanna Ojanen and Kristi Raik Finnish Institute of International Affairs Ulrike Guerot German Marshall Fund Berlin Office Stanislaw Tekieli Center for Eastern Studies Warsaw Michael Leigh European Commission Directorate General for External Affairs Henri Barkey Lehigh University Anne Marie LeGloannec Centre d Etudes et de Recherches Internationales Foundation Nationale des Sciences Politiques Stanislav Tkachenko St Petersburg University Nicolae Idu European Institute of Romania Ulrich Weisser Esther Brimmer Chantal de Jonge Oudraat and David Michel Center for
