Reise Ins Andere Deutschland:

Reise ins andere Deutschland Theo Sommer,1989 *Die heile Welt der Diktatur* Stefan Wolle,1998 *Voices in a Revolution* Melvin J. Lasky,2017-09-29 A featured article in *Die Zeit* the leading German weekly begins with Melvin du hast gewonnen Mel you have won In his extraordinary account of the final days of the German Democratic Republic DDR we see the reckoning of a regime and also the vindication of a life long devotee of European democracy It is unlikely that any comparable memoir will be written since Lasky s career spanned the entire history of wartime and postwar Germany especially in divided and Wall torn Berlin *Voices in a Revolution* now in paperback offers an in depth portrayal of the Communist police state before the breakdown followed by a blow by blow account of the drama of breakdown and regime transformation Characters in the everyday cultural world of Germany come alive as harbingers and heralds of the end of the old and the necessity of the new Lasky understands the role of accident as well as of necessity The West Germans had all but abandoned the slogan of One People One Nation when they were faced with the immense task of supervising just such a reintegration The work ends with the awakening conscience at the very point that the Berlin Wall came tumbling down This is a memorable work one likely to sear the conscience of lovers of freedom and analysts of tyranny alike **Literarische Deutschlandreisen nach 1989** Leslie Brückner,Christopher Meid,Christine Rühling,2014-05-08 Der Sammelband erschließt das Feld literarischer Deutschlandreisen die nach 1989 in großer Zahl erschienen sind Die Texte positionieren sich auf unterschiedliche Weise in den gegenwärtigen Diskursen über Nation und Heimat über Provinz und Stadt In verschiedenen Medien und literarischen Formen in Reisebericht und Reiseroman wird über das eigene Land nachgedacht Dabei wird das Reisemotiv unterschiedlich perspektiviert und instrumentalisiert Oft steht es mit nationaler aber auch mit persönlicher Identitätssuche in Verbindung auch die Frage nach den Möglichkeiten authentischen Erlebens und Reisens in der globalisierten Gegenwart bildet ein zentrales Thema Die Beiträge der Autoren wie Bischer Herrndorf oder Kracht systematisieren und kontextualisieren diese Phänomene Der Band leistet damit einen innovativen Beitrag zur Reiseliteraturforschung wie auch zu den Debatten über Identitätskonstruktionen in der deutschsprachigen Gegenwartsliteratur **The Ideal World of Dictatorship** Stefan Wolle,2019 **From Post-war To Post-wall Generations** Joyce Marie Mushaben,2019-03-04 In 1984 Italian Foreign Minister Giulio Andreotti aptly summarized popular perception of the divided nationality of the two Germanys East and West There are two German states and two they shall remain Few would have disagreed By the 1980s both German states had come to occupy respected niches in the international community Still neither **Germany 1989** Lothar Kettenacker,2014-01-14 In autumn 1989 the world watched transfixed as East German citizens demonstrating under the banner We are the people staged the only successful totally peaceful revolution in German history By October 1990 the process of reunification was formally concluded bringing together a nation that had been divided for almost four decades Now nearly twenty years later it is possible to judge the causes and consequences of the revolution more clearly Was the fall

of the Berlin Wall an unexpected fluke or was it in fact the result of a long process of engagement between East and West And did the momentous events of 1989 really signal the start of a bright new future for a united Germany In this probing and wide ranging account Lothar Kettenacker considers the background behind the division of Germany and explains how the Berlin Wall and its death trap border proved to be the most horrendous manifestation of East West antagonism He also looks beyond 1990 to show how the confusion caused by the sudden collapse of the GDR and the fusion of two radically different economies is proving to be a challenge that will preoccupy Germany for generations to come **Weimar** Michael H.

Kater,2014-09-28 Historian Michael H Kater chronicles the rise and fall of one of Germany s most iconic cities in this fascinating and surprisingly provocative history of Weimar Weimar was a center of the arts during the Enlightenment and hence the cradle of German culture in modern times Goethe and Schiller made their reputations here as did Franz Liszt and the young Richard Strauss In the early twentieth century the Bauhaus school was founded in Weimar But from the 1880s on the city also nurtured a powerful right wing reactionary movement and fifty years later a repressive National Socialist regime dimmed Weimar s creative lights transforming the onetime artists utopia into the capital of its first Nazified province and constructing the Buchenwald death camp on its doorstep Kater s richly detailed volume offers the first complete history of Weimar in any language from its meteoric eighteenth century rise up from obscurity through its glory days of unbridled creative expression to its dark descent back into artistic insignificance under Nazi rule and later Soviet occupation and beyond

in which each ideology became the foundation of government This pattern left its stamp on both the first and second halves of the century On the other hand the rise of modern industrial society led to decades of conflict over the social and political order regardless of which political system was in force Considering these contradictory developments Herbert tackles the questions of both the collapse in the first half of the century and the development from a post fascist ruined society to one of the most stable liberal democracies in the world in the latter half Herbert s analysis brings together wars and terror utopia and politics capitalism and the welfare state socialism and liberal democratic society gender and generations culture and lifestyles European integration and globalization The resulting book sets a standard by which historians of the period will be measured in the future
