Description in English Latin America and the Caribbean International Relations in the 21st Century Summit Diplomacy and Spaces of Regional and Global Agreement Faced with a new global context that has multiple actors but no effective multilateralism the multilateral system is now in crisis This is largely due to the economic and financial crisis underway since 2008 to the United States paying less attention to Latin America and other regions of the world and its unilateral inertia and to the deadlock in the United Nations system and the reduced legitimacy of emerging institutions which are unable to

achieve global governability In the West profound and important changes are being witnessed such as the deepening of relations between Latin America particularly South America and the Asia Pacific region and China's consolidation as a significant strategic trading partner for Latin America supplanting other partners like the European Union In addition the revolutions and transformations occurring in Arab countries and the changes taking place in Africa are reorienting priorities and trends in Europe that no doubt affect Latin America This publication brings together the main ideas presented by prominent academics with regard to these global changes and the different visions of hegemonic countries within and beyond the region and to summit diplomacies such as that of APEC CELAC the Americas and the EU as well as the ideas presented in relation to emerging transnational issues such as climate change security governance governability and integration In turn the issues of security and defense are analyzed in relation to the new challenges of the 21st century and the relevant actors within hemispheric foreign policy including Canada the United States Mexico and Brazil Lastly this work contains a reflection on this view of the changes that continue to take place within the International System Teoría de las relaciones

Relaciones internacionales en el siglo XXI Francisco Rojas Aravena, 2012 Los temas de carácter global que configuran la nueva agenda internacional obligan a las regiones y países a diseñar respuestas coordinadas entre los Estados y entre estos y los actores no estatales La región de América Latina y el Caribe no está exenta de esto Para enfrentar estos nuevos procesos y sus consecuencias nacionales y regionales se requiere de la asociación para la cooperación Tanto en el ámbito político

como en el economico el multilateralismo global continua en crisis La necesidad de mayor cooperacion demanda que deban superarse estas deficiencias y que se establezcan normas basicas que busquen un bien comun disminuyan el conflicto y potencien la participacion de los paises de la region Los analisis que se presentan en este libro desean contribuir al conocimiento y la construccion de mejores formas de relacionamiento entre los paises de America Latina y el Caribe a nivel intrarregional y entre estos y el sistema internacional partiendo de que la agenda latinoamericana en temas prioritarios es muy similar los temas globales forman parte esencial de la agenda regional y que muchos temas hemisfericos son intermesticos para todos aunque con consecuencias muy diferentes Sin embargo la forma de resolverlos prevenirlos y a quien se acude para trabajarlos aun resulta muy

patterns of traditional and new discourse and the diversity of disciplinary traditions Política exterior y desafíos regionales en el siglo XXI: integración física, productiva y recursos estratégicos Wanderley dos Reis Nascimento Júnior, Alina Ribeiro, Natália Noschese Fingerhann, Heitor Erthal, Guilherme Augusto Guimarães Ferreira, Fabio Sánchez, Luis Padilla Vassaux, Jonatan Badillo Reguera, Paulo Cesar Dos Santos Martins, Edson Dos Santos Jr., 2025-05-26 El propósito del tomo 21 se centra en abordar en primera instancia aspectos clave de la política exterior en los casos de actores regionales y subregionales. Dado el rol que desempeñan dichos Estados puede determinar e incidir frente a intereses objetivos estratégicos para la integración. Mediante la propuesta de modelos de análisis en el tomo se determinan variables importantes que permitan trascender la variable ideológica para explicar la crisis estructural de la noción de regionalismo y la práctica de la integración regional. Al respecto dentro de la agenda de integración regional los objetivos estratégicos pasan por las demandas internas y sus intereses nacionales que requieren paz y desarrollo una mayor integración productiva y física así como por la seguridad de recursos estratégicos entre otros. En este sentido la integración regional debe ir más allá de ser un compromiso ideacional institucionalizado en las constituciones de los países latinoamericanos como un fin en sí mismo para así contribuir al bienestar de sus sociedades de manera significativa como un medio para prosperar en todas las dimensiones. Para ello se requiere una revitalización de la práctica de la integración y la cooperación intrarregional a partir de elementos clave de la noción de regionalismo a partir de la cual se reconozcan las particularidades y las heterogeneidades existentes tanto coyunturales como estructurales en todos los niveles. Lo anterior demanda mayores discusiones y contribuciones que aborden aspectos como el liderazgo el rol y la inserción internacional el desarrollo productivo y la interconexión el multilateralismo la seguridad humana entre otros.

Latin America in Global International Relations Amitav Acharya, Melisa Deciancio, Diana Tussie, 2021-07-29 Using decades of their own insight into teaching undergraduate International Relations IR courses leading experts offer an introduction to IR thinking throughout history in Latin America unfolding ideas voices concepts and approaches from the region that can contribute to the broader Global IR discussion. The book highlights and discusses the growing possibility of a Latin American agency defined broadly to include both material and ideational elements in regional and international relations covering areas where Latin America's contributions are especially visible and relevant such as regionalism international law security management and Latin America's relations with the outside world. This is not about exclusively Latin American solutions to Latin American problems but rather about contributions in which Latin Americans define the terms for understanding the issues and set the terms for the nature and scope of outside involvement. Written with verve and clarity Latin America in Global International Relations exposes readers to the relevance of redefining and broadening IR theory. It will serve as a guide for instructors in structuring their courses and in identifying the place of Latin America in the discipline.
