Smith, *Rebuilding Family Relations for Children and Youth Separated from Family* Sarah Hean, Vanessa Heaslip, Jonathan Parker, Pravin Tembjerg, 2024-10-16 This edited volume explores a range of causes for separation of children and young people from family the impact of these causes and methods that both professionals and families may employ to build or rebuild these relations In particular contributions focus on six high priority crises through which children and young people become either permanently or temporarily separated from their families removal by child welfare services migration family breakdown placement into institutional care incarceration and or the death of a parent Authors emphasize the feelings of grief and loss experienced both by the child and their family whatever the separation context and the eventual impact on the young person s mental health They conclude that reunification with the family is not always possible or desirable and permanent alternative sources of care and or attachment may be required But if reunification is possible it is a complex and a multidimensional pathway as children move from one care context to the next Innovation coproduction with the birth family and tackling stigma and discrimination associated with family separations is a high priority **Participation, Citizenship**

Rubin, Ock Boon Chung, 2013-09-05 The purpose of this book is to present a rather simple argument Parents thoughts about childrearing and the ways in which they interact with children to achieve particular parenting or developmental goals are culturally determined Within any culture children are shaped by the physical and social settings within which they live culturally regulated customs and childrearing practices and culturally based belief systems The psychological meaning attributed to any given social behavior is in large part a function of the ecological niche within which it is produced Clearly it is the case that there are some cultural universals All parents want their children to be healthy and to feel secure However healthy and unhealthy at least in the psychological sense of the term can have different meanings from culture to culture *Children's Peer Relations and Social Competence* Gary W. Ladd, 2005-01-01 This book examines the role of peer relationships in child and adolescent development by tracking research findings from the early 1900s to the present Dividing the research into three generations the book describes what has been learned about children's peer relations and how children's participation in peer relationships contributes to their health adjustment and achievement Gary W Ladd reviews and interprets the investigative focus and findings of distinct research eras to highlight theoretical or empirical breakthroughs in the study of children's peer relations and social competence over the last century He also discusses how this information is relevant to understanding and promoting children's health and development In a final chapter the author appraises the major discoveries that have emerged during the three research generations and analyzes recent scientific agendas and discoveries in the peer relations discipline **Children's Peer Relations: Issues in Assessment and Intervention** B. for teaching the knowledge and skill to nonascendant children that the play materials required She guessed correctly that this training would bring about an increase in the ascendance scores of these children *Parent-Child Relations* Hisham Altalib,Abdulhamid Abusulayman,Omar Altalib,2013 This easy to read comprehensive guide contains what you need to know on how to parent with confidence Packed with advice and powerful tips using the latest research on child development and parenting techniques it offers a mine of information on how to let children flourish take the frustration out of parenting and develop happy family relations Authors provide guidance on developing character knowledge values and skills as well as a faith based outlook in children benefitting parents with kids of all ages e many strategies and techniques offered include teaching children how to problem solve make decisions and develop self esteem Raising God conscious moral successful children with a sense of civic responsibility in today s world is not easy It is also not impossible Effective parenting is the key
