Persons of the Market Kevin Musgrave,2022-08-01 Taking corporate personhood as a starting point Persons of the Market observes the complex historical entanglement of Christian theology and liberal capitalism to shed new light on their

seemingly odd marriage in contemporary American politics Author Kevin Musgrave highlights the ways that theories of corporate and human personhood have long been and remain bound together by examining four case studies the U S Supreme Court s 1886 Santa Clara decision the role of early twentieth century advertisers in endowing corporations with souls Justice Lewis Powell Jr s eponymous memo of 1971 and the arc of the conservative movement from Ronald Reagan to Donald Trump Tracing this rhetorical history of the extension and attribution of personhood to the corporate form illustrates how the corporation has for many increasingly become a normative model or ideal to which human persons should aspire In closing the book offers preliminary ideas about how we might fashion a more democratic and humane understanding of what it means to be a person

Defending the Free Market Robert Sirico, 2012-05-22 The Left has seized on our economic troubles as an excuse to blame the rich guy and paint a picture of capitalism and the free market as selfish greedy and cruel Democrats in Congress and Occupy protesters across the country assert that the free market is not only unforgiving it s morally corrupt According to President Obama and his allies only by allowing the government to heavily control and regulate business and by redistributing the wealth can we ensure fairness and compassion Exactly the opposite is true says Father Robert A Sirico in his thought provoking new book Defending the Free Market The Moral Case for a Free Economy Father Sirico argues that a free economy actually promotes charity selflessness and kindness And in Defending the Free Market he shows why free market capitalism is not only the best way to ensure individual success and national prosperity but is also the surest route to a moral and socially just society In Defending the Free Market Father Sirico shows Why we can t have freedom without a free economy Why the best way to help the poor is to start a business Why charity works but welfare doesn t How Father Sirico himself converted from being a leftist colleague of Jane Fonda and Tom Hayden to recognizing the merits of a free economy In this heated presidential election year the Left will argue that capitalism may produce winners but it is cruel and unfair Yet as Sirico proves in Defending the Free Market capitalism does not simply provide opportunity for material success but it ensures a more ethical and moral society as well

SOW YOUR FALLOW GROUND Charles Simms, 2012-01-20 Sow Your Fallow Ground begins the discussion of how you choose what action to take for social justice You must be the judge of why to take action but the reasons to do so are fully explained in the Bible The reason we have the power to choose is our ability to imagine the future effects of immediate choices still we often neglect that God given ability Sow Your Fallow Ground is about communication in light of the science of human action the communication that separates humankind from lesser life forms These concepts merge easily with the authentic Bible in spite of the belief by many that the Bible and natural science are mutually exclusive The science of praxeology which is the common name for human action teaches us how we make hundreds of choices every day How we make those choices is a value free science still without some kind of rudder compass or guiding star we drift into every kind of faulty behavior from unhealthy addictions to economic booms busts and wars There is a very important connection between the infallible Bible human action science neither

humanism nor psychology and economics as a single subject Like the biblical Trinity or a three legged stool they are different aspects of the same thing the choices we make **The University Bookman, a Quarterly Review** ,1975 Complex Societal Dynamics Katalin Martinás,Dario Matika,Armano Srbljinović,2010 Security Challenges and Opportunities This book contains 20 papers drawn from presentations and discussions at the NATO Advanced Research Workshop on Complex Societal Dynamics Security Challenges and Opportunities held in Zagreb Croatia in December 2009 The theory of complex systems views E Pluribus ONE Sophia A.
