**Christian Democracy Across the Iron Curtain** Piotr H. Kosicki, Sławomir Łukasiewicz, 2017-11-06 This book is the first scholarly exploration of how Christian Democracy kept Cold War Europe's eastern and western halves connected after the creation of the Iron Curtain in the late 1940s Christian Democrats led the transnational effort to rebuild the continent's western half after World War II but this is only one small part of the story of how the Christian Democratic political family transformed Europe and defied the nascent Cold War's bipolar division of the world The first section uses case studies from the origins of European

integration to reimagine Christian Democracy's long term significance for a united Europe. The second shifts the focus to East Central Europeans: some exiled to Western Europe, some to the USA, others remaining in the Soviet Bloc as dissidents. The transnational activism they pursued helped to ensure that the Iron Curtain or no the boundary between Europe's west and east remained permeable, that the Cold War would not last, and that Soviet attempts to divide the continent permanently would fail. The book's final section features the testimony of three key protagonists. This book appeals to a wide range of audiences: undergraduate and graduate students, established scholars, policymakers in Europe and the Americas, and potentially also general readerships interested in the Cold War or in the future of Europe. *Handbook of Public Policy in Europe*. H. Compston, 2004-10-01. The Handbook of Public Policy in Europe provides an invaluable overview of the content of public policy across the full range of policy areas in Britain, France, and Germany. It is designed to be used by students, experts, and practitioners both to help compare public policy across different policy areas and countries, and as a source of information on individual policy areas. Each chapter describes the nature of public policy in a particular area, makes detailed comparisons of selected aspects, and outlines recent developments. Detailed Internet references are also provided.

**Secularization in the Long 1960s** Clive D. Field, 2017-03-16. *Secularization in the Long 1960s: Numerating Religion in Britain* provides a major empirical contribution to the literature of secularization. It moves beyond the now largely sterile and theoretical debates about the validity of the secularization thesis or paradigm. Combining historical and social scientific perspectives, Clive D. Field uses a wide range of quantitative sources to probe the extent and pace of religious change in Britain during the long 1960s. In most cases, data is presented for the years 1955-80, with particular attention to the methodological and other challenges posed by each source type. Following an introductory chapter which reviews the historiography, introduces the sources, and defines the chronological and other parameters, Field provides evidence for all major facets of religious belonging, behaving, and believing, as well as for institutional church measures. The work engages with, and largely refutes, Callum G. Brown's influential assertion that Britain experienced revolutionary secularization in the 1960s, which was highly gendered in nature, and with 1963 the major tipping point. Instead, a more nuanced picture emerges: with some religious indicators in crisis, others continuing on an existing downward trajectory, and yet others remaining stable. Building on previous research by the author and other scholars, and rejecting recent proponents of counter secularization, the long 1960s are ultimately located within the context of a longstanding, gradualist, and still ongoing process of secularization in Britain. *Religion and Change in Modern Britain* Linda Woodhead, Rebecca Catto, 2013-03-01. This book offers a fully up to date and comprehensive guide to religion in Britain since 1945. A team of leading scholars provide a fresh analysis and overview, with a particular focus on diversity and change. They examine relations between religious and secular beliefs and institutions, the evolving role and status of the churches, the growth and settlement of non-Christian religious communities, the spread and diversification of alternative spiritualities, religion in welfare, education, media, politics, and law, theoretical

perspectives on religious change The volume presents the latest research including results from the largest ever research initiative on religion in Britain the AHRC ESRC Religion and Society Programme Survey chapters are combined with detailed case studies to give both breadth and depth of coverage The text is accompanied by relevant photographs and a companion website

**Church and State in Contemporary Europe** Zsolt Enyedi, John T.S. Madeley, 2004-08-02 This volume represents an attempt in integrating a wide range of theoretically relevant issues into the identification and analysis of church state patterns Each chapter focuses on the analysis of a particular theme and its role in shaping and or being shaped by church state relations

Catholics in Contemporary Britain Ben Clements, Stephen Bullivant, 2022-08-01 Catholics in Contemporary Britain showcases findings from a wide ranging empirical study of Catholics living in Britain It offers a sociologically informed study placing the contemporary Catholic community in the wider contexts of their society and the global faith of which they are a part The book has been animated by a set of compelling broader questions Who are the Catholics in Britain How do they engage with their faith and with the Church What do they think about issue within and the leadership of their Church What are their views on wider social issues and of the party political landscape The study is thematically broad in scope focusing on demography religiosity addressing the three Bs of believing belonging and behaving social moral issues church leadership and schooling and party support and voting behaviour The book presents a rich and fascinating demographic religious and attitudinal profile of Britain s Catholics in the 21st Century
