Religion And Power In Morocco:

Religion and Power in Morocco Henry Munson,1993 **A History of Social Justice and Political Power in the Middle East** Linda T. Darling,2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government s justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people s political culture and expectations of government The book demonstrates the Circle s relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism

Religion and Power David Martin,2016-04-08 There are few more contentious issues than the relation of faith to power or the suggestion that religion is irrational compared with politics and peculiarly prone to violence The former claim is associated with Juergen Habermas and the latter with Richard Dawkins In this book David Martin argues against Habermas that religion and politics share a common mythic basis and that it is misleading to contrast the rationality of politics with the irrationality of religion In contrast to Richard Dawkins and New Atheists generally Martin argues that the approach taken is brazenly unscientific and that the proclivity to violence is a shared feature of religion nationalism and political ideology alike rooted in the demands of power and social solidarity The book concludes by considering the changing ecology of faith and power at both centre and periphery in monuments places and spaces **Sufism in Morocco's Religious Politics** John C. Thibdeau,2023-07-25 This book outlines the role of Sufism in Moroccan politics in the twenty first century through a comparative study of contemporary Sufi organizations The author begins his analysis by highlighting the strategies employed by the Moroccan state over the past twenty years aimed at regulating and producing an authorized Moroccan Islam in the kingdom Despite these policies of spiritual security and spiritual diplomacy including the state sponsorship of Sufi organizations the author argues that this has not decreased diversity nor produced a banal interpretation of Islam but rather given rise to diverse articulations and performances of this religiosity Through a comparative analysis of three Sufi organizations based on eighteen months of fieldwork two of which have never before been studied the author brings into relief the spaces of creative enactment of Sufism as an ethical tradition Ultimately it is argued that each Sufi organization reflects a different refraction of i s n a concept emphasising the cultivation of public piety which underpins the Moroccan

Islamist Radicalisation in North Africa George Joffe, 2012-06-12 In the current climate of political extremism and violence much attention has been directed towards radicalisation as the reasons behind such courses of action along with a conviction that those who are radicalised represent an irrational deviation from the conventionally accepted norms of social and political behaviour This book focuses on the current issues and analytical approaches to the phenomenon of radicalisation in North Africa Taking a comprehensive approach to the subject it looks at the processes that lead to radicalisation rather than the often violent outcomes At the same time chapters expand the discussion historically and conceptually beyond the preoccupations of recent years in order to develop a more holistic understanding of a complex individual and collective process that has represented a permanent challenge to dominant political social and on occasion economic norms With contributions from academics and policy makers within and outside the region the book is a comprehensive investigation of Islamist Radicalisation As such it will be of great interest to academics and students investigating North Africa and terrorism as well as specialists in radicalism and extremism

Global Faith, Worldly Power John Corrigan, Melani McAlister, Axel R. Schäfer, 2022-09-15 Assessing the grand American evangelical missionary venture to convert the world this international group of leading scholars reveals how theological imperatives have intersected with worldly imaginaries from the nineteenth century to the present Countering the stubborn notion that conservative Protestant groups have steadfastly maintained their distance from governmental and economic

affairs these experts show how believers ambitious investments in missionizing and humanitarianism have connected with worldly matters of empire the Cold War foreign policy and neoliberalism They show too how evangelicals international activism redefined the content and the boundaries of the movement itself As evangelical voices from Africa Asia and Latin America became more vocal and assertive U S evangelicals took on more pluralistic multidirectional identities not only abroad but also back home Applying this international perspective to the history of American evangelicalism radically changes how we understand the development and influence of evangelicalism and of globalizing religion more broadly In addition to a critical introduction and essays by editors John Corrigan Melani McAlister and Axel R Sch fer are essays by Lydia Boyd Emily Conroy Krutz Christina Cecelia Davidson Helen Jin Kim David C Kirkpatrick Candace Lukasik Sarah Miller Davenport Dana L Robert Tom Smith Lauren F Turek and Gene Zubovich *Religion and Contemporary Politics* Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography **Key Issues in African Diplomacy** Sven Botha, Jo-Ansie van Wyk, 2024-06-28 Africa s unique position as an international diplomatic actor has not always been given the attention it deserves This volume bridges this gap by offering a fresh comprehensive and realistic overview of African diplomacy The book examines African diplomatic practice Chapters explore how different types of diplomacy have developed over time including energy diplomacy economic diplomacy and quiet diplomacy Crucially the book assesses how certain events have allowed Africa to use certain types of diplomacy to yield better outcomes for itself Including contributions from an international team of scholars policy makers and experts from the diplomatic world the book provides a comprehensive guide to African diplomacy and challenges the current dominant usage of Northern perspectives on diplomacy studies

Inside a Madrasa Arshad Alam, 2020-11-29 While there exists scholarly works on madrasas in India during medieval times and the colonial period there is hardly anything on the conditions of madrasas today and those are by and large based on secondary literature and not grounded in detailed empirical investigation This work through ethnographic study undertaken

at two madrasas in Mubarakpur in Uttar Pradesh shows how Indian madrasas represent a diverse array of ideological orientations which is mostly opposed to each other's interpretation of Islam. If madrasas are about the dissemination of Islamic knowledge then they also problematize and compete over how best to approach that knowledge in the process they create and sustain a wide variety of possible interpretations of Islam. This volume will be of interest to scholars and researchers interested in the study of Islam and Indian Muslims. Since it is multidisciplinary in approach it will find space within the disciplines of sociology, social anthropology, history and contemporary studies.

Islamist Parties and Power in Democratic Nation-States Ihsan Yilmaz, Syaza Shukri, 2024-08-27 By exploring the trajectories of Islamist parties in six diverse countries: Turkey, Morocco, Tunisia, Pakistan, Indonesia, and Malaysia, this book provides a comparative analysis of the strategies employed by Islamist groups to confront established political structures through electoral processes and their subsequent governance practices if and when they assume power. The latter aspect is less explored than the predominant focus on Islamist opposition movements. The book analyses how these Islamist political parties navigate and negotiate with oppositional forces and establishments, concisely discussing the complex dynamics at play within each country. The book also bridges the gap between North Africa, South Asia, Southeast Asia, and Asia Minor, providing a comparative analysis across regions. Primarily serving as an introductory text to the subject of Islamist parties, the book functions as a comprehensive reader and handbook. Each chapter covers a range of key issues and themes relevant to the governance and political activities of the Islamist party of the country studied in the chapter, offering a general overview of Islamist party experiences across various themes and different historical periods.

Faith in the Balance Haim Malka, 2019-10-11 This important and timely study, *Faith in the Balance: Regulating Religious Affairs in Africa*, provides unique insights into how five governments on the African continent do just that: manage the politics of religion and the role of religion in politics. The study looks at each case: Morocco, Tunisia, Nigeria, Kenya, and Burkina Faso, from the perspective of the state complementing work that has explained religious organizations and belief systems as they relate to the state seeking to address grievances or to access resources and security. One important insight from the various cases is the centrality of politics and power relationships more than doctrinal/theological debates in shaping the state-religion interactions.

Religious Appeals in Power Politics Peter S. Henne, 2023-10-15 *Religious Appeals in Power Politics* examines how states use or attempt to use confessional appeals to religious belief and conscience to advance political strategies and objectives. Through case studies of the United States, Saudi Arabia, and Russia, Peter S. Henne demonstrates that religion, although not as high profile or well funded a tool as economic sanctions or threats of military force, remains a potent weapon in international relations. Public policy analysis often minimizes the role of religion favoring military or economic matters as the important arenas of policy debate. As Henne shows, however, at transformative moments in political history, states turn to faith-based appeals to integrate or fragment international coalitions. Henne highlights Saudi Arabia's 1960s rivalry with Egypt, the United States's post-9/11 leadership in

the global war on terrorism and the Russian Federation's contemporary expansionism both to reveal the presence and power of calls for religious unity and to emphasize the uncertainty and anxiety such appeals can create Religious Appeals in Power Politics offers a bold corrective to those who consider religion as tangential to military or economic might *Secular Power Europe and Islam* Sarah Wolff, 2021-06-08 *Secular Power Europe and Islam* argues that secularism is not the central principle of international relations but should be considered as one belief system that influences international politics Through an exploration of Europe's secular identity an identity that is seen erroneously as normative author Sarah Wolff shows how Islam confronts the EU's existential anxieties about its security and its secular identity Islam disrupts Eurocentric assumptions about democracy and revolution and human rights Through three case studies Wolff encourages the reader to unpack secularism as a bedrock principle of IR and diplomacy This book argues that the EU's interest and diplomacy activities in relation to religion and to Islam specifically is shaped by the insistence on a European secular identity which should be reconsidered in areas of religion and foreign policy
