Nurturing Classroom:

Nurturing Creativity in the Classroom Ronald A. Beghetto, James C. Kaufman, 2010-06-28 Nurturing Creativity in the Classroom is a groundbreaking collection of essays by leading scholars who examine and respond to the tension that many educators face in valuing student creativity but believing that they cannot support it given the curricular constraints of the classroom. Is it possible for teachers to nurture creative development and expression without drifting into curricular chaos? Do curricular constraints necessarily lead to choosing conformity over creativity? This book combines the perspectives of top educators and psychologists to generate practical advice for considering and addressing the challenges of supporting creativity within the classroom. It is unique in its balance of practical recommendations for nurturing creativity and thoughtful appreciation of curricular constraints. This approach helps ensure that the insights and advice found in this collection will take root in educators' practice rather than being construed as yet another demand placed on their overflowing plate of responsibilities.

Teaching from the Thinking Heart John P. Miller,Michele Irwin,Kelli Nigh,2014-07-01 Forward by Nel Noddings This book includes papers written by teachers and how they engage holistic education in their classrooms The papers come from a course taught by Jack Miller at the Ontario Institute for Studies in Education at the University of Toronto entitled The Holistic Curriculum This is a rich and diverse collection of papers showing how holistic education can be brought into public education despite the pressures of testing and other accountability measures Although most of the teachers teach in public schools there are also examples from teachers working in private and post secondary settings This

book can inspire other teachers who are looking for ways to teach the whole person in a more connected manner. There are very few texts in the field of holistic education that include the voices and practices of teachers, particularly those working in public schools. Many of the examples of holistic education in practice come from Waldorf, Montessori, Reggio Emilia, and alternative schools. A unique feature of this book is the many different voices of teachers describing their work in the classroom; they talk about their successes, the challenges, and even a few failures.

Applied Behavior Analysis in Schools R. Carr, 2024-06-01

Most applied behavior analysis (ABA) texts rely heavily on research findings and technical theory, making them inaccessible for use by everyday teachers. *Applied Behavior Analysis in Schools: Realistic Implementation of Evidence-Based Interventions by Teachers* aims to be the missing link between books on classroom interventions within teacher preparation programs. Dr. R. Nicolle Carr leverages her years of expertise with ABA and channels it into creating practical, realistic working models of ABA that any teacher can use. Her by-teacher-for-teachers approach to writing effectively outlines ABA strategies so that they can be used with few resources and minimal training. *Applied Behavior Analysis in Schools* is tailored toward future and current educators to enable them to learn invaluable tools like how to

effectively take data in a classroom to help with academic performance or behavior management without requiring them to possess a background in ABA What is included in Applied Behavior Analysis in Schools Chapters on Acceptance and Commitment Therapy The role of cultural considerations and collaboration skills Use of ABA in transition skills Applying ABA to academics and an overview of assessments Included with the text are online supplemental materials for faculty use in the classroom Applied Behavior Analysis in Schools Realistic Implementation of Evidence Based Interventions by Teachers takes the concepts of ABA and presents them to teachers in a way that is both approachable and applicable **School Violence Intervention** Jane Close Conoley, Arnold P.
