Preedy, Lan-Anh Le, Vinood B. Patel, 2013-06-02 Emerging literature and research have currently shown that sleep sleep disturbances diet and nutrition are interlinked in numerous ways For example sleep deprivation alters food intake and snacking behaviour On the other hand dietary restriction and obesity alter sleep Specific nutrients such as caffeine and alcohol also affect sleep Furthermore variations in these relationships differ with respect to age gender and state of health There is a connection between sleep and disordered nutrition as defined by conditions such as diabetes and metabolic syndrome This book demonstrates that disruptive sleep patterns can be remedied by appropriate dietary or nutritional changes including the usage of supplements The contribution of sleep to our daily lives is not yet fully understood but it is clear that its impact should not be underestimated This handbook discusses the important relationship between diet and nutrition and disruptive or abnormal sleep in the sub clinical or clinical setting Authorities in the field offer a wide range of scientifically sound perspectives and approaches of the link between sleep nutrition and diet The Nutrient Diet David A. Wright MD MM MBA MHSA, 2021-05-19 The vast majority of diet plans and approaches fail because they expect a person to make too many primary changes at once In essence they expect you to change overnight instead of doing so gradually and naturally leaving most dieters feeling frustrated and overwhelmed And plans goals and objectives tend to fail when they require too many steps too quickly The Nutrient Diet is a Lifestyle Approach for general mental health based upon sound psychological principles The Nutrient Diet is 50% Diet and Nutrition and 50% Cognitive Behavioral Psychological Strategies for eating behaviors dieting impulse control and habit formation The Nutrient Diet is the first book of its kind to take a Cognitive Behavioral approach to diet nutrition health wellness weight loss weight management and lifestyle management The Nutrient Diet truly is a Trendsetter in the diet health wellness medicine nutrition weight loss weight management and lifestyle fields The Nutrient Diet also encompasses principles from Ketogenic Diets and Ketogenic Approaches taken from insights research data and clinical findings introduced to Dr Wright by Dr Christopher Palmer the Harvard Expert on the

ketogenic diet Dr Palmer has used the Ketogenic Diet in his practice for the past 2 decades Being overweight obesity diabetes hypertension metabolic syndrome peripheral artery disease coronary artery disease pulmonary diseases and other chronic health and mental health conditions are escalating because people are stressed out and their first impulses and reactions are to use food and alcohol to self medicate Dr Wright points out The Nutrient Diet shows you how to use planning strategy habits rituals actions and behavior patterns i e cognitive behavioral methods so that they become allies in your weight management diet and lifestyle goals Together these tools methods resources strategies and approaches will help you to develop healthy nutrition habits lose weight understand how foods work in your body break food addictions and develop better health and lifestyle practices while simultaneously adding joy happiness and fulfillment to your life Seeing Americans including myself gain weight during the COVID19 Pandemic inspired the writing of The Nutrient Diet since obesity is a significant risk factor for increased morbidity and mortality associated with a COVID19 infection Weight really does matter especially during a global pandemic associated with an insidious aggressive and highly mutagenic respiratory virus When asked what he wants readers to take away from the book Dr Wright answers The keys to diet weight management and impulse control are habit and ritual creation formation and sustainment Changing habits gradually and in a sustainable way is the only true way to be healthy and to maintain a weight and lifestyle that works for you The key isn't doing what everyone else does The key is combining the science of nutrition with what works with your unique DNA metabolism lifestyle choices and individual health and weight goals The real key is where science meets individuality and unique lifestyle goals and choices These choices and habits all protect you from poorer health outcomes including from viruses like COVID19 Maintaining a healthy weight prevents hospitalizations from COVID19 The Nutrient Diet was also inspired by the courage and confidence by which Oprah Winfrey took on health conditions like being overweight and obesity during the 80s and 90s on the Oprah Winfrey Show taking away much of the stigma and shame associated with weight oriented challenges and body image
