Objective Spirit:

Spirit in Philosophy Catarina Belo, 2019-04-30 Catarina Belo explores the question of spirit in the history of philosophy and in various philosophical disciplines highlighting its meaning and significance for Thomas Aquinas George Berkeley and Georg Wilhelm Friedrich Hegel among other major figures Belo argues that some of the traditional arguments concerning God reason and our knowledge of the world are shared by these philosophers culminating but not ending in Hegel In addition she defends a kind of idealism that is not incompatible with realism The book assumes the form a lively dialogue between a student and a teacher following the literary tradition in philosophy that begins with Plato The question of the spirit and its varied meanings are examined philosophically from a historical and a conceptual perspective **Absolute Spirit** Georg Wilhelm Friedrich Hegel, 2020-09-28 **The Relevance of Hegel's Concept of Philosophy** Luca Illetterati, Giovanna Miolli, 2021-12-16 In a systematic treatment of Hegel's concept of philosophy and all of the different aspects related to it this collection explores how Hegel and his understanding of his discipline can be put into dialogue with current metaphysical inquiries and shed light on the philosophical examination of the nature of philosophy itself Taking into account specific aspects of Hegel's elaboration on philosophy such the scientificity of philosophy as a self-grounding rational process and his explanation of the relationship between philosophy and the history of philosophy an international line up of contributors consider Hegel's concept of philosophy in general from skepticism idealism history and difference to time politics and religion The relation of Hegel's concept of philosophy to other philosophical traditions and philosophers including Kant Fichte Schelling and Jacobi Hegel's concept of philosophy with reference to philosophy's relation to other forms of rationality and disciplines The relation of Hegel's concept of philosophy to specific issues in present metaphysical debates Reflecting the renewed and widespread interest in Hegel seen in Analytic philosophy and Continental thought this volume advances study of Hegel's conceptual tools and provides new readings of traditional philosophical problems **The Fundamental Problems of Western Metaphysics** Xavier Zubiri, 2010 This book introduces profound reflections of Xavier Zubiri 1898 1983 on the history of philosophy to English speaking audiences The book discusses the transcendental in Western philosophy and how a firm grasp of it reveals underlying unity but also fundamental problems that *Christ Existing as Community* Michael Mawson, 2018-06-28 In *Christ Existing as Community* Michael Mawson recovers and clarifies the German theologian Dietrich Bonhoeffer's early and important work on ecclesiology focusing especially on his doctoral dissertation *Sanctorum Communio* Despite occasional pronouncements of the importance of this dissertation it has still received only limited scholarly attention Mawson demonstrates how Bonhoeffer draws upon and reworks social theory in order to develop an account of the church as a reality of God's revelation and a concrete human community On this basis Mawson concludes that Bonhoeffer's ecclesiology has ongoing significance for contemporary debates in theology and Christian ethics **Hegel's Political Aesthetics** Stefan Bird-Pollan, Vladimir Marchenkov, 2020-05-14 What is the role of art

in modern society To what extent are the beautiful and the morally good intertwined Hegel's Political Aesthetics explores Hegel's take on these ever relevant philosophical questions and investigates three key themes art's contribution to modern ethical life the loss of art's authority in modern ethical life and ways of thinking beyond Hegel's analysis of art's role in society The aesthetic is explored through the lens of German Idealism from Kant to Hegel ultimately placing ethics and morality at the forefront of this debate The authors explore Hegel's take on Kant's conception by historicizing what it means to be responsible to others which for Hegel means being free within the norms of society within what he calls ethical life As a set of concrete social arrangements designed for finite human beings however ethical life falls short of actualizing freedom absolutely The themes in this volume are motivated by a central ambivalence in Hegel's thinking about modernity The question of freedom sits at the forefront of this text alongside the relation between art and the spirit This book will be of particular interest to philosophers of aesthetics politics and ethics

Memory, History, Justice in Hegel Angelica Nuzzo, 2012-04-05 This reconstruction of the work of dialectical memory in Hegel raises the fundamental question of the principle that presides on the articulation of history and indicates in Hegel's philosophy two alternative models of conceiving history one that grounds history on ethical memory the other that sees justice as the moving principle of history

Aesthetics & The Philosophy Of Spirit John Shannon Hendrix, 2005 The Symposium and the aesthetics of Plotinus The aesthetics of Schelling Plotinian hypostases in Hegel's Phenomenology of spirit The aesthetics of Hegel Architecture and the philosophy of spirit Plotinus Estetik Schelling Friedrich Wilhelm Joseph von 1775 1854 Estetik Hegel Georg Friedrich Wilhelm 1770 1831 Estetik Estetik Tarih [Hegel, Nietzsche, and Philosophy](#) Will Dudley, 2002-08-08 Publisher Description

The Very Idea of Organization Christian Krijnen, 2015-07-28 The Very Idea of Organization presents a philosophical account of the phenomenon of organization It takes as its starting point a debate in organization studies about the foundations of organizational research This debate however is running into difficulties regarding the basic concept of the reality that organization studies deal with that is regarding the ontology of organization A convincing organizational ontology is not in sight Therefore Krijnen introduces a new meta perspective offering a more comprehensive and more fundamental social ontology in general as well as an organizational ontology in particular Exploring the Kantian and Hegelian tradition of philosophy he convincingly shows that a rejuvenated type of German idealism contains intriguing possibilities for developing a present day social and organizational philosophy

Tragedy and Citizenship Derek W. M. Barker, 2008-11-05 Tragedy and Citizenship provides a wide ranging exploration of attitudes toward tragedy and their implications for politics Derek W M Barker reads the history of political thought as a contest between the tragic view of politics that accepts conflict and uncertainty and an optimistic perspective that sees conflict as self dissolving Drawing on Aristotle's political thought alongside a novel reading of the Antigone that centers on Haemon its most neglected character Barker provides contemporary democratic theory with a theory of tragedy He sees Hegel's philosophy of reconciliation as a critical turning

point that results in the elimination of citizenship By linking Hegel s failure to address the tragic dimensions of politics to Richard Rorty John Rawls and Judith Butler Barker offers a major reassessment of contemporary political theory and a fresh perspective on the most urgent challenges facing democratic politics Derek W M Barker is a program officer at the Kettering Foundation

What Is Theology? Adam Kotsko, 2021-09-07 The secular world may have thought it was done with theology but theology was not done with it Recent decades have seen a resurgence of religion on the social and political scene which have driven thinkers across many disciplines to grapple with the Christian theological inheritance of the modern world Adam Kotsko provides a unique guide to this fraught terrain The title essay establishes a fresh and unexpected redefinition of theology and its complex and often polemical relationship with its sister discipline of philosophy Subsequent essays build on this framework from three different perspectives In the first part Kotsko demonstrates the continued vibrancy of Christian theology as a creative and constructive pursuit outside the walls of the church showing that theological concepts can underwrite a powerful critique of the modern world The second approaches Christian theology from the perspective of a range of contemporary philosophers showing how philosophical thought is drawn to theology even despite itself The concluding section is devoted to the unexpected theological roots of the modern world system making a case that the interplay of state and economy and the structure of modern racial oppression both build on theological patterns of thought Kotsko s book ultimately shows that theology is not a scholarly game or an edifying spiritual discipline but a world shaping force of great power Lives are at stake when we do theology and if we don t do it someone else will

Standing under the Cross Michael Mawson, 2023-09-07 Standing Under the Cross focuses on Bonhoeffer s rich theological and ethical thinking It places Bonhoeffer in conversation with a wide range of modern theologians including Karl Barth Franz Rosenzweig J rgen Moltmann and James Cone The book gives particular attention to hermeneutics the body and Bonhoeffer s rich reflections on community and discipleship Mawson attends to the complex ways in which these aspects of Bonhoeffer s thinking work together and shows how they can assist us in responding to some of the challenges confronting us today

Society and Spirit Joseph A. Bracken, 1991 Alfred North Whitehead s master work Process and Reality is intended to extend the cosmological vision of Whitehead in a new direction

By interpreting societies within Whitehead's scheme as structured fields of activity the author projects a universe of hierarchically ordered fields of activity up to and including the all encompassing field of activity constituted by the Christian Trinity

Machine and Sovereignty Yuk Hui, 2024-10-29 Developing a new political thought to address today's planetary crises What is planetary thinking today Arguing that a new approach is urgently needed Yuk Hui develops a future oriented mode of political thought that encompasses the unprecedented global challenges we are confronting the rise of artificial intelligence the ecological crisis and intensifying geopolitical conflicts Machine and Sovereignty starts with three premises The first affirms the necessity of developing a new language of coexistence that surpasses the limits of nation states and their variations the second recognizes that political forms including the polis empire and the state are technological phenomena which Lewis Mumford terms megamachines The third suggests that a particular political form is legitimated and rationalized by a corresponding political epistemology The planetary thinking that this book sketches departs from the opposition between mechanism and organism which characterized modern thought to understand the epistemological foundations of Hegel's political state and Schmitt's *Großraum* and their particular ways of conceiving the question of sovereignty Through this reconstruction Hui exposes the limits of the state and reflects on a new theoretical matrix based on the interrelated concepts of biodiversity noodiversity and technodiversity Arguing that we are facing the limit of modernity of the eschatological view of history of globalization and of the human Hui conceives necessary new epistemological and technological frameworks for understanding and rising to the crises of our present and our future Retail e book files for this title are screen reader friendly

Recognition and the Human Life-Form Heikki Ikäheimo, 2022-07-08 What is recognition and why is it so important This book develops a synoptic conception of the significance of recognition in its many forms for human persons by means of a rational reconstruction and internal critique of classical and contemporary accounts The book begins with a clarification of several fundamental questions concerning recognition It then reconstructs the core ideas of Fichte Hegel Taylor Fraser and Honneth and utilizes the insights and conceptual tools developed across these chapters for developing a case for the universal importance of recognition for humans It argues in favour of a universalist anthropological position unusual in the literature on recognition that aims to construe a philosophically sound basis for a discourse of common humanity or of a shared human life form for which moral relations of recognition are essential This synthetic conception of the importance of recognition provides tools for articulating deep intuitions shared across cultures about what makes human life and forms of human co existence better or worse and thus tools for mutual understanding about the deepest shared concerns of humanity

or of what makes us all human persons despite our differences Recognition and the Human Life Form will appeal to readers interested in philosophical anthropology social and political philosophy critical theory and the history of philosophy It also provides ideas and conceptual tools for fields such as anthropology education disability studies international relations law politics religious studies sociology and social research Chapter 5 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
