Prosa Des Exprebionismus

Ulrich Weisstein

Prosa Des Exprebionismus:

A Companion to the Literature of German Expressionism Neil H. Donahue, 2005 New essays examining the complex period of rich artistic ferment that was German literary Expressionism Utopie und Satire Jutta Kepser, 1996

Expressionism as an International Literary Phenomenon Ulrich Weisstein, 1973-01-01 Ulrich Weisstein's collection of 21 essays offers a comparative study of Expressionism as a Modernist movement whose dynamic core lay in Germany and Austria Hungary but which transformed artistic practices in other European countries The focus Weisstein argues must be strictly and sharply aimed at a specific body of works and opinions a relatively dense core surrounded by a less clearly defined fringe zone indigenous to the German speaking countries The volume spans an Expressionist period extending from roughly 1910 to 1925 Weisstein himself contributes two introductory chapters on problems of definition and a thoughtful analysis of English Vorticism An ample context is set by comparative essays concerned with international movements such as Futurism that had an impact on German Expressionist drama prose and poetry together with essays on the adaptation of Expressionist forms in countries such as Poland Russia Hungary South Slavic nations and the United States These essays call attention to representative authors and artists as well as to periodicals and artistic circles Reviewers have praised not only the presentation of literary links and interaction among national cultures but especially the most rewarding interdisciplinary essays on Dada and on Expressionist painting music and film German Expressionist Prose Augustinus P.

Dierick, 1987-12-15 An extreme sensitivity to gathering social crisis an accompanying angry enthusiasm for artistic experimentation and renewal this compelling mix in German art poetry and drama of the period 1910 to 1925 continues to draw both scholarly attention and intense popular interest In this book Augustinus Dierick focuses on another significant but hitherto neglected medium of German Expressionist thought short narrative prose in order to illuminate and evaluate the contribution of that genre to one of the twentieth century's most powerful artistic movements Dierick's study includes a thorough analysis of the works of a broad range of Expressionist prose writers from those of such specialists in the genre as Edschmid Heym Benn Loerke Frank Sternheim Ehrenstein and Mynona to the shorter prose works of such major figures as Alfred Döblin Heinrich Mann Max Brod and Franz Werfel Dierick isolates the thematic obsessions common among Expressionist writers the pathos of the self in confrontation with nature and with God the tension between self and the institutions of bourgeois society and the attractions and dangers of eroticism Throughout Dierick stresses the interrelationship between themes and their formal expression He examines many apparent excesses in style and tone many aberrations in structure and generic characteristics and identifies them not as needless experimentation but as a necessary result of the attempt to find appropriate forms for extreme situations and complex ideas Dierick's analysis makes clear that Expressionist prose has an intrinsic artistic value and because of certain nuances and different accents must be included in any estimation of the nature and importance of Expressionism as a whole **Prosa des Expressionismus** Armin

Arnold,1972 **Women in German Expressionism** Anke Finger,Julie Shoults,2023-08-07 This collection for the first time explores women s self conceptions and representations of women s and gender roles in society in their own Expressionist works How did women approach themes commonly considered to be characteristic of the Expressionist movement and did they address other themes or aesthetics and styles not currently represented in the canon Women in German Expressionism centers its analysis on gender together with difference ethnicity intersectionality and identity to approach artworks and texts in more nuanced ways engaging solidly established theoretical and sociohistorical approaches that enhance and update our understanding of the material under investigation It moves beyond the masculine New Man viewpoint so firmly associated with German Expressionism and examines alternative critical and divergent interpretations of the changing world at the time This collection seeks to broaden the theorization scholarship and reception of German Expressionism by much belatedly including works by women and by shifting or redefining firmly established concepts and topics carrying only the imprint of male authors and artists to this day *The Cambridge History of German Literature* Helen Watanabe-O'Kelly,2000-06-12 This is the first book to describe German literary history up to the unification of Germany in 1990 It takes a fresh look at the main authors and movements and also asks what Germans in a given period were actually reading and writing what they would have seen at the local theatre or found in the local lending library it includes for example discussions of literature in Latin as well as in German eighteenth century letters and popular novels Nazi literature and radio plays and modern Swiss and Austrian literature A new prominence is given to writing by women Contributors all leading scholars in their field have re examined standard judgements in writing a history for our own times The book is designed for the general reader as well as the advanced student titles and quotations are translated and there is a comprehensive bibliography Theorizing the Avant-Garde Richard John Murphy,1999-04-22 In *Modernism Expressionism and Theories of the Avant Garde* Richard Murphy mobilises theories of the postmodern to challenge our understanding of the avant garde He assesses the importance of the avant garde for contemporary culture and for the debates among theorists of postmodernism such as Jameson Eagleton Lyotard and Habermas Murphy reconsiders the classic formulation of the avant garde in Lukacs and Bloch especially their discussion of aesthetic autonomy and investigates the relationship between art and politics via a discussion of Marcuse Adorno and Benjamin Combining close textual readings of a wide range of films as well as works of literature it draws on a rich array of critical theories such as those of Bakhtin Todorov MacCabe Belsey and Raymond Williams This interdisciplinary project will appeal to all those interested in modernist and avant garde movements of the early twentieth century and provides a critical rethinking of the present day controversy regarding postmodernity **Crisis and Reorientation** Christine Svinth-Værge Pöder,Sigurd Baark,2023-06-22 This book uses Karl Barth s *Der R merbrief* 1922 as a prism through which to explore the role of religion and its interactions with cultural and political thought in the turbulent interwar period in Europe One of the most influential books in twentieth century protestant theology *Der R merbrief* found

Barth arguing that the crisis of the time was grounded in an even more profound crisis that pertained to the human condition as such. While much research has been conducted on *Der R merbrief* most of it has focused on the book's explicit theology. The aim of the present volume is to mark the centenary of this seminal book with a broader investigation into the movements of thought within *Der R merbrief* and its reception and impact within its cultural and intellectual context. This broader approach by a range of Northern European researchers brings attention to interconnections between cultural and theological movements in times of crisis.

Weimar Walter Laqueur, 2017-07-28. The term Weimar culture while generally accepted is in some respects unsatisfactory if only because political and cultural history seldom coincides in time. Expressionism was not born with the defeat of the Imperial German army nor is there any obvious connection between abstract painting and atonal music and the escape of the Kaiser nor were the great scientific discoveries triggered off by the proclamation of the Republic in 1919. As the eminent historian Walter Laqueur demonstrates the avant gardism commonly associated with post World War One precedes the Weimar Republic by a decade. It would no doubt be easier for the historian if the cultural history of Weimar were identical with the plays and theories of Bertolt Brecht the creations of the Bauhaus and the articles published by the *Weltb hne*. But there were a great many other individuals and groups at work and Laqueur gives a full and vivid accounting of their ideas and activities. The realities of Weimar culture comprise the political right as well as the left the universities as well as the literary intelligentsia. It would not be complete without occasional glances beyond avant garde thought and creation and their effects upon traditional German social and cultural attitudes and the often violent reactions against Weimar that would culminate with the rise of Hitler and the fall of the republic in 1933. This authoritative work is of immense importance to anyone interested in the history of Germany in this critical period of the country's life.

Immerse yourself in the artistry of words with Experience Art with is expressive creation, Discover the Artistry of **Prosa Des Exprebionismus** .
