Prospero Cell:

Shakespeare's Memory Theatre Lina Perkins Wilder, 2010-11-04 Wilder examines the excessive remembering of figures such as Romeo Falstaff and Hamlet as a way of defining Shakespeare's theatricality Prospero's Cell, and Reflections on a Marine Venus Lawrence Durrell, 1960 Guide to the customs religion geography history and the people of the Greek islands of Corfu and Rhodes *Prospero's Cell*, 1967 *Islands of the Mind* Richard Pine, 2020-02-05 730 million people almost 10% of the world's population inhabit islands One quarter of the states represented at the United Nations are islands Islands constitute almost twenty percent of the total land area of Greece and exhibit more significant aspects of biodiversity than other global contexts They are both occasions of triumph and occurrences of catastrophe Islands are both open and enclosed communities points of arrival and departure Islands exert a fascination for the visitor and generate in the islander both positive and negative mindsets The romantic fallacies about self sufficiency and insularity of islands are constantly challenged This collection of essays by scholars from some of the world's most compelling islands Jersey Ireland Tasmania Corfu Ereikousa Prince Edward Island Malta explores the psychology of islands islanders and their visitors the literatures they stimulate and the scientific ethical and biogeographical issues they present in an increasingly globalised world Corfu the home of Lawrence and Gerald Durrell in the 1930s and host to literary and scientific enquiry is the place where this collection was conceived and occupies a central place in its discussions **Shakespeare's Brain** Mary Thomas Crane, 2010-02-20 Here Mary Thomas Crane considers the brain as a site where body and culture meet to form the subject and its expression in language Taking Shakespeare as her case study she boldly demonstrates the explanatory power of cognitive theory a theory which argues that language is produced by a reciprocal interaction of body and environment brain and culture and which refocuses attention on the role of the author in the making of meaning Crane reveals in Shakespeare's texts a web of structures and categories through which meaning is created The approach yields fresh insights into a wide range of his plays including *The Comedy of Errors* *As You Like It* *Twelfth Night* *Hamlet* *Measure for Measure* and *The Tempest* Crane's cognitive reading traces the complex interactions of cultural and cognitive determinants of meaning as they play themselves out in Shakespeare's texts She shows how each play centers on a word or words conveying multiple meanings such as act pinch pregnant villain and clown and how each cluster has been shaped by early modern ideological formations The book also chronicles the playwright's developing response to the material conditions of subject formation in early modern England Crane reveals that Shakespeare in his comedies first explored the social spaces within which the subject is formed such as the home class hierarchy and romantic courtship His later plays reveal a greater preoccupation with how the self is formed within the body as the embodied mind seeks to make sense of and negotiate its physical and social environment Stem Cells and CNS Development Mahendra S. Rao, 2001-02-20 *Stem Cells and CNS Development* critically reviews recent findings on stem cells their involvement in neurogenesis and gliogenesis and the therapeutic

implications of these findings It defines by consensus the classes of stem cells in the nervous system compares their similarities and differences discusses the gains made in identifying human homologs of neural stem cells and describes how these cells are beginning to be used for therapeutic purposes Comprehensive and cutting edge this book provides all developmental scientists and neurobiologists not only an authoritative account of the current results in neural stem cell research but also an incisive review of the rapidly emerging therapeutic uses of stem cells **Dining with the Durrells**
