Protecting Refugees:

Refugee Rights David Hollenbach, 2008-04-30 Of the over 33 million refugees and internally displaced people in the world today a disproportionate percentage are found in Africa Most have been driven from their homes by armed strife displacing people into settings that fail to meet standards for even basic human dignity Protection of the human rights of these people is highly uncertain and unpredictable Many refugee service agencies agree advocacy on behalf of the displaced is a key aspect of their task But those working in the field are so pressed by urgent crises that they can rarely analyze the requirements of advocacy systematically Yet advocacy must go beyond international law to human rights as an ethical standard to prevent displaced people from falling through the cracks of our conflicted world Refugee Rights Ethics Advocacy and Africa draws upon David Hollenbach SJ's work as founder and director of the Center for Human Rights and International Justice at Boston College to provide an analytical framework for vigorous advocacy on behalf of refugees and internally displaced people Representing both religious and secular perspectives the contributors are scholars practitioners and refugee advocates all of whom have spent time on the ground in Africa The book begins with the poignant narrative of Abebe Feyissa an Ethiopian refugee who has spent over fifteen years in a refugee camp from hell Other chapters identify the social and political conditions integral to the plight of refugees and displaced persons Topics discussed include the fundamental right to freedom of movement gender roles and the rights of women the effects of war and the importance of reconstruction and reintegration following armed conflict The book concludes with suggestions of how humanitarian groups and international organizations can help mitigate the problem of forced displacement and enforce the belief that all displaced people have the right to be treated as their human dignity demands Refugee Rights offers an important analytical resource for advocates and students of human rights It will be of particular value to practitioners working in the field *Protecting Civilians in Refugee Camps* Maja Janmyr, 2013-11-28 Rather than serving as civilian and humanitarian safe havens refugee camps are notorious for their insecurity Due to the host state's inability or unwillingness to provide protection camps are often administered by the United Nations High Commissioner for Refugees UNHCR and its implementing partners When a violation occurs in these situations to which actors shall responsibility be allocated Through an analysis of the International Law Commission's work on international responsibility Maja Janmyr argues that the primary responsibility of states does not exclude the responsibilities of other actors Using the example of Uganda Janmyr questions the general assumption that unable and unwilling is the same as unable or unwilling and argues for the necessity of distinguishing between these two scenarios Doing so leads to different conclusions in terms of responsibility for the state and therefore for UNHCR and its implementing partners **Humanitarian assistance protecting refugee women and girls remains a significant challenge : report to the Ranking Member, Committee on Foreign Relations, U.S. Senate. , Refugee Protection and the Role of Law** Susan Kneebone, Dallah Stevens, Loretta Baldassar, 2014-06-27 Sixty years on from the

signing of the Refugee Convention forced migration and refugee movements continue to raise global concerns for hosting states and regions for countries of origin for humanitarian organisations on the ground and of course for the refugee This edited volume is framed around two themes which go to the core of contemporary refugeehood protection and identity It analyses how the issue of refugee identity is shaped by and responds to the legal regime of refugee protection in contemporary times The book investigates the premise that there is a narrowing of protection space in many countries and many highly visible incidents of refoulement It argues that Protection which is a core focus of the Refugee Convention appears to be under threat as there are many gaps and inconsistencies in practice Contributors to the volume who include Erika Feller Elspeth Guild H l ne Lambert and Roger Zetter look at the relevant issues from the perspective of a number of different disciplines including law politics sociology and anthropology The chapters examine the link between identity and protection as a basis for understanding how the Refugee Convention has been and is being applied in policy and practice The situation in a number of jurisdictions and regions in Europe North America South East Asia Africa and the Middle East is explored in order to ask the question does jurisprudence under the Refugee Convention need better coordination and how successful is oversight of the Convention

The Collective Responsibility of States to Protect Refugees Agnès G. Hurwitz, 2009 This title analyses the concept of sharing responsibility between states for protecting refugees under international law and how this mechanism highlights serious concerns for the protection of refugees rights

Refugee Law and Durability of Protection Maria O'Sullivan, 2019-05-08 This book examines the link between refugee protection duration of risk and residency rights It focuses on two main issues of importance to current state practice the use of temporary forms of refugee status and residency and the legal criteria for cessation of refugee status under Article 1C 5 of the 1951 Refugee Convention In analysing this issue this book canvasses debates which are pertinent to many other contentious areas of refugee law including the relationship between the refugee definition and complementary protection application of the Refugee Convention in situations of armed conflict and the role of non state bodies as actors of protection It also illustrates some of the central problems with the way in which the 1951 Refugee Convention is implemented domestically in key asylum host states The arguments put forward in this book have particular significance for the return of asylum seekers and refugees to situations of ongoing conflict and post conflict situations and is therefore highly pertinent to the future development of international refugee law

Protection of Refugees and Displaced Persons in the Asia Pacific Region Angus Francis, Rowena Maguire, 2016-04-08 The chapters in this book explore the impact of recent shifts in global and regional power and the subsequent development and enforcement of international refugee protection standards in the Asia Pacific region Drawing on their expertise across a number of jurisdictions the contributors assess the challenges confronting the implementation of international law in the region as well as new opportunities for extending protection norms into national and regional dialogues The case studies span key jurisdictions across the region and include a comparative analysis

with China Indonesia Thailand Myanmar Malaysia Bangladesh and Australia This topical and important book raises critical questions for the Asia Pacific region and sheds light on the challenges confronting the protection of refugees and displaced persons in this area Interdisciplinary in its approach it will be of interest to academics researchers students and policy makers concerned with the rights and protection of refugees Comparative Regional Protection Frameworks for Refugees , *Refugee Protection in Europe* Joanne van Selm-Thorburn,2023-08-21 This book addresses the issue of refugee protection in Europe drawing on the approaches taken to the crisis in former Yugoslavia to find lessons for future comprehensive policies Suitable for academics students and policy makers this book gives a comprehensive overview of the twentieth century history of refugee protection the relationship between protection and human rights and European integration in the asylum and immigration policy area The focus of the book is the development of comprehensive approaches to forced migration and particularly the emergence of temporary protection mechanisms in the European context Four specific national measures are analyzed and a model for future EU policy is advanced This model satisfies specified practical and theoretical requirements governing the role of protection in international relations and relations between individuals and states **Current Issues in U.S. Refugee Protection and Resettlement** United States.
