Protestant Aesthetics and the Arts Sarah Covington, Kathryn Reklis, 2020-01-27 The Reformation was one of the defining cultural turning points in Western history even if there is a longstanding stereotype that Protestants did away with art and material culture Rather than reject art and aestheticism Protestants developed their own aesthetic values which Protestant Aesthetics and the Arts addresses as it identifies and explains the link between theological aesthetics and the arts within a Protestant framework across five hundred years of history Featuring essays from an international gathering of leading experts working across a diverse set of disciplines Protestant Aesthetics and the Arts is the first study of its kind containing essays that address Protestantism and the fine arts visual art music literature and architecture and historical and contemporary Protestant theological perspectives on the subject of beauty and imagination Contributors challenge accepted preconceptions relating to the boundaries of theological aesthetics and religiously determined art disrupt traditional understandings of periodization and disciplinarity and seek to open rich avenues for new fields of research Building on renewed interest in Protestantism in the study of religion and modernity and the return to aesthetics in Christian theological inquiry this volume will be of significant interest to scholars of Theology Aesthetics Art and Architectural History Literary Criticism and Religious History

Protestant Worship and Church

Architecture James F. White,2003-02-28 Each year a billion dollars is spent on church buildings in the United States Yet there is no authoritative book available to guide building committees ministers and others responsible for new churches in the theological implications of their work Dr White explores the theological and historical considerations relevant to building for Protestant worship Surprisingly these are often ignored by building committees usually with disastrous results His approach is highly original especially in his theological treatment of worship yet his book is also a operative in the largest sense in that it relates theology to practice Professor White begins with a critical analysis of contemporary concepts of Protestant worship and then defines the liturgical factors in church design Following this there are four chapters giving an historical account of various experiments from the third century to the present This section indicates the tremendous variety of possibilities open to the church builder many of which have been ignored too long A final chapter deals with emotive factors all vitally relevant to the architect choir liturgical art and style The opportunity to design a new church building occurs only once or twice in each generation of church members It is all the more important that it be done carefully since the building will continue to affect the life of the congregation for many years Until fundamental questions as to what the Church is and what the Church does in worship are raised a congregation is not prepared to build This book will help churches find the answers The 155 item bibliography should be of value to many since a recent extensive bibliography on Protestant church architecture does not exist This book also contains 60 diagrams of experiments in plan garnered from nearly 2000 years of history

When Church Became Theatre Jeanne Halgren Kilde,2005 This text focuses on the shift in evangelical Protestant architecture in the 1880s and links it to changes in worship style and religious mission It focuses on how these buildings helped congregations negotiate social and personal power

Why Niebuhr Matters

Charles Lemert,Prof Charles Lemert,2011-11-29 Reinhold Niebuhr 1892 1971 was a Protestant preacher an influential religious thinker and an important moral guide in mid twentieth century America But what does he have to say to us now In what way does he inform the thinking of political leaders and commentators from Barack Obama and Madeleine Albright to David Brooks and Walter Russell Mead all of whom acknowledge his influence In this lively overview of Niebuhr s career Charles Lemert analyzes why interest in Niebuhr is rising and how Niebuhr provides the answers we ache for in the face of seismic shifts in the global order In the middle of the twentieth century having outgrown a theological liberalism Niebuhr challenged and rethought the nonsocialist Left in American politics He developed a political realism that refused to sacrifice ideals to

mere pragmatism or politics to bitterness and greed He examined the problem of morality in an immoral society and reimagined the balance between rights and freedom for the individual and social justice for the many With brevity and deep insight Lemert shows how Niebuhr s ideas illuminate our most difficult questions today **Theological Propaedeutic** Philip Schaff,2007-03-05 Theological Propaedeutic Philip Schaff,1893 Handbook of Contemporary Preaching Dr. Michael Duduit,1993-03-01 Contributors included Calvin Miller Joel Gregory Stuart Briscoe James Cox Elizabeth Achtemeier Thomas Long James Earl Massey and many more Making Religion, Making the State Yoshiko Ashiwa,David L. Wank,2009 This volume combines the perspective of religion as a constructed category of modernity with the analytic focus and empirical grounding of institutional social science to develop a new approach to the study of state and religion in modern and contemporary China
