Lewis Baltz - Works Lewis Baltz, 2010 *The prototype works* Lewis Baltz, 2005 **The Prototype Works** Lewis Baltz, Matthew S. Witkovsky, Art Institute of Chicago, 2011 Beginning in 1965 but especially in the years between 1967 and 1971 Lewis Baltz made a body of work concentrated on the dialectic between simple regular geometric forms found in the postwar industrial landscape and the culture that generated such forms Stucco walls parking lots the sides of warehouse sheds or disused billboards baked in the steady Californian sunlight Baltz called his works Prototypes by which he meant replicable social conventions as well as model structures of replicable manufacture Marking Baltz's preliminary forays into a minimal aesthetic The Prototype Works continued his work to capture the reality of a sprawling Western ecology gone wild

Lewis Baltz Lewis Baltz, 2010-08-31 With his iconic minimalist photographs of suburban landscape Lewis Baltz was at the forefront of a revolutionary shift in the medium of photography Baltz's work exemplifies the ways in which photography started to loose the bonds of its isolation within its own segregated history and aesthetics and began to take its place among other media In the late 1960s and early 1970s Baltz became fascinated by the stark man made landscape rolling over Californias then still agrarian terrain His earliest portfolio The Tract Houses 1971 and his preliminary forays into a minimal aesthetic The Prototype Works 1967 1976 illuminate his drive to capture the reality of a sprawling Western ecology gone wild His best known work from the period The new Industrial Parks near Irvine California 1974 was followed by two smaller projects Maryland 1976 and Nevada 1977 In the following decade Baltz published three major books Park City 1980 San Quentin Point 1986 and Candlestick Point 1989 exploring these themes **Lewis Baltz** Cherrydelosreyes, 2005-09 Lewis Baltz with his iconic minimalist photos of suburban landscape is considered the founder of the New Topographics movement Reproduced for the first time his earliest portfolio The Tract Houses 1971 and his preliminary forays into a minimal aesthetic The Prototype Works 1967 1976 illuminate Baltz's drive to capture the reality of a sprawling Western ecology gone wild Together with The New Industrial Parks near Irvine California this trilogy reveals the indelible importance of Baltz in the development of contemporary photography Baltz turned his camera on the virtually featureless built environment of California He pushed his compositions to an astringent minimum writes curator Sheryl Conkelton in an informative essay Either available as individual publications or in a handsome cloth slipcase for all three Includes stunning tri tone reproductions of Baltz's magnificent prints Co published by RAM Publications the Whitney Museum of American Art and Steidl Verlag this edition is truly worthy of collectors **The Speculative City** Susanna Phillips Newbury, 2021-04-20 A forensic examination of the mutual relationship between art and real estate in a transforming Los Angeles Underlying every great city is a rich and vibrant culture that shapes the texture of life within In The Speculative City Susanna Phillips Newbury teases out how art and Los Angeles shaped one another's evolution She compellingly articulates how together they transformed the Southland establishing the foundation for its contemporary art infrastructure and explains how artists came

to influence Los Angeles's burgeoning definition as the global city of the twenty first century Pairing particular works of art with specific innovations in real estate development *The Speculative City* reveals the connections between real estate and contemporary art as they constructed Los Angeles's present day cityscape From banal parking lots to Frank Gehry's designs for artists studios and museums Newbury examines pivotal interventions by artists and architects city officials and cultural philanthropists concluding with an examination of how in the wake of the 2008 global credit crisis contemporary art emerged as a financial asset to fuel private wealth and urban gentrification Both a history of the transformation of the Southland and a forensic examination of works of art *The Speculative City* is a rich complement to the California chronicles by such writers as Rebecca Solnit and Mike Davis
