Proust Among The Stars:

Proust Among the Stars Malcolm Bowie, 1998 For many Proust is the supreme European writer of the twentieth century This book tackles his achievement head on Art death sex politics loss guilt morality Proust's major themes are revealed and explained here Proust Among the Stars is a matchless close reading of Remembrance of Things Past and a lesson in how to read the great books profitably and pleasurably Malcolm Bowie asserts that Proust's novel is one of the great exercises in speculative imagining in the world's literature and that its originality lies first in the quality of Proust's textual invention page after page line after line Proust's world constantly shimmers with a sense of multiple possibilities and is at the same time infused with the urge to order obsessively to organize Bowie examines how Proust achieves this in his writing as opposed to his themes plots or theories An original beautiful and deeply moving book Proust Among the Stars shows how Proust's work deepens our understanding of our lives and ourselves Proust's Imaginary Museum Gabrielle Townsend, 2008 This study of Marcel Proust's creative imagination examines an aspect of the novel that has hitherto been largely overlooked the author's dependence on secondary visual sources Gabrielle Townsend argues that reproductions play a key role in the work's complex multi-layered structure The Proustian Mind Anna Elsner, Thomas Stern, 2022-12-30 When Marcel Proust started to work on *In Search of Lost Time* in 1908 he wrote this question in his notebook Should I make it a novel a philosophical study am I a novelist Throughout his famous multi-volume work Proust directly engages several philosophers and few novels are as thoroughly saturated with philosophical themes and concepts as *In Search of Lost Time* *The Proustian Mind* is an outstanding reference source to the rich philosophical range of Proust's work and the first major volume of its kind Including 31 chapters by an international team of contributors the volume is divided into seven clear parts Proust's life and works metaphysics and epistemology mind and language aesthetics ethics gender and sexuality predecessors contemporaries and successors Within these sections key Proustian themes are explored from a philosophical standpoint including time the self memory imagination jealousy beauty love subjectivity and desire The final section considers Proust in relation to important philosophers such as Schopenhauer Nietzsche Bergson Merleau Ponty Sartre de Beauvoir and Deleuze *The Proustian Mind* is essential reading for those studying aesthetics philosophy of literature phenomenology and ethics and will also be of interest to those in literature studying modernism French literature and the relationship between literature and philosophy Virginia Woolf and the Discourse of Science Holly Henry, 2003-02-27 Table of contents *Proust's Songbook* Jennifer Rushworth, 2024-06-04 In Proust's *Songbook* Jennifer Rushworth analyzes and theorizes the presence and role of songs in Marcel Proust's novel *la recherche du temps perdu* *In Search of Lost Time* Instead of focusing on instrumental music and large scale forms such as symphonies and opera as is common in Proust musical studies Rushworth argues for the centrality of songs and lyrics in Proust's opus Her work analyzes the ways in which the author inserted songs at key turning points in his novel and how he drew inspiration from contemporary composers and theorists of song Rushworth presents detailed readings of five moments

of song in *la recherche du temps perdu* highlighting the songs significance by paying close attention to their lyrics music composers and histories Rushworth interprets these episodes through theoretical reflections on song and voice drawing particularly from the works of Reynaldo Hahn and Roland Barthes She argues that songs in Proust's novel are connected and resonate with one another across the different volumes yet also shows how song for Proust is a solo amateur and intimate affair In addition she points to Proust's juxtapositions of songs with meditations on the notion of *mauvaise musique* bad music to demonstrate the existence of a blurred boundary between songs that are popular and songs that are art According to Rushworth a song for Proust has a special relation to repetition and memory due to its typical brevity and that song itself becomes a mode of resistance in *la Recherche* especially on the part of characters in the face of family and familial expectations She also defines the songs in Proust's novel as songs of farewell noting that to sing farewell is a means to resist the very parting that is being expressed and demonstrates how songs in formal terms resist the forward impetus of narrative

Spoiled Distinctions Hannah Freed-Thall, 2015 *Spoiled Distinctions* charts twentieth century experiments in the aesthetics of the ordinary arguing that Proust and his literary and philosophical successors Francis Ponge Nathalie Sarraute Yasmina Reza Pierre Bourdieu and Roland Barthes among others multiply strategies for reading and valuing the everyday

Haunted Museum Jonah Siegel, 2021-04-13 For centuries southern Europe and Italy in particular has offered writers far more than an evocative setting for important works of literature The voyage south has been an integral part of the imagination of inspiration *Haunted Museum* is a groundbreaking in depth look at fantasies of Italy from the late eighteenth to the early twentieth centuries focusing on a literary tradition Jonah Siegel terms the art romance the fantastic voyage south understood as the register of an ambivalent desire for art and a heightened experience of reality Siegel argues that Italy's allure derives not only from its celebrated promise of unique natural beauty and prized antiquities but from the opportunity it offers writers to place themselves in relation to a web of prior accounts of travel to the native land of genius Beginning with Goethe as the founding figure of the tradition *Haunted Museum* moves from a rich reframing of literature from the first half of the nineteenth century including new readings of works by Byron de Staël Barrett Browning and others to an ambitious examination of Henry James's well known engagement with Europe newly understood as a response to this important literary legacy Readings of works by Freud Forster Mann and Proust demonstrate the longevity of the tradition of looking to Italy for the representation of desires as impossible to satisfy as they are to deny

The Bloomsbury Handbook to Literature and Psychoanalysis Jeremy Tambling, 2023-03-09 Providing the most comprehensive examination of the two way traffic between literature and psychoanalysis to date this handbook looks at how each defines the other as well as addressing the key thinkers in psychoanalytic theory Freud Klein Lacan and the schools of thought each of these has generated It examines the debts that these psychoanalytic traditions have to literature and offers plentiful case studies of literature's influence from psychoanalysis Engaging with critical issues such as madness memory and colonialism with reference to texts from authors

as diverse as Shakespeare Goethe and Virginia Woolf this collection is admirably broad in its scope and wide ranging in its geographical coverage It thinks about the impact of psychoanalysis in a wide variety of literatures as well as in film and critical and cultural theory

Art and Identity Tone Roald, Johannes Lang, 2013 Art has the capacity to shape and alter our identities It can influence who and what we are Those who have had aesthetic experiences know this intimately and yet the study of art's impact on the mind struggles to be recognized as a centrally important field within the discipline of psychology The main thesis of *Art and Identity* is that aesthetic experience represents a prototype for meaningful experience warranting intense philosophical and psychological investigation Currently psychology remains too closed off from the rich reflection of philosophical aesthetics while philosophy continues to be sceptical of the psychological reduction of art to its potential for Subjective experience At the same time philosophical aesthetics cannot escape making certain assumptions about the psyche and benefits from entering into a dialogue with psychology *Art and Identity* brings together philosophical and psychological perspectives on aesthetics in order to explore how art creates minds

Proust's Snobs, Inverts, and Jews Adeline Soldin, 2025-03-06 An intersectional investigation of identity formation in Marcel Proust's magnum opus As metonyms for broader categories such as class sexuality and ethnicity the three most discussed identity groups in Proust's *la Recherche du Temps Perdu* snobs invertes and Jews prove to be deeply intertwined and perplexing representations Attentive to these interwoven complexities Proust's *Snobs Inverts and Jews* examines the novelist's exploitation of classification systems as a means to subvert the notion of a fixed identity To illustrate Proust's challenges to a social order that restricts our perceptions of identity Adeline Soldin addresses the inconsistencies and friction surrounding the portrayal of these key figures in his seven volume novel Many scholars have recognized that the narrator's formative journey in *La Recherche* leads to disillusionment and increased mockery of his fellow characters Soldin contends however that Proust does not merely deride characters behavior but rather interrogates their diverse motivations and tendencies thereby exposing the performative nature of identity Proust's *Snobs Inverts and Jews* draws on Judith Butler's theories of performativity to illustrate Proust's precocious portrayal of identity in *La Recherche* as an elusive unattainable idea that characters pursue yet consistently fail to establish Ultimately the enigmatic and anonymous narrator models fluidity and promotes fantasy and imagination to compensate for the limitations imposed on individuals by social and linguistic conventions

Reading in Proust's A la recherche Adam Watt, 2009-06-18 Through close textual analysis of the scenes of reading in Proust's *A la recherche du temps perdu* Adam Watt offers an invigorating new study of the novel and previously unacknowledged paths through it After considering key childhood Primal Scenes which mark the act of reading as revelatory and potentially traumatic the book then identifies and examines the interwoven strands of the novel's narrative of reading showing that scenes where the narrator reads and where others provide lessons in reading are intricately connected within the narrator's ever unfolding considerations of intelligence sense experience knowledge and desire These acts of reading often bewildering the narrator

with their mix of illuminations wrong turns and over determinations lead us to interrogate our own understanding of the act we accomplish as we read *A la recherche* This book emphasizes the complexities and contradictions with which reading always inescapably an engagement of both mind and body is riven and which connect it repeatedly to the experience of involuntary memory Reading is shown to be frequently fraught with heady instability d lire of a highly revealing sort from which narrator and readers alike have much to learn The book s final chapter shows how the narrator s critical energies turned contemplatively inwards in the Guermantes library are subsequently turned outwards for a final interpretive effort the reading of his now aged acquaintances at the Bal de t tes in a shift that provides the narrator not only the confidence to begin his work of art but also the humility to face undeterred the approach of death

Unexceptional Politics Emily Apter,2018-02-06 A new vision of politics below the radar One way to grasp the nature of politics is to understand the key terms in which it is discussed *Unexceptional Politics* develops a political vocabulary drawn from a wide range of media political fiction art film and TV highlighting the scams imbroglios information trafficking brinkmanship and parliamentary procedures that obstruct and block progressive politics The book reviews and renews modes of thinking about micropolitics that counter notions of the state of exception embedded in theories of the political from Thomas Hobbes to Carl Schmitt Emily Apter develops a critical model of politics behind the scenes a politics that operates outside the norms of classical political theory She focuses on micropolitics defined as small events happening in series that often pass unnoticed yet disturb and interfere with the institutional structures of capitalist parliamentary systems even as they secure their reproduction and longevity Apter s experimental glossary is arranged under headings that look at the apparently incidental immaterial and increasingly virtual practices of politicking obstruction obstinacy psychopolitics managed life serial politics Such terms frame an argument for taking stock of the realization that we really do not know what politics is where it begins and ends or how its micro events should be described

Love, Desire and Transcendence in French Literature Paul Gifford,2016-12-05 European literature and theory of the twentieth century have been intensely preoccupied with questions of Desire whereas love has increasingly represented a fractured and strange if not actually suspect proposal this is a prime symptom of an age of deep cultural mutation and uncertainty Paul Gifford s book allows this considerable contemporary phenomenon to be observed steadily and whole with strategic understanding of its origins nature and meaning Gifford paints a clear and coherent picture of the evolution of erotic ideas and their imaginary and formal expressions in modern French writing He first retraces the formative matrix of French tradition by engaging with five classic sources Plato s Symposium the Song of Songs the myth of Genesis the tension between Greek Eros and Christian Agape and the repercussions of Nietzsche s declaration of the death of God Modern variations on these perennial problematics are then pursued in ten chapters devoted to Proust Val ry Claudel Breton Bataille Duras Barthes Irigaray Emmanuel Kristeva Literary and theoretical perspectives are perfectly blended in his study of these attempts at deciphering Eros The book will appeal not only to students of French

literature but to all those interested in the cultural upheavals of the twentieth century **Mimesis, Desire, and the Novel** Pierpaolo Antonello, Heather Webb, 2015-10-01 Fifty years after its publication in English Ren Girard's *Deceit, Desire, and the Novel* 1965 has never ceased to fascinate challenge inspire and sometimes irritate literary scholars It has become one of the great classics of literary criticism and the notion of triangular desire is now part of the theoretical parlance among critics and students It also represents the genetic starting point for what has become one of the most encompassing challenging and far reaching theories conceived in the humanities in the last century mimetic theory This book provides a forum for new generations of scholars and critics to reassess challenge and expand the theoretical and hermeneutical reach of key issues brought forward by Girard's book including literary knowledge realism and representation imitation and the anxiety of influence metaphysical desire deviated transcendence literature and religious experience individualism and modernity and death and resurrection It also provides a more extensive and detailed historical understanding of the representation of desire imitation and rivalry within European and world literature from Dante to Proust and from Dickens to Jonathan Littell

Encyclopedia of Life Writing Margaretta Jolly, 2013-12-04 First published in 2001 This is the first substantial reference work in English on the various forms that constitute life writing As this term suggests the Encyclopedia explores not only autobiography and biography proper but also letters diaries memoirs family histories case histories and other ways in which individual lives have been recorded and structured It includes entries on genres and subgenres national and regional traditions from around the world and important auto biographical writers as well as articles on related areas such as oral history anthropology testimonies and the representation of life stories in non verbal art forms Proust's Way Roger Shattuck, 2011-02-07 Shattuck leaves us not only with a deepened appreciation of Proust's great work but of all great literature as well Richard Bernstein New York Times For any reader who has been humbled by the language the density or the sheer weight of Marcel Proust's *In Search of Lost Time* Roger Shattuck is a godsend Winner of the National Book Award for Marcel Proust a sweeping examination of Proust's life and works Shattuck now offers a useful and eminently readable guidebook to Proust's epic masterpiece and a contemplation of memory and consciousness throughout great literature Here Shattuck laments Proust's defenselessness against zealous editors praises some translations and presents Proust as a novelist whose philosophical gifts were matched only by his irrepressible comic sense Proust's *Way* the culmination of a lifetime of scholarship will serve as the next generation's guide to one of the world's finest writers of fiction **Bound to Please** Michael Dirda, 2005 A showcase of one hundred of the world's most significant books offers the author's introductory essays on such writers as James Boswell Colette and Joseph Roth and includes explorations of a range of genres and specific works **Backgazing: Reverse Time in Modernist Culture** Paul Giles, 2019-02-14 This volume traces ways in which time is represented in reverse forms throughout modernist culture from the beginning of the twentieth century until the decade after World War II Though modernism is often associated with revolutionary or futurist directions this book argues instead

that a retrograde dimension is embedded within it By juxtaposing the literature of Europe and North America with that of Australia and New Zealand it suggests how this antipodean context serves to defamiliarize and reconceptualize normative modernist understandings of temporal progression Backgazing thus moves beyond the treatment of a specific geographical periphery as another margin on the expanding field of New Modernist Studies Instead it offers a systematic investigation of the transformative effect of retrograde dimensions on our understanding of canonical modernist texts The title backgazing is taken from Australian poet Robert G Fitzgerald's 1938 poem Essay on Memory and it epitomizes how the cultural history of modernism can be restructured according to a radically different discursive map Backgazing intellectually reconfigures US and European modernism within a planetary orbit in which the literature of Australia and the Southern Hemisphere far from being merely an annexed margin can be seen substantively to change the directional compass of modernism more generally By reading canonical modernists such as James Joyce and T S Eliot alongside marginalized writers such as Nancy Cunard and others and relatively neglected authors from Australia and New Zealand this book offers a revisionist cultural history of modernist time one framed by a recognition of how its measurement is modulated across geographical space

Religious Experience and the Modernist Novel Pericles Lewis, 2010-01-07 The modernist period witnessed attempts to explain religious experience in non religious terms Such novelists as Henry James Marcel Proust James Joyce Virginia Woolf and Franz Kafka found methods to describe through fiction the sorts of experiences that had traditionally been the domain of religious mystics and believers In *Religious Experience and the Modernist Novel* Pericles Lewis considers the development of modernism in the novel in relation to changing attitudes to religion Through comparisons of major novelists with sociologists and psychologists from the same period Lewis identifies the unique ways that literature addressed the changing spiritual situation of the early twentieth century He challenges accounts that assume secularisation as the main narrative for understanding twentieth century literature Lewis explores the experiments that modernists undertook in order to invoke the sacred without directly naming it resulting in a compelling study for readers of twentieth century modernist literature

Somatic Desire Christine Rojcewicz, Richard Kearney, Sarah Horton, Stephen Mendelsohn, 2019-01-17 The essays in this volume all ask what it means for human beings to be embodied as desiring creatures and perhaps still more piercingly what it means for a philosopher to be embodied In taking up this challenge via phenomenology psychoanalysis hermeneutics and the philosophy of literature the volume questions the orthodoxies not only of Western metaphysics but even of the phenomenological tradition itself We miss much that has philosophical import when we exclude the somatic aspects of human life and it is therefore the philosopher's duty now to rediscover the meaning inherent in desire emotion and passion without letting the biases of any tradition determine in advance the meaning that reveals itself in embodied desire Continental philosophers have already done much to challenge binary oppositions and this volume sets out a new challenge we must now also question the dichotomy between being at home and being alienated Alterity is not simply something out there separate

from myself rather it penetrates me through and through even in my corporeal experience My body is both my own and other I am other than myself and therefore other than my body Additionally this book is a conversation not a presentation of a new orthodoxy Thus the hope is that these essays will open the way for further dialogue that will continue to radically rethink our understanding of embodied desire Gathered together here are twelve essays that address these issues from deeply interrelated albeit unique perspectives from within the field
