Parties as Governments in Eurasia, 1913-1991 Ivan Sablin, Egas Moniz Bandeira, 2022-08-15 This book examines the political parties which emerged on the territories of the former Ottoman Qing Russian and Habsburg empires and not only took over government power but merged with government itself It discusses how these parties disillusioned with previous constitutional and parliamentary reforms justified their takeovers with programs of controlled or supervised economic and social development including acting as the mediators between the various social and ethnic groups in the respective territories It pays special attention to nation building through the party to institutions both constitutional and de facto and to the global and comparative aspects of one party regimes It explores the origins of one party regimes in China Czechoslovakia Korea the Soviet Union Turkey Yugoslavia and beyond the roles of socialism and nationalism in the parties approaches to development and state building as well the pedagogical aspirations of the ruling elites Hence by revisiting the dynamics of the transition from the earlier imperial formations via constitutionalism to one party governments and by assessing the internal and external dynamics of one party regimes after their establishment the book more precisely locates this type of regime within the contemporary world's political landscape Moreover it emphasises that one party regimes thrived on both sides of the Cold War and in some of the non aligned states and that although some state socialist one party regimes collapsed in 1989 1991 in other places historically dominant parties and new parties have continued to monopolize political power The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

A Bitter Revolution Rana Mitter, 2004 China is now poised to take a key role on the world stage but in the early twentieth century the situation could not have been more different Rana Mitter goes back to this pivotal moment in Chinese history to uncover the origins of the painful transition from a premodern past into a modern world By the 1920s the

seemingly civilized world shaped over the last two thousand years by the legacy of the great philosopher Confucius was falling apart in the face of western imperialism and internal warfare Chinese cities still bore the imprints of its ancient past with narrow lanes and temples to long worshipped gods but these were starting to change with the influx of foreign traders teachers and missionaries all eager to shape China's ancient past into a modern present Mitter takes us through the resulting social turmoil and political promise the devastating war against Japan in the 1940s Communism and the Cultural Revolution of the 1960s and the new era of hope in the 1980s ended by the Tian anmen uprising He reveals the impetus behind the dramatic changes in Chinese culture and politics as being China's New Culture a strain of thought which celebrated youth individualism and the heady mixture of strange and seductive new cultures from places as far apart as America India and Japan

A Century of Student Movements in China Xiaobing Li, Qiang Fang, 2019-12-02 In this book the authors offer their unique perspectives on the important roles Chinese students and intellectuals played in the shaping of the twentieth century China Their answers to these pivotal questions explore new nationalistic spirit modern world views and willingness of self sacrifice which had attributed to the spontaneous actions of the students as a New Culture emerged during the May Fourth Movement These articles show how China nurtured these spontaneous student movements even though the Nationalist Party in the Republic of China and the Communist Party in the People's Republic had exerted tight control over schools Both governments established organizations as well as operations among students that effectively turned some of the student movements into a political instrument by the parties for their own agenda

Underground Patricia Stranahan, 1998 This pathbreaking study offers the first in depth view of the urban revolution during the pivotal Nanjing Decade Focusing on China's largest and most cosmopolitan city Stranahan examines how the Party organization in Shanghai severed from the central leadership and pursued by Guomindang and foreign authorities alike survived through a flexible organizing strategy attuned to the changing local environment

particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades

Chinese Revolution in Practice Guo Wu, 2023-10-24 This book employs multiple case studies to explore how the Chinese communist revolution began as an ideology oriented intellectual movement aimed at improving society before China's transformation into a state that suppresses dissenting voices by outsourcing its power of coercion and incarceration The author examines the movement's methods of early self organization grass roots level engagement creation of new modes of expression and popular art forms manipulation of collective memory and invention of innovative ways of mass incarceration Covering developments from 1920 to 1970 the book considers a wide range of Chinese individuals and groups from early Marxists to political prisoners in the PRC to illustrate a dynamic interactive process in which the state and individuals contend with each other It argues that revolutionary practices in modern China have created a regime that can be conceptualized as an ideology military propaganda state that prompts further reflection on the relationships between revolution and the state the state and collective articulation and memory and the state and reflective individuals in a global context Illustrating the continuity of the Chinese revolution and past decades socialist practices and mechanisms this study is an ideal resource for scholars of Chinese history politics and twentieth century revolutions
