The Relationship Between Psalmody and Prayer in the Writings of Evagrius Ponticus Luke Dysinger, 1999

Psalmody and Prayer in the Writings of Evagrius Ponticus Luke Dysinger, 2005 Evagrius often neglected commentaries on scripture are discussed together with his better known works in order to present a more balanced picture of the monk and his model of the spiritual life as a rhythm back and forth between the poles of image filled prayer and imageless wordless pure prayer

Prayer and Worship in Eastern Christianities, 5th to 11th Centuries Brouria Bitton-Ashkelony, Derek Krueger, 2016-10-04 Prayer and Worship in Eastern Christianities 5th to 11th Centuries forges a new conversation about the diversity of Christianities in the medieval eastern Mediterranean centered on the history of practice looking at liturgy performance prayer poetry and the material culture of worship It studies prayer and worship in the variety of Christian communities that thrived from late antiquity to the middle ages Byzantine Orthodoxy Syrian Orthodoxy and the Church of the East Rather than focusing on doctrinal differences and analyzing divergent patterns of thought the essays address common patterns of worship individual and collective prayer hymnography and liturgy as well as the indigenous theories that undergirded Christian practices The volume intervenes in standard academic discourses about Christian difference with an exploration of common patterns of celebration commemoration and self discipline Essays by both established and promising younger scholars interrogate elements of continuity and change over time before and after the rise of Islam both under the control of the Eastern Roman Empire and in the lands of successive caliphates Groups distinct in their allegiances nevertheless shared a common religious heritage and recognized each other even in their differences as kinds of Christianity A series of chapters explore the theory and practice of prayer from Greco Roman late antiquity to the Syriac middle ages highlighting the transmission of monastic discourses about prayer especially among Syrian and Palestinian ascetic teachers Another set of essays examines localization of prayer within churches through inscriptions donations dedications and incubation Other chapters treat the composition and transmission of hymns to adorn the liturgy and articulate the emotions of the Christian calendar structuring liturgical and eschatological time

The Oxford Handbook of the Psalms William P. Brown, 2014-02-28 The Psalms the longest and most complex book in the Bible is a varied collection of religious poetry the product of centuries of composition and revision It is the most transcribed and translated book of the Hebrew Bible Intended for both scholar and student The Oxford Handbook of the Psalms features a diverse array of essays that treat the Psalms from a variety of perspectives Beginning with an overview of the Psalms that touches on the history of scholarship and interpretation the volume goes on to explore the Psalms as a form of literature and a source of creative inspiration an artifact

whose origins remain speculative a generative presence in Judaism Christianity and Islam and a still current text that continues to be read and appropriated in various ways Classical scholarship and traditional approaches as well as contextual interpretations and practices are well represented The Handbook s coverage is uniquely wide ranging covering everything from the ancient Near Eastern background of the Psalms to contemporary liturgical usage This volume offers a dynamic introduction into an increasingly complex field and will be an indispensable resource for all students of the Psalms The Geometry of Christian Contemplation David Albertson,2025-05-16 The writings of ancient and medieval Christian mystics were rediscovered in the twentieth century and today they are read more widely than ever before But do modern assumptions about religious experience influence how we hear those premodern voices Do we do them justice by thinking of mysticism as interior and ineffable Or can mystical experience intersect with the natural environment and indeed the cosmos which science calculates with precise quantities David Albertson s The Geometry of Christian Contemplation Measure without Measure suggests a fresh approach to the history of mystical theology that is oriented toward exteriority more than interiority and toward the measurable world outside more than the invisible world within The ancient Greek philosopher Plotinus had taught contemplatives to close their eyes and withdraw into the soul Most Christians followed his directions but others dissented In three critical episodes an alternative model of Christian contemplation began to emerge from Dionysius the Areopagite to the Byzantine monks John of Damascus and Theodore the Studite to eccentric humanists in medieval Paris Together these episodes add up to a very different theological aesthetics one that can enliven the modern study of mysticism and correct some of its imbalances For in the centuries before the scientific revolution and the secularization of nature Christians still saw God in the exterior world not only the interior soul God was not an ineffable and formless Absolute immeasurable as the soul but an infinite Measure who leaves behind geometrical traces in the figures of the world The God who became a human body in the Incarnation not only entered time and matter but also spatial extension and with it the conditions of measure points lines curves shapes planes dimensions and magnitudes Today the wisdom of this counter tradition can strengthen the study of mysticism not only by supplementing our contemporary fascination with negative theology by redefining what it means to name God positively but by suggesting a new connection between Christian mysticism and the hyper measured hyper technologized world that surrounds us **The Harp of Prophecy** Brian E Daley,Paul R Kolbet,2015-01-30 The Psalms generated more biblical commentary from early Christians than any other book of the Hebrew and Christian canon While advances have been made in our understanding of the early Christian preoccupation with this book and the traditions employed to interpret it no study on the Psalms traditions exists that can serve as a solid academic point of entry into the field This collection of essays by distinguished patristic and biblical scholars fills this lacuna It not only introduces readers to the main primary sources but also addresses the unavoidable interpretive issues present in the secondary literature The essays in The Harp of Prophecy represent some of the very best scholarly

approaches to the study of early Christian exegesis bringing new interpretations to bear on the work of influential early Christian authorities such as Athanasius Augustine and Basil of Caesarea Subjects that receive detailed study include the dynamics of early Christian political power gender expressions and the ancient conversation between Christian Jewish and Greek philosophical traditions The essays and bibliographic materials enable readers to locate and read the early Christian sources for themselves and also serve to introduce the various interdisciplinary methods and perspectives that are currently brought to bear on early Christian psalm exegesis Students and scholars of theology and biblical studies will be led in new directions of thought and interpretation by these innovative studies

Ascetic Pneumatology from John Cassian to Gregory the Great Thomas L. Humphries, 2013-10 A study of how Christians understood the Holy Spirit in the 5th and 6th centuries Humphries argues that we can see various schools of thought within Christianity in this period but that many of them are occupied with similar questions about how to understand human life and how to understand divine life

Experiencing Byzantium Claire Nesbitt, Mark Jackson, 2016-04-22 From the reception of imperial ekphrasis in Hagia Sophia to the sounds and smells of the back streets of Constantinople the sensory perception of Byzantium is an area that lends itself perfectly to an investigation into the experience of the Byzantine world The theme of experience embraces all aspects of Byzantine studies and the Experiencing Byzantium symposium brought together archaeologists architects art historians historians musicians and theologians in a common quest to step across the line that divides how we understand and experience the Byzantine world and how the Byzantines themselves perceived the sensual aspects of their empire and also their faith spirituality identity and the nature of being in Byzantium The papers in this volume derive from the 44th Spring Symposium of Byzantine Studies held for the Society for the Promotion of Byzantine Studies by the University of Newcastle and University of Durham at Newcastle upon Tyne in April 2011 They are written by a group of international scholars who have crossed disciplinary boundaries to approach an understanding of experience in the Byzantine world Experiencing Byzantium is volume 18 in the series published by Ashgate on behalf of the Society for the Promotion of Byzantine Studies
